lines, so that vehicle testing either is imminent or has already begun. Therefore, proposing this amendment for comment before allowing manufacturers to take advantage of the cost savings intended by this action would negate the very purpose of the action.

EPA will, however, consider comments on this rule received within 30 days after publication of this notice. In particular, EPA requests manufacturers and other interested persons to submit comments and information on the appropriateness of the current LDT performance criteria within 90 days after publication of this notice. If, as a result of those comments, additional changes to the regulations are appropriate, EPA will consider additional rule changes.

Please submit written comments to: U.S. Environmental Protection Agency, Central Docket Section (A–130), Attn: Docket No. A–79–14, Waterside Mall, West Tower Lobby, Gallery I, 401 M Street, SW., Washington, D.C. 20460. The docket may be inspected between 8:00 a.m. and 4:00 p.m., Monday through Friday. A reasonable fee may be charged for copying service.

VI. Administrative Designation

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it reduces the economic burden of the exisitng regulations and will result in an annual effect on the economy of less than $100 million. Also, this regulation will not result in increased prices or costs to consumers, industries or others, nor should it have adverse effects on competition, employment, investment or productivity.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

VII. Regulatory Flexibility Act

Under the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*,

EPA is required to determine whether a regulation will have a significant economic impact on a substantial number of small entities so as to require a regulatory analysis. This rulemaking should reduce the costs of compliance with high-altitude emission requirements for all manufacturers of light trucks. Therefore, I hereby certify that this rule will not have a significant economic impact on a substantial number of small entities.

Dated: May 17, 1982.

Anne M. Gorsuch,

Administrator.

PART 86—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES: CERTIFICATION AND TEST PROCEDURES

For the reasons set forth in the preamble, EPA amends 40 CFR Part 86, Subpart A as follows:

In § 86.083–9, (g)(2) is redesignated as (g)(4); (g)(2), (5) and (6) are added; and (g)(3) is revised, to read as follows:

§ 86.083–89 Emission standards for 1983 and later model year light-duty trucks.

* * * * *

(g) * * *

(2) The manufacturer may exempt 1983 model year light-duty trucks from high-altitude emission standards as set forth in paragraph (d) of this section. No specific justification for the exemption need be included in the application for certification. The exemptions may include up to 30 percent of the manufacturer's projected light-duty trucks sales for principal use at designated high-altitude locations for the 1983 model year. For this purpose, the sales percentage will be based on sales projections for individual vehicle configurations to be exempted. Exemptions will cover individual vehicle configurations, or groups of vehicle configurations, as specified by the manufacturer.

(3) The sale of a vehicle for principal use at a designated high-altitude location that has been exempted as set forth in paragraph (g)(2) of this section will not be considered a violation of section 203(a)(1) of the Clean Air Act.

* * * * *

(5) No exemptions will be granted under paragraph (g)(4) to any manufacturer that has exempted vehicle configurations as set forth in paragraph (g)(2).

(6) The sale of a vehicle for principal use at a designated high-altitude location that has been exempted as set forth in paragraph (g)(4) of this section will be considered a violation of section 203(a)(1) of the Clean Air Act.

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6305]

List of Communities Eligible for the Sale of Insurance Under the National Flood Insurance Program

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: This rule lists communities participating in the National Flood Insurance Program (NFIP). These communities have applied to the program and have agreed to enact certain flood plain management measures. The communities' participation in the program authorizes the sale of flood insurance to owners of property located in the communities listed.

EFFECTIVE DATE: The date listed in the fifth column of the table.

ADDRESSES: Flood insurance policies for property located in the communities listed can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurance Program (NFIP) at: P.O. Box 34294, Bethesda, Maryland 20034, Phone: (800) 638-6620.

FOR FURTHER INFORMATION CONTACT: Mr. Richard E. Sanderson, Chief, Natural Hazards Division, (202) 287-0270, 500 C Street Southwest, Donohoe Building, Room 505, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction from future flooding. Since the communities on the attached list have recently entered the NFIP, subsidized flood insurance is now available for property in the community.

In addition, the Director of the Federal Emergency Management Agency has identified the special flood hazard areas in some of these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. In the communities listed where a flood map has been published, Section 102 of the Flood Disaster Protection Act of 1973, as amended, requires the purchase of flood insurance as a condition of Federal or
