TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[5th Gen. Rev. of Export Regs. Amdt. 105 [1]]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 374—PROJECT LICENSES

PART 398—PRIORITY RATINGS AND SUPPLY ASSISTANCE ASSIGNED BY OIT

MISCELLANEOUS AMENDMENTS

1. Section 373.7 *Special provisions for machinery and parts*, paragraph (e) *Metalworking machines* is amended to read as follows:

(e) *Metalworking machines*—(1) *Commodities.* The provisions of this paragraph are applicable to certain metalworking machines (including machine tools), appearing on the Positive List of Commodities under Schedule B Nos. 740005 through 744319, 744410 through 744700, 745990, and 766993, as defined and listed in detail in NPA Order M-41, as amended.

(2) *Additional application requirements.* In addition to the provisions of paragraph (a) of this section and other applicable requirements, applications for licenses to export the metalworking machines (including machine tools) described in subparagraph (1) of this paragraph must be accompanied by one of the following:

(i) A statement that a DO rating has been assigned, as set forth in § 398.4 of this chapter.

(ii) Form IT-835 (Request for Special Supply Assistance), executed in accordance with the provisions of § 398.4 (c) of this chapter; or, where the exportation is to be made to a country for which the Mutual Security Agency is claimant agency (see § 398.1 (c) of this chapter), a statement that the request for supply assistance has been submitted through the Washington mission of the country of destination to the Mutual Security Agency, Washington 25, D. C.

[1] This amendment was published in Current Export Bulletin No. 667, dated May 15, 1952.

(iii) Evidence of availability, as required by § 373.16, where the supplier is not a producer of the machines.

NOTE: Commodities covered in this paragraph are defined and listed in detail in NPA Order M-41, as amended. Copies of this order may be obtained from any field office of the Department of Commerce and from the Distribution Office, National Production Authority, Department of Commerce, New GAO building, Fourth and G Streets NW., Washington 25, D. C.

Section 373.16, *Special provisions for certain commodities; evidence of availability*, is amended by correcting the Schedule B numbers for metalworking machinery to conform with the above.

2. Section 373.16 *Special provisions for certain commodities; evidence of availability*, paragraph (b) *Commodities* is amended in the following particulars:

The last listing (metalworking machines) is amended to read as follows:

(Under the conditions set forth in § 373.7 (e) (2)) metalworking machines (including machine tools): Schedule B Nos. 740005 through 744319; 744410 through 744700; 745990, and 766993.

3. Section 373.51 *Supplement 1: Time schedules for submission of applications for licenses to export certain Positive List commodities* is amended in the following particulars:

a. For the second and third quarters 1952, and the fourth quarter 1952 (relating to metals and manufacturers), footnote 2 is amended by changing the second parenthetical reference to read:

(See § 398.8 (e) of this chapter.)

b. Footnote 4 after Controlled Materials is deleted and the same footnote 4 is added after "Commodities with processing code STEE".

4. Section 374.1 *Project licenses*, paragraph (b) *Bases for consideration of project license applications* is amended in the following particulars:

a. The second unnumbered subdivision of subparagraph (2) *SP licenses* is amended to read as follows:

The use of the SP (Special) license procedure shall be mandatory for all large petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used

is $50,000 or more. For such projects priority assistance is requested on Form PAD–26A (revised March 1952). If, at the time Form PAD–26A is submitted requesting priority assistance for such an operation, the applicant holds an SP license which is identical in coverage with the large construction operation, no new SP license will be issued and no application therefor need be filed. Ref-

erence to the outstanding SP license should be made on Form PAD–26A or in a letter attached thereto. In all other cases, however, application for SP license on Form IT–419 covering only the large construction operation under consideration must accompany Form PAD–26A. If in these circumstances an applicant under PAD–26A holds an outstanding SP license, which either includes as a component part the construction operation for which supply assistance is requested or covers it in part, the outstanding SP license must be amended to delete that portion involving the large construction operation. Such an application for amendment must be filed simultaneously with the application for a new SP license covering the large construction operation.

b. Note 1 following paragraph (b) is amended to read as follows:

NOTE 1: *Project license identification.* If a project license is issued, it will be given a license number with either the prefix "SP" (if approved as a Special Project license) or with the prefix "DL" (if approved as a Dollar Limit license). Project licenses issued in connection with the approval of Form PAD–26A, for large petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more, will be given a license number with the prefix "SP 26".

5. Section 374.3 *SP (Special) project licenses* is amended in the following particulars:

a. Note 1 following paragraph (a) *License application form,* is amended to read as follows:

NOTE 1: These supplementary documents include Form IT–375, SP (Special) License Application Material Requirements List, which will be used for all other projects or programs except petroleum; Form IT–824, Application for Export License and/or Supply Assistance for Foreign Petroleum Operations; and Form PAD–26A (revised March 1952), which will be used only for petroleum construction projects in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources is $50,000 or more.

b. Paragraph (c) *Letter of explanation* is amended to read as follows:

(c) *Letter of explanation.* A letter, in duplicate, giving full details as to urgency of need of the commodities and the nature of the operation for which they are required. In the case of foreign petroleum construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more, the application must be accompanied by Form PAD–26A (revised March 1952) in lieu of the letter of explanation. For all other petroleum projects, the application must be accompanied by a statement in quintuplicate setting forth the specific information required by the Office of International Trade.

c. Subparagraph (1) *Construction projects over $10,000,* of paragraph (e) *Commodity requirements for petroleum projects and programs,* is amended by changing the title and the first sentence to read as follows:

(1) *Large construction projects.* Form PAD–26A (revised March 1952), in quintuplicate, must accompany each license application, Form IT–419, involving construction operations in which the total cost of controlled materials from the United States is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more. * * *

d. Subparagraph (3) *Time of submission of firm requirements,* of paragraph (e) *Commodity requirements for petroleum projects and programs,* is amended to read as follows:

(3) *Time of submission of firm requirements.* Requirements shall be submitted in accordance with the provisions of § 398.8 (e) of this chapter.

6. Section 398.5 *CMP; export allocations and procedures,* paragraph (b) *Procedures governing applications to export controlled materials* is amended in the following particulars:

Subparagraph (5) *Exceptions to time schedules* is amended to read as follows:

(5) *Exceptions to time schedules for commodities with the processing code STEE.* Section 373.51 of this chapter establishes time schedules for submission of applications for licenses to export controlled materials. Under the conditions set forth in this section, an exception to these time schedules is granted. If an applicant has in his possession or at his command controlled materials with the processing code STEE that he wishes to export and they are ready for prompt shipment, or will be ready within the current or immediately succeeding quarter, an application may be submitted to the Office of International Trade at any time. In each such instance, the applicant must clearly indicate on the face of his application (i) that the material is ready for export and that an allotment is not required or (ii) that there is mill space which will be made available to the applicant upon issuance of a CMP allotment on a mill schedule for the current or next succeeding quarter. Applicant must submit appropriate documentary evidence (letters, telegrams, invoices, bills of sale, mill notice of availability, or other documents, as may be applicable) to substantiate the statements that (*a*) the material is in his possession or at his command and is ready for export or will be ready for export within the current or immediately succeeding quarter and that an allotment is not required or (*b*) that there is mill space which will be made available to the applicant upon issuance of a CMP allotment on a mill schedule for the current or next succeeding quarter. Acceptance of applications meeting these conditions is not to be construed as assurance of approval by the Office of International Trade, since quota considerations or end-use restrictions may make this impossible.

7. Section 398.8 *Supply assistance for foreign petroleum operations,* is amended in the following particulars:

a. A new paragraph (b) *Definitions* is added to read as follows:

(b) *Definitions.* (1) "Construction operation" means, for the purposes of this section, any use of material for construction, expansion, improvement or reconstruction, incident to any branch of the petroleum industry other than production but shall include, however, the following uses of material incident to production:

(i) A use of material for a vacuum plant or facility; a cycling plant or facility; a plant or facility used for stabilizing of crude oil; a plant or facility for the accumulation and storage of crude oil; a plant or facility for the extraction or recovery of natural gasoline or associated hydrocarbons; or for other treatment, processing, or compression of natural gas;

(ii) A use of material in a secondary recovery production operation by water flooding or by utilization of gas; or

(iii) A use of material for production offices or camp and related facilities.

(2) "Large construction operation" means, for the purposes of this section, a complete construction operation in which the total cost of controlled materials from the United States to be used is $10,000 or more, or in which the total cost of all materials from all sources to be used is $50,000 or more.

b. Paragraph (b) *Scope* is renumbered paragraph (c) and amended by deleting the parenthetical material in subparagraph (1).

c. Paragraph (c) *Who may apply* is renumbered paragraph (d).

d. Paragraph (d) *When to apply* is renumbered paragraph (e).

e. Paragraph (e) *Instructions for Forms PAD–26A and IT–824* is renumbered paragraph (f) and the parenthesis following the second unnumbered subparagraph is amended to read as follows: (See § 398.8 (e) for filing dates.)

f. Paragraph (f) *Large construction operations,* is renumbered paragraph (g) and subparagraph (1) is amended to read as follows:

(1) Materials for use in any one complete construction operation in which the total cost of controlled materials from the United States is less than $10,000, or in which the total cost of all materials from all sources to be used is less than $50,000.

g. Paragraph (g) *Other than large construction operations (materials for use in production, small construction operations, maintenance, repair, operating supplies, and laboratory equipment),* is renumbered paragraph (h), and the first unnumbered subdivision of subparagraph (1) *General* is amended to read as follows:

(1) *General.* A petroleum operator desiring priority assistance for materials required for use in other than a large construction operation as outlined in paragraph (g) of this section must file, for each quarter, five (5) copies of Form IT–824 with the Office of International Trade. Application is to be filed in accordance with paragraph (f) of this section and instructions printed on the

form. Included on the form will be all materials requirements of the operator for the quarter for which the form is filed, except materials covered in separate applications filed on PAD-26A as explained in paragraph (g) of this section.

h. Paragraph (h) *Amendments*, paragraph (i) *Assignment and use of allotment symbols and DO ratings*, and paragraph (j) *Revocation or denial* are renumbered paragraphs (i), (j), and (k), respectively.

This amendment shall become effective as of May 15, 1952.

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities*, is amended in the following particulars:

The entries on the Positive List under Schedule B No. 722025, "Parts and accessories, n. e. c., specially fabricated for contractors' wheel-type tractors"; Schedule B No. 788901, "Parts and accessories, n. e. c., specially fabricated for track-laying tractors"; and Schedule B No. 788905, "Parts and accessories, n. e. c., specially fabricated for wheel type tractors, except garden tractors" incorrectly indicate that the commodities are subject to the IC/DV procedure (see § 373.34 of this chapter). The "A" is hereby removed.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Rev. S. O. 562, Amdt. 4]

PART 97—ROUTING OF TRAFFIC

REROUTING; APPOINTMENT OF AGENT

At a session of the Interstate Commerce Commission, Division 3 held at its office in Washington, D. C., on the 19th day of May A. D. 1952.

Upon further consideration of the provisions of Revised Service Order No. 562 (14 F. R. 2697), as amended (15 F. R. 3105, 8651; 16 F. R. 4551), and good cause appearing therefor: It is ordered, that:

Section 97.562 *Rerouting of traffic; appointment of Agent*, of Revised Service Order No. 562 be, and it is hereby, further amended by substituting the following paragraphs (a) and (d) hereof for paragraphs (a) and (d) thereof:

(a) Charles W. Taylor, Director, Bureau of Service, Interstate Commerce Commission, Washington 25, D. C., is hereby designated and appointed an Agent of the Interstate Commerce Commission and vested with authority to authorize diversion and rerouting of loaded and empty freight cars from and to any point in the United States whenever in his opinion an emergency exists whereby any railroad is unable to move traffic currently over its lines.

