Notices regarding proposed changes in the navigation and vessel inspection regulations were published in the FEDERAL REGISTER dated March 7, 1957 (22 F. R. 1433–1439), March 28, 1957 (22 F. R. 2047), and May 4, 1957 (22 F. R. 3185, 3186), as Items I through XVII of the Agenda to be considered by the Merchant Marine Council. Pursuant to these notices a public hearing was held on May 7, 1957 by the Merchant Marine Council at Washington, D. C. This document is the tenth and the last of a series covering the regulations considered at this public hearing. The first document (CGFR 57–26) deals with the inspection of shipboard cargo gear on passenger, cargo, and miscellaneous vessels and was published June 5, 1957, 22 F. R. 3924. The second Federal Register document (CGFR 57–27) deals with lifesaving, fire protection, and grain loading requirements for passenger, cargo, and miscellaneous vessels and was published June 7, 1957 (22 F. R. 4018–4021). The third document (CGFR 57–29) deals with cargo tanks for liquefied inflammable gases and anhydrous ammonia, stowage of baled cotton, and use of equivalents or alternative procedures respecting dangerous cargoes and was published June 25, 1957 (22 F. R. 4446, 4447). The fourth Federal Register document (CGFR 57–30) deals with crew accommodations on tank ships and was published June 25, 1957 (22 F. R. 4447, 4448). The fifth document (CGFR 57–31) deals with drydocking of passenger, tank, cargo, and miscellaneous vessels and was published July 20, 1957 (22 F. R. 5793, 5794). The sixth Federal Register document (CGFR 57–32) deals with the first assistant engineer of vessels not over 2,000 horsepower and examination of lifeboatmen and able seamen and was published July 25, 1957 (22 F. R. 5894, 5895). The seventh Federal Register document (CGFR 57–33) deals with miscellaneous amendments respecting dangerous cargoes and was published October 29, 1957 (22 F. R. 8559–8723). The eighth Federal Register document (CGFR 57–36) deals with structural fire protection for passenger vessels and was published August 2, 1957 (22 F. R. 6095, 6096). The ninth Federal Register document (CGFR 57–39) deals with deck officers for vessels in the mineral and oil industries and was published August 24, 1957 (22 F. R. 6872, 6873). The Merchant Marine Council withdraw Items VII, IX, and XIV for further consideration.

The Coast Guard acknowledges the assistance given to the Merchant Marine Council by those interested parties who submitted comments, views, and data in connection with the items considered at the Merchant Marine Council public hearing. On the basis of the information received, certain proposed regulations were revised. With respect to Item VI—Marine Engineering Regulations and Material Specifications, Miscellaneous Amendments, changes were made in some of the proposals.

With respect to material specifications in 46 CFR Part 51, the ASTM standard A234–57T entitled "Factory Made Wrought Steel and Ferritic Alloy Steel Welding Fittings", and ASTM standard A403–57T entitled "Factory Made Austenitic Welding Fittings" were added to Table 51.46–1, respecting material specifications for steel forgings.

The proposals with respect to piping systems were revised. The change in 46 CFR 55.01–10, regarding plan approvals of piping systems should provide a better schedule of plan submittal so that the Coast Guard will obtain sufficient piping information for vessel inspection. The changes in 46 CFR 55.07–1 authorize the Commandant to permit the use of plastic pipe and flexible hose in piping systems based upon data submitted by the shipyard or operators. The changes in 46 CFR 55.07–15 and Figure 55.07–15 (f) (3) clarify the requirements under which slip-on flanges are permitted. The change to 46 CFR 55.10–50 permits openings in the bottom of diesel fuel tanks for cleaning purposes in order that these requirements will be similar to changes made with respect to gasoline fuel tanks. The changes in 46 CFR 56.01–85 provide requirements for special fittings fabricated by welding which do not conform to the industrial standard ASTM A234. With respect to 46 CFR 57.25–35 regarding rudder stops and follow ups, the regulations have been reworded to require a rudder indicating device in order to show the position of the rudder with respect to the helm position when non-follow-up controls are employed. The proposal respecting the after steering station was not changed. The requirements in 46 CFR 61.30–5 (c), respecting shop tests, was revised so that only special welded pipe fittings, not manufactured in accordance with ASTM standards specified in 46 CFR 51.46–1, are required to be shop tested in accordance with 46 CFR 56.01–85.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Orders 120, dated July 31, 1950 (15 F. R. 6521), 167–14, dated November 26, 1954 (19 F. R. 8026), and CGFR 56–28, dated July 24, 1956 (21 F. R. 5659), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments are prescribed and shall become effective thirty days after the date of publication of this document in the FEDERAL REGISTER:

PART 51—MATERIALS

SUBPART 51.04—MARINE BOILER STEEL PLATE

Section 51.04–1 *Scope* is amended by revising in "Table 51.04–1—Material Specifications" the reference to ASTM specification designation (column 1) from "A204–54T" to "A204–56."
