3201

Executive Order

Mr. Edward W. Oyster, a veteran of the Civil War, with many years of service in the Government Printing Office and Interior and Treasury Departments, may be reinstated in the Federal Board for Vocational Education as supervising audit clerk at two thousand ($2000) dollars per annum, the requirement of reinstatement and service of six months immediately following in one of the Departments in which he was formerly employed being waived.

The Civil Service Commission recommends this action because of the long and excellent record of Mr. Oyster in the Government service in a supervisory capacity.