(d) *Expiration date.* This order shall expire at 11:59 p. m., May 25, 1953, unless otherwise modified, changed, suspended, or annulled by order of this Commission.

It is further ordered, that this amendment shall become effective at 11:59 p. m., May 25, 1952; that a copy of this order and direction be served upon the state railroad regulatory bodies of each State, upon all common carriers by railroad subject to the Interstate Commerce Act, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies secs. 1, 15, 24 Stat. 379, as amended, 384 as amended; 49 U. S. C. 1, 15)

By the Commission, Division 3.

TITLE 22—FOREIGN RELATIONS

Chapter III—International Claims Commission, Department of State

PART 302—SPECIAL RULES FOR CLAIMS UNDER ARTICLE I (c) AND ARTICLE II (c) OF THE CLAIMS CONVENTION BETWEEN THE UNITED STATES AND THE REPUBLIC OF PANAMA, WHICH ENTERED INTO FORCE ON OCTOBER 11, 1950

TIME WITHIN WHICH CLAIMS MAY BE FILED

Pursuant to section 4 (b) of the International Claims Settlement Act of 1949 (Public Law 455, 81st Cong.; 22 U. S. C., secs. 1621 to 1627, inclusive) and to section 4 (a) of the Administrative Procedure Act of 1946 (Pub. Law 404, 79th Congress; 5 U. S. C., secs. 1001 to 1011, inclusive), notice is hereby given that § 302.3 of the Commission's Special Rules for Claims Under Article I (c) and Article II (c) of the Claims Convention between the United States and the Republic of Panama, which entered into force on October 11, 1950, is amended to extend from June 2, 1952 to August 4, 1952, the time within which claims must be filed.

The Commission finds that notice and public procedure on the adoption of this amendment are unnecessary, because no one is adversely affected thereby.

As amended, § 302.3 reads as follows:

§ 302.3 *Time within which claims may be filed under Article I (c) and Article II (c) of the Claims Convention between the United States and the Republic of Panama, which entered into force on October 11, 1950.* Claims based upon Article I (c) and Article II (c) of the Claims Convention between the United States and the Republic of Panama, which entered into force on October 11, 1950, shall be filed with the Commission on or before August 4, 1952. The Commission may, in its discretion and for good cause shown, grant an extension of time for filing a claim in any particular case.

(Sec. 3, 64 Stat. 13; 22 U. S. C. Sup., 1622. Interprets or applies secs. 4, 5, 7, 64 Stat. 13, 16; 22 U. S. C. 1623, 1624, 1626)

Dated at Washington, D. C., May 14, 1952.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 68]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

In the interest of safety in air navigation and to expedite the control of instrument air traffic operating along civil airways using VOR navigational facilities, it is necessary to amend Part 600 without delay by adding a separate VOR civil airways system and by varying or deleting colored civil airways previously designated via VOR navigational facilities. These alterations of Part 600 have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required.

1. Part 600 is divided in the following manner: Subpart A—Introduction, consists of §§ 600.1 through 600.10; Subpart B—Colored Civil Airways, consists of §§ 600.11 through 600.6000; and Subpart C—VOR Civil Airways, consists of §§ 600.6001 through 600.6999.

2. Sections 600.1 through 600.3 and § 600.10 are amended to read:

§ 600.1 *Basis and purpose.* The basis of this part is found in sections 205 and 302 of the Civil Aeronautics Act of 1938, as amended. The purpose of this part is to designate civil airways in order to provide suitable and, insofar as possible, safe routes for aircraft operating in interstate, overseas, or foreign air commerce.

§ 600.2 *Explanation of term.* As used in this part, "civil airway" shall mean a path through the navigable airspace of the United States suitable for interstate, overseas, or foreign air commerce. Civil airways are classified as follows:

(a) Colored civil airways: (1) Green civil airways, (2) Amber civil airways, (3) Red civil airways, (4) Blue civil airways.

(b) VOR civil airways: (1) Even numbered civil airways, (2) Odd numbered civil airways.

§ 600.3 *Scope.* (a) Except where otherwise provided in Subpart B and in Subpart C, each civil airway shall include the navigable airspace of the United States above all that area on the surface of the earth lying within 5 miles of the center of the center line prescribed for each such airway, but shall not include any of the airspace of an airspace reservation as provided for in section 4 of the Air Commerce Act of 1926, as amended.

(b) The center line of each civil airway shall be a line extended in the manner hereinafter prescribed through the center of the points or intersections specified for such airway.

(c) Except where otherwise provided in Subpart C, one or more alternate VOR civil airways shall be established between specified points along, and shall be a part of, each VOR civil airway. The center line of an alternate VOR civil airway shall depart from and return to the main VOR civil airway via the intersection of radials having an angle of 15 degrees (unless otherwise specified) separation from the main VOR civil airway.

§ 600.10 *Designation of civil airways.* The paths through the navigable airspace of the United States described in Subpart B (§§ 600.11 through 600.6000) and in Subpart C (§§ 600.6001 through 600.9999) are designated as civil airways.

3. Section 600.201 is amended to read:

§ 600.201 *Red civil airway No. 1 (Portland, Oreg., to Goodland, Kans.).* From the Portland, Oreg., radio range station via the intersection of the east course of the Portland, Oreg., radio range and the northwest course of The Dalles, Oreg., radio range; The Dalles, Oreg., radio range station; the intersection of the east course of The Dalles, Oreg., radio range and the west course of the Pendleton, Oreg., radio range; Pendleton, Oreg., radio range station; Baker, Oreg., radio range station; Boise, Idaho, radio range station; the intersection of the southeast course of the Boise, Idaho, radio range and the northwest course of the Burley, Idaho, radio range; Burley, Idaho, radio range station; Malad City, Idaho, radio range station; the intersection of the southeast course of the Malad City, Idaho, radio range and the north course of the Fort Bridger, Wyo., radio range to the Rock Springs, Wyo., radio range station. From the intersection of the northwest course of the Laramie, Wyo., radio range and the northwest course of the Cheyenne, Wyo., radio range via the Laramie, Wyo., radio range station to the intersection of the southeast course of the Laramie, Wyo., radio range and the north course of the Denver, Colo., radio range. From the Denver, Colo., radio range station to the Goodland, Kans., non-directional radio beacon, excluding the portion which overlaps danger areas.

4. Section 600.204 is amended to read:

§ 600.204 *Red civil airway No. 4 (Albuquerque, N. Mex., to Tucumcari, (N. Mex.).* From the Albuquerque, N. Mex., radio range station via the intersection of the north course of the Albuquerque, N. Mex., radio range and a line bearing 244° True from the Santa Fe., N. Mex., non-directional radio beacon; Santa Fe, N. Mex., non-directional radio beacon; Las Vegas, N. Mex., radio range station to the intersection of the southeast course of the Las Vegas, N. Mex., radio range and the west course of the Tucumcari, N. Mex., radio range.

5. Section 600.206 *Red civil airway No. 6 (Las Vegas, Nev., to Omaha, Nebr.)* is amended by changing the last portion to read: "From the Denver, Colo., radio range station to the Akron, Colo., radio range station. From the Grand Island, Nebr., radio range station via the Lincoln, Nebr., radio range station to the Omaha, Nebr., radio range station."

6. Section 600.210 *Red civil airway No. 10 (Pueblo, Colo., to Charleston, S. C.)* is amended between the Pueblo, Colo., radio range station and the Amarillo, Tex., radio range station to read: "From the Pueblo, Colo., radio range station via the Dalhart, Tex., non-directional radio beacon; the Amarillo, Tex., radio range station;"

7. Section 600.251 *Red civil airway No. 51 (El Paso, Tex., to United States-Mexican Border)* is revoked.

8. Section 600.251 is added to read:

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

In the interest of safety in air navigation and to expedite the control of instrument air traffic operating along civil airways using VOR navigational facilities, it is necessary to amend Part 601 without delay by adding a separate VOR control area and reporting point system, and by deleting the VOR control areas and reporting points previously designated along colored civil airways. These alterations of Part 601 have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

1. Part 601 is divided in the following manner: Subpart A—Introduction, consists of §§ 601.1 through 601.8; Subpart B—Colored Civil Airway Control Areas, consists of §§ 601.11 through 601.1000; Subpart C—Control Area Extensions, consists of §§ 601.1001 through 601.1980; Subpart D—Control Zones, consists of §§ 601.1981 through 601.4000; Subpart E—Colored Civil Airway Reporting Points, consists of §§ 601.4001 through 601.6000; Subpart F—VOR Civil Airway Control Areas, consists of §§ 601.6001 through 601.6999; and Subpart G—VOR Civil Airway Reporting Points, consists of § 601.7001.

2. Sections 601.1, 601.2, 601.9, 601.10, 601.1982 and 601.4001 are amended to read:

§ 601.1 *Basis and purpose.* The basis of this part is found in sections 205 and 601 of the Civil Aeronautics Act of 1938, as amended, and in §§ 60.73 and 60.74 of this title. The purpose of this part is to designate control areas, control zones, and reporting points in order to provide for the safety of aircraft operating in interstate, overseas, and foreign air commerce.

§ 601.2 *Explanation of terms.* As used in this part:

(a) "Control area" shall mean an airspace of defined dimensions extending upward from an altitude of 700 feet above the surface within which air traffic control is exercised.

(b) "Control zone" shall mean an airspace of defined dimensions extending upward from the surface to include one or more airports and within which rules additional to those governing flight in control areas apply for the protection of air traffic.

(c) "Reporting point" shall mean a geographic location in relation to which the position of an aircraft shall be reported.

§ 601.9 *Extent of control areas.* Whenever a point prescribed in designating a control area coincides with a point specified in designating the center line of a civil airway, such control area shall include all of the area within a 5-mile radius of such point, unless otherwise provided in Subpart B (§§ 601.11 through 601.1000), Subpart C (§§ 601.1001 through 601.1980), and Subpart F (§§ 601.6001 through 601.6999). In addition, such control area shall include all of the airspace between the main and alternate VOR civil airways unless otherwise specified.

§ 601.10 *Designation of control areas.* The portions of the civil airways and control area extensions described in Subpart B (§§ 601.11 through 601.1000), Subpart C (§§ 601.1001 through 601.1980), and Subpart F (§§ 601.6001 through 601.6999) are designated as control areas.

§ 601.1982 *Designation of control zones.* The portions of the navigable airspace of the United States described in Subpart D (§§ 601.1981 through 601.4000) are designated as control zones.

§ 601.4001 *Designation of reporting points.* The locations described in Subpart E (§§ 601.4001 through 601.6000) and Subpart G (§ 601.7001) are designated as reporting points.

3. Section 601.12 is amended to read:

§ 601.12 *Green civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).* All of Green civil airway No. 2.

4. Section 601.13 is amended to read:

§ 601.13 *Green civil airway No. 3 control areas (San Francisco, Calif., to New York, N. Y.).* All of Green civil airway No. 3.

5. Section 601.14 is amended to read:

§ 601.14 *Green civil airway No. 4 control areas (Los Angeles, Calif., to Philadelphia, Pa.).* All of Green civil airway No. 4.

6. Section 601.15 is amended to read:

§ 601.15 *Green civil airway No. 5 control areas (Los Angeles, Calif., to Boston, Mass.).* All of Green civil airway No. 5.

7. Section 601.103 is amended to read:

§ 601.103 *Amber civil airway No. 3 control areas (El Paso, Tex., to Great Falls, Mont.).* All of Amber civil airway No. 3.

8. Section 601.104 is amended to read:

§ 601.104 *Amber civil airway No. 4 control areas (Brownsville, Tex., to*

Minot, N. Dak.). All of Amber civil airway No. 4.

