1905
EO
372-4

EXECUTIVE ORDER.

In accordance with the provisions of Sections 2250 and 2252 of the Revised Statutes of the United States, and by virtue of the authority therein given, it is hereby ordered that:

The Bent land district in the State of Colorado, with office at Lamar, Colorado, be discontinued and the lands, business and archives of said land district and office transferred to and consolidated with the Arkansas Valley land district, with office at Pueblo, Colorado.

THE WHITE HOUSE.
[illegible], 1905. Theodore Roosevelt

WAR DEPARTMENT,

WASHINGTON,

9250

November 20, 1905.

THE PRESIDENT:

I have the honor to recommend that all the lands included within the limits of the military reservation of Fort St. Michael, Alaska, declared by Executive Order of October 20, 1897 (G. O. 59, Headquarters of the Army, October 20, 1897), reduced by Executive Order of April 13, 1899 (G. O. 77, Headquarters of the Army, April 20, 1899), and further reduced by Executive Order of October 27, 1900 (G. O. 132, Headquarters of the Army, November 3, 1900), except the lands hereinafter described, which are to be retained for military purposes, be placed under the control of the Secretary of the Interior for disposition under the Act of July 5, 1884 (23 Stat. L., 103), or as may be otherwise provided by law; said lands having become useless for military purposes.

The lands to be held in reservation for military purposes are bounded and described as follows:

POST OF FORT ST. MICHAEL. Beginning at a post of basaltic lava (one foot square, marked on the faces with the initials U. S. M. R., one letter on each face, and with the number one cut in its top surface) set in a cement foundation, and projecting one foot above high water, on the shore of St. Michael Bay, at a point whence SW. corner of N. C. Co's shops, distant about 447 feet, bears N. 54° 2' East, and the flagstaff of Fort St. Michael bears N. 33° 34' W; thence North 500 feet, more or less, to a similar

post, having the number two cut in its top surface; thence N. 26° E. to the north shore of St. Michael Island on a line running about 125 yards east of parapets on target range, to a similar post, having the number three cut in its top surface, situated at high water mark on the north shore of St. Michael Island; thence in a westerly direction 4500 feet, more or less, along the north shore to a similar post having the number four cut in its top surface, located near the west end of high bluff; thence about S. 14° 30' E. 3750 feet, more or less, to a similar post having the number five cut in its top surface; thence S. 14° 15' W. 630 feet, more or less, to a similar post, having the number six cut in its top surface, placed on the south shore of St. Michael Island, at high water mark, 12 feet E. of the east end of the Hotel Healy Annex; thence in an easterly direction along the south shore to point of beginning. All bearings are true.

The northern boundary of the reservation is Norton Sound, the southern boundary is the Bay of St. Michael, and the reservation includes all land between high and low water mark and all tidal lands lying between the eastern and western boundary lines extended.

QUARTERMASTER'S DEPOT AND SHIP-YARD. Beginning at a post of lava (one foot square, marked on the faces with the initials U. S. M. R., one letter on each face, and having the number ten cut in its top surface) situated 51 feet north of the Quartermaster's Depot on the beach, near high water mark; thence N. 81° 30' W. 718 feet, more or less, to a similar post, having the number nine cut in its top surface; thence due South 778 feet, more or less, to a similar post, having the number eight cut in its top surface; thence due East to the Bay of St. Michael to a similar post, having the number seven cut in its top surface, on the beach near high water mark; thence North, along the shore line, to the place of beginning. All bearings are true.

The eastern boundary is the Bay of St. Michael, and the reservation includes all land between high and low water mark and all tidal lands lying between the northern and southern boundary lines extended.

WIRELESS TELEGRAPH STATION. Beginning at the NE. corner of Buttel's lot, which lies about 300 feet NE. of the A. E. Co's hotel building on the south shore of the eastern end of St. Michael Island, and is marked by a post of lava (one foot square, marked on the faces with the initials U. S. M. R., one letter on each face, and having the number eleven cut in its top surface) set on the beach, at high water mark, projecting one foot above the beach; thence North across the island to the north shore of same and on a line passing through a similar post, having the number twelve cut in its top surface, set on top of the bank, just above high water mark; thence following the north shore line, bearing eastwardly, to a point near high water mark, 800 feet due east of the western boundary line, said point being marked by a similar post having the number fourteen cut in its top surface; thence due South to the south shore to a similar post having the number thirteen cut in its top surface; thence in a westerly direction, along the south shore, to the point of beginning.

The northern boundary of the reservation is Norton Sound, the southern boundary is the Bay of St. Michael, and the reservation includes all land between high and low water mark and all tidal lands lying between the eastern and western boundary lines extended. All bearings are true.

Also a strip of land, fifty feet wide, along the pipe line extending from the reservation for Wireless Telegraph Station to the reservation for the post of Fort St. Michael; the center line of said strip being the center line of the said pipe line.

TARGET RANGE (FOR COLLECTIVE FIRE). A rectangular tract, 8,275 feet by 900 feet, having for its longer axis the magnetic meridian through a point about 2,100 feet west of post No. 4 (the NW. corner of the Post Reservation), which point is marked by a post of lava (one foot square, marked on the faces with the initials U. S. M. R., one letter on each face) bearing on the M. Wireless pole 90° E. of magnetic meridian and on the comb of the Quartermaster's Depot, 26° 42' E. of magnetic meridian. This rectangular tract is marked at the NE. corner, on the beach, near high water mark, by a similar post, having the number fifteen cut in its top surface; at the

SE. corner by a similar post having the number sixteen cut in its top surface; at the SW. corner by a similar post having the number seventeen cut in its top surface; and at the NW. corner by a similar post having the number eighteen cut in its top surface.

The northern boundary is Norton Sound, and the reservation includes all land between high and low water mark and all tidal lands lying between the eastern and western boundary lines extended.

Also a strip of land, fifty feet wide, for right of way from the reservation for target range to the post reservation -- the center line to the beach being in a line bearing from the initial point of the target range 90° East of the magnetic meridian -- said strip extending thence along the beach to the post reservation.

Magnetic variation 21° 30′ 40″ E.

In order that this action may not operate as a surprise upon parties having possession of sites within the reservation, for business purposes, under licenses from the War Department, and in order to give such parties opportunity to take steps to present their papers for the purpose of obtaining title to their holdings from the Interior Department, it is recommended that the transfer herein recommended take effect on November 1, 1906.

Very respectfully,

Secretary of War.