9. Section 601.105 is amended to read:

§ 601.105 *Amber civil airway No. 5 control areas (Grand Isle, La., to Milwaukee, Wis.)*. All of Amber civil airway No. 5.

10. Section 601.106 is amended to read:

§ 601.106 *Amber civil airway No. 6 control areas (Jacksonville, Fla., to United States-Canadian Border)*. All of Amber civil airway No. 6.

11. Section 601.107 is amended to read:

§ 601.107 *Amber civil airway No. 7 controls areas (Key West, Fla., to United States-Canadian Border)*. All of Amber civil airway No. 7.

12. Section 601.201 is amended to read:

§ 601.201 *Red civil airway No. 1 control areas (Portland, Oreg., to Goodland, Kans.)*. All of Red civil airway No. 1.

13. Section 601.203 is amended to read:

§ 601.203 *Red civil airway No. 3 control areas (Philipsburg, Pa., to Hartford, Conn.)*. All of Red civil airway No. 3.

14. Section 601.204 is amended to read:

§ 601.204 *Red civil airway No. 4 control areas (Albuquerque, N. Mex., to Tucumcari, N. Mex.)*. All of Red civil airway No. 4.

15. Section 601.205 is amended to read:

§601.205 *Red civil airway No. 5 control areas (Sioux Falls, S. Dak., to St. Paul, Minn.)*. All of Red civil airway No. 5.

16. Section 601.206 is amended to read:

§ 601.206 *Red civil airway No. 6 control areas (Las Vegas, Nev., to Omaha, Nebr.)*. All of Red civil airway No. 6.

17. Section 601.209 is amended to read:

§ 601.209 *Red civil airway No. 9 control areas (San Diego, Calif., to Winslow, Ariz.)*. All of Red Civil airway No. 9.

18. Section 601.210 is amended to read:

§ 601.210 *Red civil airway No. 10 control areas (Pueblo, Colo., to Charleston, S. C.)*. All of Red civil airway No. 10.

19. Section 601.211 is amended to read:

§ 601.211 *Red civil airway No. 11 control areas (Enid, Okla., to Boston, Mass.)*. All of Red civil airway No. 11.

20. Section 601.212 is amended to read:

§ 601.212 *Red civil airway No. 12 control areas (Kansas City, Mo., to Williamsport, Pa.)*. All of Red civil airway No. 12.

21. Section 601.214 is amended to read:

§ 601.214 *Red civil airway No. 14 control areas (Lone Rock, Wis., to Bowling Green, Ky.)*. All of Red civil airway No. 14.

22. Section 601.216 is amended to read:

§ 601.216 *Red civil airway No. 16 control areas (Tallahassee, Fla., to Florence, S. C.)*. All of Red civil airway No. 16.

23. Section 601.217 is amended to read:

§ 601.217 *Red civil airway No. 17 control areas (St. Louis, Mo., to Baltimore, Md.)*. All of Red civil airway No. 17.

24. Section 601.218 is amended to read:

§ 601.218 *Red civil airway No. 18 control areas (Indianapolis, Ind., to Washington, D. C.)*. All of Red civil airway No. 18.

25. Section 601.219 is amended to read:

§ 601.219 *Red civil airway No. 19 control areas (Detroit, Mich., to Norfolk, Va.)*. All of Red civil airway No. 19.

26. Section 601.220 is amended to read:

§ 601.220 *Red civil airway No. 20 control areas (Lansing, Mich., to Washington, D. C.)*. All of Red civil airway No. 20.

27. Section 601.223 is amended to read:

§ 601.223 *Red civil airway No. 23 control areas (United States-Canadian Border to New York, N. Y.)*. All of Red civil airway No. 23.

28. Section 601.225 is amended to read:

§ 601.225 *Red civil airway No. 25 control areas (Tallahassee, Fla., to Miami, Fla.)*. All of Red civil airway No. 25.

29. Section 601.226 is amended to read:

§ 601.226 *Red civil airway No. 26 control areas (Syracuse, N. Y., to Allentown, Pa.)*. All of Red civil airway No. 26.

30. Section 601.227 is amended to read:

§ 601.227 *Red civil airway No. 27 control areas (Atlanta, Ga., to Detroit, Mich.)*. All of Red civil airway No. 27.

31. Section 601.228 is amended to read:

§ 601.228 *Red civil airway No. 28 control areas (Rockford, Ill., to Detroit, Mich.)*. All of Red civil airway No. 28.

32. Section 601.229 is amended to read:

§ 601.229 *Red civil airway No. 29 control areas (Rochester, N. Y., to Baltimore, Md.)*. All of Red civil airway No. 29.

33. Section 601.230 is amended to read:

§ 601.230 *Red civil airway No. 30 control areas (Shreveport, La., to Jacksonville, Fla.)*. All of Red civil airway No. 30.

34. Section 601.231 is amended to read:

§ 601.231 *Red civil airway No. 31 control areas (Denver, Colo., to Minneapolis, Minn.)*. All of Red civil airway No. 31.

35. Section 601.233 is amended to read:

§ 601.233 *Red civil airway No. 33 control areas (Richmond, Va., to Boston, Mass.)*. All of Red civil airway No. 33.

36. Section 601.235 is amended to read:

§ 601.235 *Red civil airway No. 35 control areas (Pueblo, Colo., to St. Joseph, Mo.)*. All of Red civil airway No. 35.

37. Section 601.236 is amended to read:

§ 601.236 *Red civil airway No. 36 control areas (Rochester, Minn., to La Crosse, Wis.)*. All of Red civil airway No. 36.

38. Section 601.237 is amended to read:

§ 601.237 *Red civil airway No. 37 control areas (Dallas, Tex., to Gordonsville, Va.)*. All of Red civil airway No. 37.

39. Section 601.246 is amended to read:

§ 601.246 *Red civil airway No. 46 control areas (Jamestown, N. Dak., to Rochester, Minn.)*. All of Red civil airway No. 46.

40. Section 601.251 *Red civil airway No. 51 control areas (El Paso, Tex., to United States-Mexican Border)* is revoked.

41. Section 601.251 is added to read:

§ 601.251 *Red civil airway No. 51 control areas (Erie, Pa., to Elmira, N. Y.)*. All of Red civil airway No. 51.

42. Section 601.252 is amended to read:

§ 601.252 *Red civil airway No. 52 control areas (Memphis, Tenn., to Birmingham, Ala.)*. All of Red civil airway No. 52.

43. Section 601.255 is amended to read:

§ 601.255 *Red civil airway No. 55 control areas (Burlington, Iowa, to Columbus, Ohio)*. All of Red civil airway No. 55.

44. Section 601.257 is amended to read:

§ 601.257 *Red civil airway No. 57 control areas (Moline, Ill., to Youngstown, Ohio)*. All of Red civil airway No. 57.

45. Section 601.259 is amended to read:

§ 601.259 *Red civil airway No. 59 control areas (Garden City, Kans., to Oklahoma City, Okla.)*. All of Red civil airway No. 59.

46. Section 601.268 is amended to read:

§ 601.268 *Red civil airway No. 68 control areas (Midland, Tex., to Shreveport, La.)*. All of Red civil airway No. 68.

47. Section 601.269 is amended to read:

§ 601.269 *Red civil airway No. 69 control areas (Midland, Tex., to Big Spring, Tex.)*. All of Red civil airway No. 69.

48. Section 601.270 is amended to read:

§ 601.270 *Red civil airway No. 70 control areas (Midland, Tex., to Lubbock, Tex.)*. All of Red civil airway No. 70.

49. Section 601.271 is amended to read:

§ 601.271 *Red civil airway No. 71 control areas (El Paso, Tex., to Lubbock, Tex.)*. All of Red civil airway No. 71.

50. Section 601.274 is amended to read:

§ 601.274 *Red civil airway No. 74 control areas (Louisville, Ky., to Cincinnati, Ohio).* All of Red civil airway No. 74.

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitude alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. These altitudes are established to provide minimum en route IFR altitudes for the VOR Civil Airways which are designated to become effective June 1, 1952. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows:

1. § 610.5 *Minimum en route IFR altitudes along particular routes,* is amended by adding the following footnote to the caption:

[1] Intersections named in the VOR minimum enroute IFR altitude are defined as follows:

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitude alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required. Part 610 is amended as follows:

[Circular No. 1817]

PART 105—RELINQUISHMENTS, CANCELLATIONS AND REINSTATEMENTS

RELINQUISHMENTS

The headnote for § 105.1 and paragraphs (a) and (b) of that section, are amended to read:

§ 105.1 *When relinquished land becomes subject to further appropriation; relinquishments in right-of-way, amendment and repayment cases.* (a) (1) Upon the filing in the proper land office of the relinquishment of a homestead claim, the land, if otherwise available, will at once become subject to further application or other appropriation in accordance with the applicable public land laws. A provision to this effect is contained in section 1 of the act of May 14, 1880 (21 Stat. 140; 43 U. S. C. 202).

(2) Upon the filing of a relinquishment of an entry or claim (other than a homestead claim), or a lease, the land will not become subject to further application or other appropriation until the entry, claim or lease has been canceled pursuant to the relinquishment and the fact of the cancellation has been noted on the tract books in the land office.

(b) The relinquishment of an approved right-of-way may be conditioned upon the approval of a subsequent application, filed as an amendment to the approved right-of-way, or as an independent application, but conflicting in whole or in part with the approved right-of-way. Such a relinquishment will not be accepted and noted on the land office tract books until action on the subsequent application is taken.

PART 221—RULES OF PRACTICE

SUBPART B—PROCEEDINGS BEFORE THE DIRECTOR OF THE BUREAU OF LAND MANAGEMENT AND SECRETARY OF THE INTERIOR

MISCELLANEOUS AMENDMENTS

1. Section 221.75 is amended to read as follows:

§ 221.75 *Notice of appeal to Secretary.* (a) An aggrieved person desiring to appeal to the Secretary of the Interior from a decision rendered by the Director of the Bureau of Land Management must, within 30 days from the date of the service upon such person or his authorized representative of notice of the Director's decision, file a notice of appeal with the Director, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

(b) A notice of appeal shall set forth clearly and concisely the grounds upon which the appellant contends that the Director's decision is erroneous.

(c) If the Director's decision indicates that any other person has in interest in the proceeding adverse to the appellant, the appellant shall, within the 30-day period prescribed in paragraph (a) of this section (or such further period as may be allowed by the Secretary or his representative for good cause shown), file a certificate showing that a copy of the notice of appeal has been served personally upon or mailed to each such person or his authorized representative. If the certificate accompanies the notice of appeal, it shall be filed with the Director of the Bureau of Land Management. Otherwise, it shall be filed with the Solicitor, Department of the Interior, Washington 25, D. C.

(d) An appeal shall be subject to summary dismissal for failure to comply with any of the requirements prescribed in this section.

2. Section 221.76 is amended to read as follows:

§ 221.76 *Filing of briefs.* (a) Within 20 days after filing a notice of appeal (or within such further period as may be allowed by the Secretary or his representative for good cause shown), the appellant may file with the Solicitor, Department of the Interior, Washington 25, D. C., a brief in support of his appeal. If any other person has an interest in the proceeding adverse to the appellant, the brief shall be accompanied by a certificate showing that a copy of the brief has been served personally upon or mailed to each such person or his authorized representative.

(b) Within 20 days after personal service upon or 25 days after the date of the mailing of the appellant's brief to an adverse party (or within such further period as may be allowed by the Secretary or his representative for good cause shown), the adverse party may file a reply brief with the Solicitor, Department of the Interior, Washington 25, D. C. The reply brief shall be accompanied by a certificate showing that a copy of the reply brief has been served personally upon or mailed to the appellant or his authorized representative.

3. Sections 221.77, 221.78, and 221.79 are revoked.

4. The foregoing amendments to the regulations shall be effective with respect to all decisions rendered by the Director of the Bureau of Land Management on and after the 30th day following the publication of the amendments in the FEDERAL REGISTER.

PARTIAL REVOCATION OF EXECUTIVE ORDER NO. 9153–A OF APRIL 30, 1942, AND RESERVATION OF PORTION OF LAND RELEASED THEREBY FOR USE OF DEPARTMENT OF THE ARMY FOR MILITARY PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 9153–A of April 30, 1942, as amended by Public Land Order No. 284 of June 12, 1945, reserving lands in Alaska for the use of the War Department for military purposes, is hereby revoked so far as it affects the land described as Tract No. 3 in that order.

The following-described tract of land within said Tract No. 3 is hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws and reserved for the use of the Department of the Army for military purposes:

Beginning at a point of mean high tide on the northwest shore of the southwestern part of Unalaska Island, approximate latitude 53°25'13.5" N., longitude 167°30' W., thence by metes and bounds:

S. 26° 55' E., 8,289 feet to point of intersection of latitude 53°24' N., longitude 167°29' W.;

South, 6,085 feet to point of intersection of latitude 53°23' N., longitude 167°29' W.;

West, 14,514 feet to point of intersection of latitude 52°23' N., longitude 167°33' W.;

N. 44° 30' W., 8,500 feet to point of intersection of mean high tide and latitude 53°24' N., on shore south of West Point;

Northeasterly, along line of mean high tide of Chernofski Harbor around West Point, Mailboat Cove, Cutter Point, Mutton Cove, Chernofski Point and Ram Point to point of beginning.

The tract described contains approximately 2,885 acres.

The land released from withdrawal is unsurveyed and is undeveloped lowland.

As to such released land this order shall become effective at 10 a. m. on the 35th day after the signing of the order, at which time the land shall, subject to valid existing rights and to the provisions of existing withdrawals, be opened to settlement under the homestead laws and the homesite act of May 26, 1934, 48 Stat. 809 (48 U. S. C. 461), only, and to those forms of appropriation only by qualified veterans of World War II for whose services recognition is granted by the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, and by other qualified persons entitled to credit for service under the said act. Commencing at 10 a. m., on the 126th day after the date of this order, any of such land not settled upon by veterans or other persons entitled to credit for service shall become subject to settlement and other forms of appropriation by the public generally in accordance with appropriate laws and regulations.

Applications for this land which shall be filed in the Land Office, Bureau of Land Management, Anchorage, Alaska,

shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations to the extent that such regulations are applicable. Applications under the homesite or homestead laws shall be governed by the regulations contained in Parts 64 to 66, inclusive, of Title 43 of the Code of Federal Regulations. Inquiries concerning this land shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

OSCAR L. CHAPMAN,
Secretary of the Interior.

PART 3—RADIO BROADCAST SERVICES

BROADCASTS BY CANDIDATES FOR PUBLIC OFFICE

This proceeding was instituted by the adoption on May 12, 1950, of a notice of proposed rule making which proposed to add a new section, to be designated § 3.590, to Subpart C of Part 3 of the Commission's rules and regulations, which govern noncommercial educational FM broadcast stations. The proposed new section was substantially the same as the language in the present §§ 3.190, 3.290, and 3.690 of the Commission's rules and regulations. No comments adverse to the adoption of the proposed rule have been received. However, following the filing of a petition by Westinghouse Radio Stations, Inc., based in large part upon the decision of the District Court for the Eastern District of Pennsylvania in Felix *v.* Westinghouse Radio Stations, Inc., 89 F. Supp. 740, requesting that the Commission's rules and regulations relating to political broadcasts be enlarged to refer to persons other than candidates themselves, the Commission, on July 21, 1950, issued a public notice providing time for the filing of comments on that petition.

On April 24, 1951, Westinghouse Radio Stations, Inc., filed a motion to dismiss its petition on the ground that the Court of Appeals for the Third Circuit had reversed the District Court and hold that section 315 of the Communications Act of 1934 applies only to the use of a broadcasting station by a candidate personally and that it does not apply to the use of such a station by other persons speaking in the interests or support of a candidate. It also appears that the Supreme Court denied a petition for a writ of certiorari. In view of the above, the Commission will dismiss the petition for rule making filed by Westinghouse Radio Stations, Inc., and will adopt the rule proposed in its notice of proposed rule making.

Accordingly, it is ordered, This 14th day of May 1952, that, pursuant to section 315 of the Communications Act of 1934, as amended, Subpart C of Part 3 of the Commission's rules and regulations is amended by adding thereto § 3.590, as set forth below, effective 30 days from publication in the FEDERAL REGISTER, and

It is further ordered, That the petition for rule making filed herein by Westinghouse Radio Stations, Inc., be, and it is hereby, dismissed.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

§ 3.590 *Broadcasts by candidates for public office*—(a) *Definitions.* A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who—

(1) Has qualified for a place on the ballot or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) *General requirements.* No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities: *Provided*, That such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) *Practices.* No licensee shall make any discrimination in practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) *Records; inspection.* Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests.

[Docket No. 9808]

PART 3—RADIO BROADCAST SERVICES

REBROADCAST; ORIGINATING STATION

This proceeding was instituted on October 5, 1950, by the adoption of a notice of proposed rule making, released Oc-

tober 6, 1950, which proposed the amendment of §§ 3.191, 3.291, 3.591, 3.655 and 3.790 of the Commission's rules and regulations[1] to clarify these rules with respect to the meaning of the term "originating station" in section 325 (a) of the Communications Act of 1934, to resolve any possible conflict between section 325 (a) of the Communications Act of 1934 and the Commission's rules against exclusivity, and to clarify the Commission's rules with respect to the necessity for securing the consent of foreign broadcast stations under section 325 (a).

Section 325 (a) provides in pertinent part: "* * * nor shall any broadcasting station rebroadcast the program or any part thereof of another broadcasting station without the express authority of the originating station."

This proceeding arose out of a controversy between television stations WJIM-TV, Lansing, Michigan, and WWJ-TV, Detroit, Michigan, the facts of which were set forth in the notice of proposed rule making, and need not be repeated here. Comments on the proposed amendment and clarification of the rules have been received from Honorable Harry R. Sheppard, M. C.;[2] television station WWJ-TV; the National Broadcasting Company, Inc.; the then National Association of Broadcasters (now the National Association of Radio and Television Broadcasters); and Gordon P. Brown, General Manager of Radio Station WSAY, Rochester, N. Y. Gordon P. Brown, Honorable Harry R. Sheppard and American Broadcasting Company, Inc., also filed answers to the filed comments. Each of these expressions of views has been carefully considered, as well as the petition for declaratory ruling filed by WJIM-TV.

To decide the questions before us most expeditiously, we will say first that we do not believe section 325 (a) requires the consent of the originating station before the rebroadcast of the program of a foreign broadcast station. All who commented on this phase of the proceeding expressed the view that the extension of such protection would be desirable if on a mutual basis. A careful inspection of the relevant legislative history fails to provide any indication that Congress, in adopting section 325 (a), intended to afford protection to foreign radio stations or gave any consideration to this question. In the absence of a treaty or other international agreement providing that consent shall be secured before the rebroadcast of the program of a foreign station, and in the absence of any indication that it was the intent of Congress to protect non-United States stations, we believe that section 325 (a) must be interpreted as requiring consent only when the program of a broadcast station subject to the provisions of the Communications Act of 1934 is to be rebroadcast.

With the question thus limited, the problem remains with respect to the intent of section 325 (a) when one station wishes to pick up and rebroadcast the signal of another station which has in turn received the program from a third station and broadcast it as part of a network presentation. Section 325 (a) refers to "the originating station." The comments which have been filed in this proceeding construe that term in several different ways. One view is that the originating station, whose consent must be secured, means only the station whose signal is picked up and rebroadcast. Another interpretation is that section 325 (a) requires the consent only of the network station through the facilities of which the program is produced and first disseminated. A third view is that while consent must be had from the station whose signal is picked up consent must also be secured from the network station supplying the program, in the case of a network broadcast. And, finally, it has been urged that section 325 (a) was intended to require the consent of the person, sponsor, station, or other party who bore the principal expense for preparing and producing the program. The theory of this latter view is that a program produced predominantly at the expense of a sponsor or advertising agency is not the property of the station whose facilties are used to transmit the program.

These views, as somewhat broadly restated above, present all of the possible interpretations of the statute. However, the suggestion that section 325 (a) be so interpreted as to require the consent only of the party who contributes the major share of the expense of producing the program, however appealing it might be as a matter of policy, requires, we believe, not an interpretation of section 325 (a), but a revision of it. The statute refers only, and specifically, to broadcast stations. Its revision, if desirable as a matter of policy, must be left to the Congress.

We think section 325 (a) should be interpreted as providing that no program may be rebroadcast without the consent of the station whose radio signals are received, and transmitted either simultaneously or at a later time.[3] We base this opinion primarily upon the fact that the legislative history of the section, insofar as it is helpful here, indicates that Congress, while obviously not facing the problems which the subsequent rapid development of network broadcasting has created, intended the words "originating station" to be applicable solely to the station whose signal was received and rebroadcast. Section 325 (a) of the Communications Act of 1934 is identical with section 28 of the Radio Act of 1927 (44 Stat. 1172), where the prohibition against rebroadcasting first appeared as law. Prior to the adoption of section 28 the Fourth National Radio Conference, which met in Washington in 1925, adopted the resolves of its Committees on Operating Regulations and Legislation that rebroadcasting of programs should be prohibited "except with the permission of the originating station." (See Hearings on S. 1 and S. 1754 before the Senate Committee on Interstate Commerce, 69th Cong., 1st Sess., pp. 71 and 85.)[4] S. 1754, a predecessor bill to the Radio Act of 1927, which was introduced by Senator Dill, 69th Congress, 1st Session, contained a section 13, which provided: "No station licensed under this act shall have the right to rebroadcast any radio energy or radio communications or signals transmitted by another station except by permission of the station from which the radio energy, communications, or signals were originally broadcast or transmitted."

The Solicitor of the Department of Commerce, testifying on S. 1754, stated that the section adopted a new principle and was "directed to the practice that has commenced to grow up by which one station simply picks out of the air the program of another station and rebroadcasts it. That is entirely a question of policy. It is one that in no way effects (sic) the department. It is, in other words, a recognition of the right of the originating station to control its program after it has been thrown onto the air." Hearings on S. 1754, *Supra*, p. 120. H. R. 5589, 69th Cong., 1st Sess., also contained a provision (section 15) in the terms of the present section 325 (a).

On the floor of the Senate, Senator Dill stated with respect to Section 28 of H. R. 9971, the bill which was enacted as the Radio Act of 1927:

> Mr. President, I may say to the Senator that the bill does not in any way define the terms "broadcasting" and "rebroadcasting" because they are terms which have grown up in the use of radio which are generally understood.
>
> As to section 28, providing that no person, firm or corporation shall rebroadcast the material broadcast by a station without that station's consent, it is, I think, a very necessary provision. Otherwise, we would have a broadcasting station spending a large amount of money to prepare and present a program as a program from that station, and then under the modern methods of rebroadcasting, it could be picked up and broadcast from other stations, and particularly over the wired wireless, and money charged for listening to it. The provision referred to does not prevent rebroadcasting, but it does require those who would rebroadcast to get permission from the original broadcaster. I do not think the construction placed upon the section by the gentleman who sent the telegram is justified. Of course, he cannot rebroadcast it, but rebroadcasting is not publishing. It has a generally understood meaning, namely the reproduction by radio of the broadcasting waves. (68 Cong. Rec. 2680.)

It thus appears from the foregoing that Congress intended section 28 to require

---

[1] Section 3.655 was formerly § 3.691. The number was changed by the Sixth Report and Order in Dockets No. 8736 et al.

[2] Congressman Sheppard also filed an "Introduction of New Evidence," for which a petition for late acceptance was filed, and which has been considered.

[3] See In the Matter of A. E. Newton, 2 F. C. C. 281, which is in accord with this interpretation.

[4] The Committee on Operating Regulations reported in part as follows: "The term 'rebroadcasting' was considered as referring to the interception by a broadcasting station of the program transmitted by another station and rebroadcasting the program transmitted from the originating station. It was pointed out that the program feature will ultimately become the most expensive part of a broadcasting station, and that it would be unjust for any station to intercept and rebroadcast programs from originating stations without permission."

the consent of the station whose signal is received and retransmitted. It appears that the purpose of the provision was to protect the rights of those having property rights in programs. At the time Congress acted upon the matter the beneficiary of this protection was normally the station whose broadcast signal was involved. But today, the station whose signal is rebroadcast frequently does not own the property rights in the program. Indeed, none of the stations in a network may own the property rights in the program. Since section 325 (a) does not purport to alter or define the property rights in program material, in some cases the consent given under the section may be of little value as authority for the rebroadcast of a program because of the station's lack of right to give consent to a third party for the use of someone else's property. To the extent that section 325 (a) may no longer accurately reflect present conditions or effectively carry out the original intent of Congress, the amendment of the section, or its repeal insofar as it pertains to rebroadcasts, is a matter requiring legislative action.

The Commission's notice of proposed rule making in this proceeding also raised the question of whether section 325 (a) endows network affiliates with power to prevent the rebroadcast of any network program in a substantially different area from that served by the affiliate. In this connection, the notice of proposed rule making suggested that the Commission's rules relating to rebroadcasting might be amended to alleviate any possible conflict between any such grant of power and the policy enunciated in §§ 3.102, 3.232 and 3.632 of the Commission's rules and regulations directed against arrangements for territorial exclusivity, by requiring stations to file a written statement explaining the reasons for a refusal of permission to rebroadcast a program. Where such refusal did not appear to be reasonably related to protecting property interests and other interests which section 325 (a) is intended to protect, the matter would be considered in relation to the qualifications of the station. None of the comments received was directed to this particular proposal for written statements. However, it has been suggested that the Commission's Chain Broadcasting regulations could not operate to require a station to permit the rebroadcast of its signal even by a station serving a substantially different area since the station has an independent property right in its broadcast signal which it is entitled to protect.

We have stated our belief that section 325 (a) requires the consent of the station whose signal is rebroadcast, even in those cases where property rights in the program material may rest elsewhere. We do not know what the intention of Congress would be today with respect to requiring consent where only such rights as may exist in a station's signal are concerned. But, even if there be the claimed property right in a broadcast signal, or if Congress would today wish to afford protection to the signal alone, it does not follow that section 325 sanctions arbitrary refusals of consent for rebroadcasts on the part of network affiliates or other stations who may have the power or authority to give such consent. In our opinion, a station's operation must be in the public interest in respect of its exercise of the power conferred by section 325 (a) as in other respects, and such powers cannot and were not intended to be used for the monopolistic purposes which the Chain Broadcasting rules were intended to prevent. A refusal either by a network affiliate, or a non-network station, to permit a rebroadcast where based upon no reasons at all, or upon unreasonable grounds, may well constitute conduct going to the qualifications of a licensee to operate in the public interest. So that we may be better able to inquire into such instances, we have determined to adopt the rule requiring an explanatory statement for each refusal of consent to rebroadcast.

Since the Commission's rules as presently constituted are consistent with the interpretation of section 325 (a) herein set forth, no other amendment of the rules is being adopted.

Accordingly, pursuant to the authority contained in sections 4 (i), 303 (i), 303 (r) and 325 of the Communications Act of 1934, as amended, §§ 3.191, 3.291, 3.591, 3.655, and 3.790 of the Commission's rules and regulations are amended, effective July 1, 1952, by adding thereto as §§ 3.191 (f), 3.291 (e), 3.591 (d), 3.655 (d), and 3.790 (d), respectively, the following: "Any station which refuses authority for the rebroadcast of a program broadcast by it, or any part thereof, shall file with the Commission within 10 days of such refusal a statement containing the following information: the station requesting authority for the rebroadcast; the date of the request; the program or programs, or parts thereof, for which authority to rebroadcast was requested; the date of refusal; the reason, or reasons, for denial of the request. A copy of the statement filed with the Commission shall also be sent to the station whose request has been denied."

PART 19—CITIZENS RADIO SERVICE

CLARIFYING ELIGIBILITY REQUIREMENTS WITH RESPECT TO CIVIL DEFENSE ORGANIZATIONS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of May 1952;

The Commission having under consideration the matter of amending § 19.2 (g) of its rules and regulations governing the Citizens Radio Service for the purpose of clarifying the eligibility requirements with respect to Civil Defense organizations;

It appearing, that although it is believed that the provisions of § 19.2 are sufficiently broad to include Civil Defense organizations of State or local governments, since some question concerning eligibility has arisen, clarification may be in order and that such clarification may be achieved by including a footnote in the rules with respect to this matter;

It further appearing, that since the proposed amendment is interpretative in nature, notice and public procedures thereon, as specified in section 4 of the Administration Procedures Act, are unnecessary, and the amendment may be made effective immediately;

It further appearing, that authority therefor is contained in sections 4 (i), 303 (g) and (r) of the Communications Act of 1934, as amended;

It is ordered, That effective immediately, Part 19 of the rules and regulations governing the Citizens Radio Service, is amended by adding a footnote number 3 after § 19.2 (g), said footnote to read as follows:

[3] The above definition includes duly authorized civil defense organizations of any State or local government.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082; 50 Stat. 191; 47 U. S. C. 303)

PROPOSED RULE MAKING

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Part 107]

CRUISING PASSENGERS

MANIFESTING AND INELIGIBILITY FOR PRIVILEGES

MARCH 27, 1952.

Pursuant to section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003), notice is hereby given of the proposed issuance by the Attorney General of the following rules relating to alien cruising passengers arriving on vessels at United States ports of entry. In accordance with subsection (b) of the said section 4, interested persons may submit to the Commissioner of Immigration and Naturalization, Room 1060, Temporary Federal Office Building X, Nineteenth and East Capitol Streets NE., Washington 25, D. C., written data, views and arguments relative to these

proposed rules. Such representations may not be presented orally in any manner. All relevant material received within 20 days following the day of publication of this notice will be considered.

Part 107 of Chapter I, Title 8 of the Code of Federal Regulations, is amended by adding the following new sections:

§ 107.24 *Cruising passengers; manifesting.* (a) For the purposes of this section, the term "cruising passenger" means an alien passenger (1) who has engaged passage from one foreign country to another on a vessel which en route calls at one or more seaports of entry to the United States, (2) who may desire to come ashore at one or more of such seaports while the vessel is in port, (3) who will leave such port on the same vessel, (4) who presents whatever document or documents are required by the applicable Executive order or orders or by Part 176 of this chapter or any other applicable regulations prescribing the documents to be presented by aliens entering the United States, and (5) who is otherwise admissible under the immigration laws and regulations. For the purposes of this section, the term "shore leave" means leave that is granted by an immigrant inspector for an alien cruising passenger to go ashore only for the time the vessel is in port, and subject to the requirement that the alien will depart from the port on the same vessel.

(b) In the cases of cruising passengers the following exceptions shall be made to other provisions of this part or chapter:

(1) In addition to Forms I–415 and I–416 required to be furnished in accordance with § 107.11, separate Forms I–415 and I–416 listing cruising passengers shall be furnished in duplicate. The headings on Forms I–415 and I–416 shall be properly filled in to show facts of arrival of vessel, with the added notation "and proceed foreign via _____ (giving names of other United States ports of call on the voyage with the final port of call showing last)." This notation should be entered under the words "Arriving at port of _____", just above columns 3, 4, and 5 of the forms.

(2) Both copies of Form I–415 and Form I–416 shall be presented to an immigrant inspector at the first United States port of call of the vessel and shall be used in connection with the examination of all passengers aboard. After the immigrant inspector appropriately annotates and endorses the original and duplicate copies of Form I–415 and Form I–416 to show the grant or denial of shore leave, he shall return the original copies to the master of the vessel. At subsequent ports of call the original copies of Form I–415 and Form I–416 shall serve as evidence that an examination of the cruising passengers has been made and shall be surrendered to an immigrant inspector immediately prior to the departure of the vessel from the last United States port of call. The duplicate copies of Form I–415 and Form I–416 shall be retained for the records of the first port of call.

(3) Alien visitors' permits (Forms 257 or I–94) shall be endorsed by the immigrant inspector to show the date, port, and name of vessel in the cases of those aliens found qualified for shore leave and shall be valid for that purpose at all subsequent United States ports of call of the vessel on the same voyage. The original copy of Form 257 or I–94 shall be returned to the alien and the accompanying copies disposed of pursuant to § 108.3 of this chapter.

(4) Before the vessel departs from its last United States port of call, the master shall cause all alien visitors' permits (Forms 257 or I–94) to be lifted from the alien passengers who have been granted shore leave and, after appropriately endorsing those permits to show departure, he shall attach them to the original copy of Form I–415 which, together with the original copy of Form I–416, shall be deposited with the immigration officials at the said port before the vessel departs foreign, except that in the case of vessels making regular trips to ports of the United States, the original copies of Forms I–415 and I–416 may be delivered in the manner prescribed for the delivery of Forms I–434 and I–435 in § 107.17. The Forms I–415 and I–416 shall be endorsed by the master over his signature to show which passengers listed thereon are departing with the vessel and which are not.

(5) Outward manifests (Form I–434) and outward lists (Form I–435) shall not be required.

§ 107.25 *Cruising passengers; ineligibility for privileges.* An alien seeking the privileges of a cruising passenger who is found to be ineligible therefore shall not be removed in the United States from the vessel on which he arrives. The master shall be notified to that effect and of his duty to detain the passenger on board and remove him from the United States. The alien visitor's permit (Form 257 or I–94) shall be lifted by the master and attached to the duplicate copy of Form I–415 which is to be retained at the first port of call.

(Sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37, 54 Stat. 675, 61 Stat. 630; 8 U. S. C. 102, 222, 458, 148)

[Docket No. 10192]

INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICES

EXISTING EQUIPMENT

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Section 18.51 of the Commission's rules and regulation presently provides:

§ 18.51 *Existing equipment.* The provisions of this part shall not be applica-

ble until June 30, 1952, to diathermy and industrial heating equipment, the manufacture and assembly of which was completed prior to July 1, 1947, nor shall they be applicable until April 30, 1953, to miscellaneous equipment, the manufacture and assembly of which was completed prior to April 30, 1948: *Provided*, That the foregoing provisions of this section shall be applicable only if such steps as may be suitable under the circumstances are promptly taken to eliminate interference to authorized radio services resulting from the operation of equipment manufactured prior to the respective dates set forth in this section.

3. The Commission has received a petition filed by the Council on Physical Medicine and Rehabilitation of the American Medical Association requesting that the date of June 30, 1952 be extended to December 31, 1953, with respect to medical diathermy equipment, and alleging that medical diathermy equipment to conform to Part 18 of the Commission's rules and regulations cannot be manufactured in sufficient quantity to permit compliance with that part of the rules by the medical profession by June 30, 1952.

4. It is proposed to amend § 18.51 of the Commission's rules and regulations in so far as it is applicable to medical diathermy equipment, the manufacture and assembly of which was completed prior to July 1, 1947, to change the date of the applicability of Part 18 of the rules from June 30, 1952, to June 30, 1953.

5. The proposed amendment is issued under the authority of sections 4 (i), 301 and 303 (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted, or not adopted as proposed, may file with the Commission on or before June 16, 1952, a written comment or brief setting forth his comments. At the same time, any person who favors the amendments as proposed may file a written comment or brief in support thereof. Comments or briefs in reply to the original comments or briefs may be filed within 15 days from the last day for filing said original comments or briefs. The Commission will consider all comments and briefs presented before taking final action in the matter. If any comments are received which appear to warrant the holding of an oral argument before final action is taken, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules, an original and fourteen copies of all briefs or comments filed shall be furnished the Commission.

Adopted: May 14, 1952.

Released: May 15, 1952.

National Park Service

[Order 3]

REGIONAL DIRECTORS AND SUPERINTENDENTS

REDELEGATIONS OF AUTHORITY

SECTION 1. *Revocation of obsolete order.* National Park Service Delegation of Authority Order No. 1, dated April 12, 1950, relating to the Special Assistant to the Superintendent of National Capital Parks serving as a member of the District of Columbia Recreation Board, is revoked.

SEC. 2. *Acquisition of excess property for use in Territories and Island Possessions.* The authority delegated to the Director, National Park Service, by Secretary's Order No. 2619, dated February 28, 1951 (16 F. R. 2130), to request transfers to the Department of the Interior, pursuant to the provisions of section 202 of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., 1946 ed., Supp. IV, sec. 232), of equipment, material, and supplies, excess to the needs of Federal agencies, for use in the operations of the Department in the Territories and Island Possessions of the United States under its jurisdiction, is redelegated to the Regional Directors, Regions One and Four of the Service.

SEC. 3. *Matériel inspection interchange agreements.* The authority delegated to the Director, National Park Service, by Secretary's Order No. 2621, dated March 8, 1951, respecting the establishment and carrying out of matériel inspection interchange agreements under Personal Property Management Regulation No. 11, dated December 14, 1950, of the General Services Administration, and any amendments thereof, is redelegated to the Regional Directors of the Service.

SEC. 4. *Disposition and transfer of personal property.* The authority delegated to the Director, National Park Service, by Secretary's Order No. 2642, dated June 19, 1951 (16 F. R. 6318), to dispose of and to transfer personal property excess to the needs of the Department of the Interior, including the authority to donate and to execute transfers and deliveries of donable property, in accordance with the Federal Property and Administrative Services Act of 1949, as amended, and regulations issued thereunder by the Administrator of General Services, is redelegated to the Regional Directors and Superintendents of the Service to be exercised in accordance with appropriate administrative instructions issued by the Director.

SEC. 5. *Payments to State of Wyoming for tax losses.* The authority delegated to the Director, National Park Service, to determine, compute, and certify, in accordance with the schedule specified in the act of September 14, 1950 (64 Stat. 849), all payments to the State of Wyoming for tax losses sustained as a result of any acquisition by the United States, subsequent to March 15, 1943, of privately owned lands, together with any improvements thereon, located within the exterior boundary of the Grand Teton National Park is redelegated to the Regional Director, Region Two of the Service.

SEC. 6. *Acceptance of gifts and loans.* (a) The Superintendents may accept offers of museum materials, either as loans or as gifts, which are of local importance and which have a definite relationship or association with the area they administer, for display or study within such area.

(b) The Regional Directors of the Service may accept all other offers of museum materials, either as loans or as gifts, which are appropriate for display or study within any of the areas within the Regions which they administer.

SEC. 7. *Acquisition of personal property.* The Regional Directors of the Service may contract for and accept bills of sale or other evidence of title to personal property which is authorized to be acquired for the purposes of the areas under their jurisdiction.

SEC. 8. *Acceptance of donations of money.* The Regional Directors of the Service may accept on behalf of the United States donations of money not in excess of $10,000 for the purposes of the areas under their jurisdiction.

SEC. 9. *Acceptance of offers in settlement of timber trespasses.* The Chief Counsel of the Service is authorized to settle timber trespasses on land administered by the National Park Service upon payment in full of the damages thereto as determined by him.

SEC. 10. *Sale of timber.* (a) The Superintendents may provide for the cutting of timber pursuant to section 3 of the act of August 25, 1916 (39 Stat. 535; 16 U. S. C., 1946 ed., sec 3), and may approve the sale or other disposition of such timber when the amount involved in any one transaction does not exceed $1,000.

(b) The Regional Directors of the Service may provide for the cutting of timber pursuant to section 3 of the act of August 25, 1916 (39 Stat. 535; 16 U. S. C., 1946 ed., sec. 3), and may approve the sale or other disposition of such timber when the amount involved in any one transaction does not exceed $10,000.

SEC. 11. *Cooperative forest protection agreements.* (a) Pursuant to the provisions of the act of September 20, 1922 (42 Stat. 857; 16 U. S. C., 1946 ed., sec. 594), the Superintendents are authorized to enter into cooperative agreements with other departments of the Federal Government, with States, or with owners of timber, for the protection and preservation of forest growth owned by the United States within the area which they administer when the total expenditure involved in any such agreement does not exceed $1,000 and funds therefor are available.

(b) Pursuant to the provisions of the act of September 20, 1922 (42 Stat. 857; 16 U. S. C., 1946 ed., sec. 594), the Regional Directors of the Service are authorized to enter into such cooperative forest protection agreements for the Regions they administer regardless of the total expenditures involved in any one such agreement when funds therefor are available.

SEC. 12. *Destruction or disposal of animals.* (a) Within the areas which they administer, the Superintendents are authorized to destroy in the most humane manner or otherwise dispose of, in conformity with applicable regulations and statutory requirements, wild or exotic animals, or domestic animals that have reverted to a wild state, which are determined by them (1) to be habitually destructive to buildings, shade trees, essential vegetation within developed areas, or other property of appreciable value, (2) to be seriously injured, crippled, "spoiled," or decrepit, or (3) to jeopardize the welfare of visitors to the area.

(b) Within the Regions which they administer, the Regional Directors of the Service are authorized to destroy in the most humane manner or otherwise dispose of, in conformity with applicable regulations and statutory requirements, wild or exotic animals, or domestic animals that have reverted to a wild state, which are determined by them to be surplus to the needs of the area involved and which are damaging the land or its vegetative cover.

SEC. 13. *Collection of scientific specimens.* (a) The Superintendents are authorized to permit the collection by Federal employees, for scientific or educational purposes, of specimens of invertebrate animals in areas under their jurisdiction where it is administratively determined that the collecting of such specimens will not be unduly detrimental to such areas and is desirable in the interest of science or education and will contribute to the conservation of the natural objects and the wildlife within the areas.

(b) The Regional Directors of the Service are authorized to permit the collection by Federal employees, for scientific or educational purposes, of specimens of vertebrate animals in areas under their jurisdiction where it is administratively determined that the collecting of such specimens will not be unduly detrimental to such areas and is desirable in the interest of science or education and will contribute to the conservation of the natural objects and the wildlife within the areas.

SEC. 14. *Issuance of filming permits.* The Superintendents are designated as the field officials authorized to issue permits to take motion or sound pictures in the areas which they administer. (Cross reference: 43 CFR 5.3.)

SEC. 15. *Permits for private operations.* The Regional Directors of the Service are authorized to issue revocable permits covering private operations which may be conducted within the Regions which they administer. (Cross reference: 36 CFR 1.31.)

SEC. 16. *Grazing and agricultural permits.* The Regional Directors of the Service are authorized to issue revocable permits authorizing grazing and agricultural uses of the Federally owned lands within the Regions which they administer. (Cross reference: 36 CFR 1.20.)

SEC. 17. *Nonprofit societies.* The Regional Directors of the Service are authorized to designate the nonprofit scientific and historical societies engaged in educational work in the Regions which they administer for cooperation with which appropriations may be used for the services of field employees of the Service.

SEC. 18. *Approval of rates for hire of animals, vehicles, and equipment.* The Regional Directors of the Service are authorized to approve rates for the hire by the Service, with or without personal services, of work animals and animal-drawn and motor-propelled vehicles and equipment without compliance with the provisions of section 3709 of the Revised Statutes, as amended (41 U. S. C. 1946 ed., sec. 5), pursuant to section 10 of the act of May 26, 1930 (46 Stat. 383; 16 U. S. C., 1946 ed., sec. 17i).

SEC. 19. *Emergency procurement of supplies, etc.* Pursuant to the provisions of section 4 of the act of May 26, 1930 (46 Stat. 382; 16 U. S. C., 1946 ed., sec. 17c), the Superintendents are authorized in emergencies, when no other source is available for the immediate procurement of supplies, materials, or special services, to aid and assist grantees, permittees, or licensees conducting operations for the benefit of the public within the areas which they administer.

SEC. 20. *Waiver of fees.* The fees prescribed by the rules and regulations, as approved from time to time by the Secretary, for the areas administered by the National Park Service, may be waived by the Regional Directors of the Service and the Superintendents when, in their judgment, such action is deemed to be in the best interests of the United States, as, for instance, in the case of officials of adjacent or nearby States, counties, and municipalities; semi-public cooperating agencies; newspaper and magazine representatives visiting the areas for information; groups from reputable educational institutions, when under the supervision of official instructors, for the purpose of prosecuting class work or studies; veterans' organizations; persons under the care and support of charitable institutions and their attendants; and employees of the Federal Government and of the concessioners on official business.

SEC. 21. *Purchase of personal equipment and supplies.* The Regional Directors and Superintendents of the Service are authorized to purchase equipment and supplies for employees of the Service within the Regions and the areas which they administer, in accordance with

appropriate administrative instructions issued by the Director, and to make deductions therefor from moneys appropriated for salary payments or otherwise due such employees.

SEC. 22. *Procurement by Government of services or other accommodations.* Within the areas which they administer, the Superintendents are authorized to contract for services or other accommodations provided for the public under contract or permit with the Department of the Interior, as may be required in the administration of the areas, at rates approved by the Regional Directors of the Service for the furnishing of such services or accommodations to the Government and without compliance with the provisions of section 3709 of the Revised Statutes, as amended.

SEC. 23. *Temporary care and removal of indigents.* Subject to the limitations contained in section 6 of the act of May 26, 1930 (46 Stat. 382; 16 U. S. C., 1946 ed., sec. 17e), the Regional Directors are authorized to provide, out of moneys appropriated for the general expenses of the national parks, for the temporary care and removal from the parks of indigents, and in case of death to provide for their burial, in those national parks not under local jurisdiction for these purposes.

SEC. 24. *Reimbursement for property lost, damaged, or destroyed.* The Regional Directors of the Service are authorized to reimburse employees and other owners of horses, vehicles, and other equipment lost, damaged, or destroyed while in the custody of such employees or the Department of the Interior, under authorization, contract, or loan, for necessary fire fighting, trail, or other official business, such reimbursement to be made from any available funds in the appropriation to which the hire of such equipment would be properly chargeable.

SEC. 25. *Procurement of property from employees.* The Regional Directors of the Service are authorized to hire, rent, or purchase personal property from employees of the Service within their Regions whenever the public interest will be promoted thereby.

SEC. 100. *Revocation.* This order supersedes §§ 10.1, 10.2, 10.4, 10.5, and 10.6, Part 10, Title 36, Code of Federal Regulations, 1947 Supplement, and the Memorandum for the Washington Office and All Field Offices (FO–828), dated December 14, 1949.

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 131]

LEVIANT & CO. ET AL.

ORDER DENYING LICENSE PRIVILEGES

In the matter of Leviant & Company, Jacques Leviant, Kalman Leviant, Riva Leviant, 239 Broadway, New York, New York, respondents; Case No. 131.

This proceeding was begun by the issuance of a charging letter, dated October 19, 1951, wherein the Director, Investigation Staff, Office of International Trade, charged Jacques Leviant, Kalman Leviant and Riva Leviant, copartners, doing business under the firm name of Leviant & Company, at 239 Broadway, New York City, and Jacques Leviant, individually, (all hereinafter referred to as respondents when not referred to by name) with having violated the Export Control Act of 1949, as amended, and the regulations promulgated thereunder.

The respondents filed no answer, but, as permitted by § 382.3 (15 CFR Part 382), demanded an oral hearing. The hearing was held February 20, 1952, before a Compliance Commissioner and respondents were represented by counsel. At the close of the hearing, the matter was held open for the submission by respondents of a brief and additional exhibits. These were duly presented and the case was finally submitted on April 7, 1952. The Compliance Commissioner has filed his report and recommendations with the Assistant Director for Export Supply.

After reviewing the whole record and carefully considering the evidence and the report and recommendations of the Compliance Commissioners, I hereby make the following:

Findings of fact. 1. Jacques Leviant, Kalman Leviant, and Riva Leviant are copartners engaged in the business of exporting and importing drugs, chemicals, and pharmaceuticals at 239 Broadway, in the City and State of New York.

2. The respondents filed applications for export licenses with the Department of Commerce as follows:

a. On November 14, 1950, application Number 2185493, for license to export $13,200.00 worth of phenol U. S. P. crystals to a named purchaser and consignee in Norway for use in that country.

b. On December 8, 1950, application Number 2215520, for license to export $85,875.00 worth of sulfa drugs and antibiotics to a named purchaser and consignee in India for use in that country.

c. On December 19, 1950, application Number 2231009, for license to export $99,500.00 worth of sulfa drugs and antibiotics to a named purchaser and consignee in India for use in that country.

3. Application Number 2185493 was signed by Jacques Leviant on behalf of the respondents and he also certified on the reverse thereof that it complied with the "Accepted Order Requirement for Certain Commodities," to which phenol U. S. P. crystals were subject.

4. Applications Numbered 2215520 and 2231009 were signed in the name of Jacques Leviant on behalf of the respondents by an employee duly authorized by them so to do, who also certified, again in the name of Jacques Leviant and pursuant to like authorization, that these applications complied with the "Accepted Order Requirements for Certain Commodities," to which sulfas and antibiotics were subject.

5. The respondents, individually and as a firm, did not have an accepted order from any of the purchasers and consignees named in any one of the said applications.

6. The applications were not granted.

7. The respondents knew and it was their course and practice to have Jacques Leviant himself and the employee who signed Jacques Leviant's name to the license applications, to so sign and file applications for export licenses with the Department of Commerce.

8. The respondents consequently are deemed to have had knowledge that applications Numbered 2185493, 2215520, and 2231009 for export licenses had been filed with the Department of Commerce.

And from the foregoing I find the following:

Conclusions. A. The respondents and each of them, Jacques Leviant, Kalman Leviant, and Riva Leviant, copartners doing business under the firm name and style of Leviant & Company, violated the Export Control Act of 1949, as amended, and the regulations promulgated thereunder, in that they knowingly submitted three applications for export licenses to the Department of Commerce, which applications involved commodities specified in paragraph (h) of § 373.1 (15 CFR Part 373), and for which they were required to have accepted orders for the transactions involved when, in fact, they did not have such accepted orders; and

B. The respondents and each of them knowingly caused to be executed on their behalf on three applications for export licenses subject to the "accepted order" requirement the Certification prescribed in § 373.1 (b) (3), which certification was false in that the purchasers named in the applications to which said certifications were appended had not contracted to buy from them and they had not contracted to sell to, such purchasers the commodities mentioned and described in said applications.

In his report, the Compliance Commissioner has considered the relation of the respondents as partners, the substantial volume of their business, the effect which any action taken herein may have on that business, the commodities and their value which were the subject of the respondents' acts, the manner in which respondents sought to defeat the charges, the educational purpose of the action to be taken in proceedings of this nature and what remedy is necessary and proper to achieve effective enforcement of the law. He thereupon made certain recommendations. These recommendations are found to be fair and reasonable, under the particular facts of this case, and should be adopted.

Now, therefore, it is ordered as follows:

1. Respondents Jacques Leviant, Kalman Leviant, and Riva Leviant, individuals and copartners doing business under the firm name and style of Leviant

& Company, be and they hereby are denied and declared ineligible, for a period of three (3) months commencing on the first day of the calendar month following the signing of this order, to exercise the privileges of participating directly or indirectly in any manner or capacity in the exportation of any commodity from the United States to any foreign destination pursuant to validated export licenses. Such denial of export privileges includes and prohibits direct or indirect participation (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of validated export licenses and any export control documents relating thereto, and (c) in the financing, forwarding, transporting, or other servicing of exports from the United States to any destination pursuant to any validated export license. They are not prohibited hereby from participating in any general license exportations from the United States.

2. During the period of suspension imposed pursuant to Paragraph 1, respondents shall not make any shipment or take any action or do anything, directly or indirectly, under the authority of any outstanding export license theretofore issued to them, except to notify persons interested therein, should they find it necessary, that they are unable to perform any act thereunder during said period and, upon the expiration of the said period, such licenses, if not by their terms expired by then, shall be fully effective as though no suspension order had been issued against respondents; and, if any such licenses shall have expired during the said period of suspension, application for extension thereof may be made after the termination of such suspension but the fact of such suspension shall have no bearing whatever in the determination as to whether such application for extension shall be granted.

3. This denial of export privileges extends not only to the named respondents, but also to any person, firm, corporation, or other business organization with which they or any of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States to any destination under validated export licenses, or services connected therewith.

4. No person or business organization shall knowingly (a) apply for or obtain any validated license, shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States to any destination under a validated license, to or for any of the aforestated respondents or those persons and business organizations within the scope of Paragraph 3 hereof; or (b) order, receive, service, or otherwise act as a party or as a representative of a party to any exportation of commodities from the United States to any destination under a validated license, in such manner that any of the aforementioned respondents or those persons and business organizations within the scope of Paragraph 3, hereof will directly or indirectly obtain any benefit therefrom, without prior disclosure of such facts to, and the specific authorization of, the Office of International Trade.

Dated: May 16, 1952.

JOHN C. BORTON,
Assistant Director for Export Supply.

[Case No. 132]

H. ELKAN & CO., INC.

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of H. Elkan & Company, Inc., 52 Broadway, New York, New York, respondent; Case No. 132. This proceeding was instituted on December 13, 1951, by the transmission of a charging letter issued by the Investigation Staff, Office of International Trade, to H. Elkan & Company, Inc., a then vice president of said company, and others. Respondent H. Elkan & Company, Inc., after receiving the charging letter, conferred through its counsel and officials of the company with officials of the Office of International Trade, and with the Compliance Commissioner. Thereafter, respondent submitted to the Office of International Trade, with the advice of and through counsel, a statement dated May 1, 1952, in which it admitted for the purpose of this compliance proceeding only the charges applicable to it in the said charging letter, waived all rights to a hearing thereon and consented to the entry of an order, the terms of which are set forth below.

The proceedings against the former vice president and the other respondents named in the charging letter have been severed from the instant proceeding and, accordingly, will be the subject of independent action as to each respondent charged.

The charges to which respondent has entered its consent, allege, in substance, that respondent, acting by and through its then vice president, violated the Export Control Act of 1949 (63 Stat. 7) and the regulations issued thereunder, by permitting its customer (the other respondents named in the charging letter) to apply, between December 1950 and May 1951, in the name of H. Elkan & Company, Inc., but for their own benefit and use, for twelve (12) validated licenses to export from the United States to their own purchasers and consignees in Japan quantities of hides and skins bought from respondent; that such license applications were executed in the name of respondent by such vice president; and that said customer caused respondent to execute an improper export declaration for the use and benefit of said customer.

The charging letter and above-stated proposal for a consent order have been submitted to the Compliance Commissioner for review and the Compliance Commissioner has also informally reviewed the evidence presented by the Investigation Staff in support of the charges. Upon the basis of such review, the Compliance Commissioner has concluded that the charges applicable to respondent are substantiated by the evidence and that the proposed consent order is just and fair and should be approved.

It appears from the Compliance Commissioner's report that this respondent's participation in the violations was primarily attributable to a negligent failure by the company to impose safeguards to insure compliance with the requirements of the Export Control Act of 1949 and the regulations issued thereunder.

While the Compliance Commissioner has properly found, and his report shows, that corporate respondent H. Elkan & Company, Inc., must be held responsible for its negligence, the Compliance Commissioner has pointed out certain extenuating factors applicable to this respondent in addition to his conclusion that the violation was not willful and intentional by the corporation. When the senior officers and directors of the company were informed of this case, they immediately gave full cooperation to the Office of International Trade in connection with the investigation and in instituting safeguards to insure full compliance with the Act and its regulations in the future.

All relationships between the company and the then vice president who executed the applications for licenses involved in the charging letter have been terminated. Such vice president is no longer an officer, director, or stockholder of the company.

In addition, it appears that respondent has an established reputation for integrity and reliability and that this is the only known instance where it has been charged with a breach of export regulations such as those here involved. It further appears that although the company has been a substantial and important factor in connection with domestic hides and skins and in the importations of hides and skins into the United States, its export business was comparatively small and that only the vice president, whose relationship with the company has been terminated, had, among the officers of the company, any knowledge of or participation in the execution of the applications involved in the charging letter and that none of the present officers, directors, or stockholders of the corporation had any knowledge or information regarding the filing of the applications.

The findings and recommendations of the Compliance Commissioner have been carefully considered together with the above evidentiary material, the charging letter, and the proposal for a consent order, and it appears that such findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated licenses held by or issued in the name of respondent H. Elkan & Company, Inc., are hereby revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondent is hereby denied and declared ineligible to exercise the privi-

leges of obtaining or using export licenses, including validated and general export licenses, for the exportation of any commodity from the United States to any foreign destination, for a period of sixty (60) days from the date of this order. Such denial of export privileges is deemed to include and prohibit participation, directly or indirectly, in any manner or capacity, (a) as a party, or as a representative of a party, to any exportation under validated or general export licenses; and (b) in the financing, forwarding, transporting, or other servicing of exports from the United States pursuant to any validated or general export licenses.

(3) Such denial of export privileges shall extend not only to respondent H. Elkan & Company, Inc., but also to any person, firm, corporation, or business organization with which said respondent H. Elkan & Company, Inc., may be now or hereafter related by ownership or control in the conduct of trade involving exports from the United States under validated and general export licenses, or services connected therewith.

(4) No person, firm, corporation, or other business organization shall knowingly apply for or obtain any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation from the United States, under validated and general export licenses, to or for the respondent, or any person, firm, corporation, or other business organization covered by paragraph (3) hereinabove, without prior disclosure of such facts to, and specific authorization from, the Office of International Trade.

Dated: May 16, 1952.

JOHN C. BORTON,
Assistant Director for Export Supply.

Brooklyn Bureau of Social Service and Children's Aid Society, 285 Schermerhorn Street, Brooklyn 17, New York; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rates during the periods hereinafter specified, whichever is higher: 10 cents per hour for an evaluation period of 140 hours for the entire shop and 20 cents thereafter, with the exception of the Work Adjustment Division which pays 5 cents per hour for an evaluation period of 140 hours and 10 cents per hour thereafter. Certificate is effective May 1, 1952, and expires April 30, 1953.

Blind Work Association, Inc., 18 Court Street, Binghamton, New York; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rate during the periods hereinafter specified, whichever is higher: For the Homework Division only, 10 cents per hour for an evaluation period of 160 hours and a training period of 160 hours and 30 cents per hour thereafter. Certificate is effective May 1, 1952, and expires April 30, 1953.

B'nai B'rith Home and Hospital for the Aged, 131 North Tucker Street, Memphis 4, Tennessee; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards or not less than 20 cents per hour for a training period of 160 hours, and 30 cents thereafter, whichever is higher; certificate is effective May 1, 1952, and expires April 30, 1953.

Goodwill Industries of Dallas, Dallas, Texas; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rate during the period hereinafter specified, whichever is higher: 55 cents per hour for an evaluation period of 80 hours and a training period of 80 hours, and 60 cents per hour thereafter. Certificate is effective May 1, 1952, and expires April 30, 1953.

Fort Worth-Tarrant County Association for the Blind, 428 South Lake Street, Fort Worth, Texas; at a wage rate of not less than the piece rate paid non-handicapped employees engaged in the same occupation in regular commercial industry maintaining approved labor standards, or not less than the applicable hourly rate during the period hereinafter specified, whichever is higher: 30 cents per hour for an evaluation period of 40 hours and a training period of 80 hours, and 50 cents per hour thereafter. Certificate is effective May 1, 1952, and expires April 30, 1953.

The employment of handicapped clients in the above-mentioned sheltered workshops under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 525 of the regulations, as amended. These certificates have been issued on the applicants' representations that they are sheltered workshops as defined in the regulations and that special services are provided their handicapped clients. A sheltered workshop is defined as, "A charitable organization or institution conducted not for profit, but for the purpose of carrying out a recognized program of rehabilitation for individuals whose earning capacity is impaired by age or physical or mental deficiency or injury, and to provide such individuals with remunerative employment or other occupational rehabilitating activity of an educational or therapeutic nature."

These certificates may be canceled in the manner provided by the regulations, as amended. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within 15 days after publication of this notice in the FEDERAL REGISTER.

Signed at Washington, D. C., this 12th day of May 1952.

JACOB I. BELLOW,
Assistant Chief of Field Operations.

CIVIL AERONAUTICS BOARD

[Docket No. 5219 et al.]

UNITED AIR LINES, INC., AND TRANS WORLD AIRLINES, INC.; LAS VEGAS-LOS ANGELES RESTRICTION CASE

NOTICE OF HEARING

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a), 401 (h), and 1001 of said act that a public hearing in the above-entitled proceeding is assigned to be held on June 10, 1952, at 10:00 a. m., P. s. t., at City Hall, Council Chamber, 4th and Stewart

Street, Las Vegas, Nevada, before Examiner William J. Madden.

Without limiting the scope of the issues presented in this proceeding particular attention will be directed to the following matters:

(1) Do the public convenience and necessity require:

(a) Alteration, amendment, or modification of United Air Lines, Inc.'s (United), certificate of public convenience and necessity for Route No. 1 so as to remove or modify the condition in the certificate which prevents United from engaging in local air transportation between Las Vegas, Nevada, and Los Angeles, California?

(b) Alteration, amendment, or modification of Trans World Airlines, Inc.'s (TWA) certificate of public convenience and necessity for Route No. 2 so as to remove or modify the condition in the certificate which prevents TWA from engaging in local air transportation of persons and property between Las Vegas, Nevada, and Los Angeles, California?

2. If the public convenience and necessity require the alteration, amendment, or modification of either United's certificate for Route No. 1 or TWA's certificate for Route No. 2, are the carriers fit, willing, and able to perform the service under the amended, altered, or modified certificate?

3. In the event the public convenience and necessity require the establishment of any of the above services, what terms and conditions should be imposed with respect to the conduct of such services?

For further details of the issues involved interested parties are referred to the documents on file with the Civil Aeronautics Board in the above-entitled Docket Number.

Notice is further given that any person other than parties of record desiring to be heard in this proceeding shall file with the Board on or before June 10, 1952, a statement setting forth the issues of fact or law raised by this proceeding which he desires to controvert.

Dated at Washington, D. C., May 19, 1952.

By the Civil Aeronautics Board.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

DEFENSE PRODUCTION ADMINISTRATION

[D. P. A. Request No. 31—DPAV-36]

REQUEST TO PARTICIPATE IN FORMATION AND ACTIVITIES OF AN ARMY ORDNANCE INTEGRATION COMMITTEE ON SHELL LOADING

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request set forth below to participate in the formation and activities of an Army Ordnance Integration Commitee on Shell Loading in accordance with the voluntary plan entitled "Plan and Regulations of Ordnance Corps Covering the Integration Committee on Shell Loading," dated November 1, 1951, was approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Defense Production Administration, and was accepted by the companies listed below.

The voluntary plan provides for the formation and operation of this Shell Loading Integration Committee and will make available to all the participating companies the production experience and techniques of each. It will also, among other things, integrate the facilities of the participants which will result in the quick attainment of maximum production and the maintenance thereof. This voluntary plan has been approved by the Administrator of the Defense Production Administration and found to be in the public interest as contributing to the national defense.

CONTENTS OF REQUEST

You are requested to participate in the formation and activities of the Shell Loading Integration Committee in accordance with the voluntary plan entitled "Plan and Regulations of Ordnance Corps Covering the Integration Committee on Shell Loading," dated November 1, 1951, a copy of which is herewith enclosed.

In my opinion, your participation in the activities of this Committee will greatly assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary plan and find it to be in the public interest as contributing to the national defense. You will become a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that the activities of the Shell Loading Integration Committee and your participation therein are within the limits set forth in the voluntary plan.

In the event that you accept this request will you kindly send two copies of your acceptance to the Procurement Division, Production Branch, Office of the Assistant Chief of Staff, G-4, United States Army, Pentagon Building, Washington 25, D. C.

Your cooperation in this matter will be appreciated.

Sincerely yours,

MANLY FLEISCHMANN,
Administrator.

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new standard broadcast station to operate on 1310 kc, with 1 kw power, daytime only, using a directional antenna at Massillon and Alliance, Ohio, respectively, and a petition of the Review Publishing Company requesting that these applications be designated for hearing in a consolidated proceeding.

It is ordered, That the petition of The Review Publishing Company is granted;

It is further ordered, That pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications are designated for hearing in a consolidated proceeding at a time and place to be specified by subsequent order, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the corporate applicants, their officers, directors and stockholders to operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of the proposed stations, and the availability of other primary service to such areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of the proposed stations would involve objectionable interference with any existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas.

5. To determine whether the operations of the proposed stations would involve objectionable interference, each with the other, or with the services proposed in any other pending applications

for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

6. To determine whether the installations and operations of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, which would exist between the service areas of the proposed station in Massillon and of Station WCUE, Akron, Ohio, the nature and extent thereof, and whether such overlap, if any, is in contravention of § 3.35, of the Commission's rules.

8. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

FEDERAL POWER COMMISSION

[Docket No. G-1955]

TRANSCONTINENTAL GAS PIPE LINE CORP., AND TEXAS EASTERN TRANSMISSION CORP.

NOTICE OF APPLICATION

MAY 16, 1952.

Take notice that on May 9, 1952, Transcontinental Gas Pipe Line Corporation (Transcontinental) and Texas Eastern Transmission Corporation (Texas Eastern), Delaware corporations, having their principal place of business in Houston, Texas, and Shreveport, Louisiana, respectively, filed a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing construction and operation of certain natural-gas pipeline facilities hereinafter described, and the rendering of natural gas service to The East Ohio Gas Company, New York State Natural Gas Corporation, and The Peoples Natural Gas Company (The Consolidated Group), to United Natural Gas Company (United) and to Indiana Gas & Water Co. Inc. (Indiana Gas), all as more fully hereinafter set forth.

Transcontinental proposes to construct and operate certain meter station facilities at a point of interconnection between Transcontinental's 20-inch Marcus Hook lateral and Texas Eastern's south 20-inch lateral in the vicinity of Philadelphia, Pa. Deliveries of natural gas are proposed to be made by Transcontinental into Texas Eastern's system at such point of interconnection and also by means of the common header through which Transcontinental and Texas Eastern are presently delivering gas to Philadelphia Electric Company at west Conshohocken, Pennsylvania.

The service proposed to be rendered which is the subject matter of several contracts entered into by and between the various parties relates to the delivery of natural gas to The Consolidated Group, United, and Indiana Gas, in such quantities as these parties request from time to time but not exceeding quantities available for sale in Transcontinental's system at the points of delivery into Texas Eastern's system, which available quantities are quantities remaining after the requirements of Transcontinental's firm service and exchange gas customers are met. Under said contracts Transcontinental is not required to deliver more than 60,000,000 cubic feet per day, 10,000,000 cubic feet per day, and 600,000 cubic feet per day, respectively, to The Consolidated Group, United, and Indiana Gas or in excess of the quantities Texas Eastern can receive into its system at the delivery points and deliver respectively to such parties, operating conditions on its system considered. Transcontinental proposes to deliver gas to Texas Eastern at said points of delivery and Texas Eastern shall currently make equivalent quantities available respectively to The Consolidated Group, United, and Indiana Gas at the respective points of delivery through which Texas Eastern is presently serving such parties.

Said agreements to terminate as of September 30, 1952, but may be cancelled by any party at any time by giving 10 days notice of cancellation to other parties.

The estimated total cost of the facilities at said point of interconnection is $13,113.00, consisting of $11,810.00 for the facilities and meter station to be constructed and operated by Transcontinental and $1,303.00 for the interconnecting facilities of Texas Eastern.

The natural gas to be delivered to The Consolidated Group, United, and Indiana Gas hereunder is to be used for storage purposes by such companies in order that each of these respective companies may be better able to meet the respective anticipated peak-load demands of their customers for the winter heating season of 1952-53. Transcontinental and Texas Eastern have been advised by The Consolidated Group, United, and Indiana Gas that receiving deliveries of natural gas hereunder, in addition to receiving their present supplies of natural gas, will permit them to place such gas into storage and build up the volumes of gas under storage and enable them to meet the peak load demands of their customers during the coming heating season.

Transcontinental and Texas Eastern request that their application be heard under the shortened procedure pursuant to § 1.32 (b) of the Commission's rules of practice and procedure.

The application is on file with the Commission for public inspection. Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 4th day of June 1952.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2844]

WEST PENN ELECTRIC CO. ET AL.

ORDER PERMITTING PARENT COMPANY TO ACQUIRE COMMON STOCK FROM TWO SUBSIDIARY COMPANIES

MAY 19, 1952.

In the matter of The West Penn Electric Company, Monongahela Power Company, The Potomac Edison Company, File No. 70-2844.

The West Penn Electric Company ("West Penn"), a registered holding company, and two of its public utility subsidiaries, Monongahela Power Company ("Monongahela"), and The Potomac Edison Company ("Potomac"), which is also a registered holding company, have filed a joint application-declaration and an amendment thereto pursuant to sections 6, 7, 9, 10, 12 (d), and 12 (f) of the act and Rules U-43 and U-44, promulgated thereunder, with regard to certain transactions therein set forth which are summarized as follows:

Monongahela proposes to issue and sell 384,630 shares of its common stock at a price equal to the par value thereof of $6.50 per share, or a total consideration of $2,500,095. Potomac proposes to issue and sell 125,000 shares of its no par value common stock at a price equal to the stated value of the presently outstanding shares, namely $20 per share, or a total consideration of $2,500,000. West Penn, which owns all the presently outstanding common stock of the aforesaid companies, proposes to purchase the additional shares for cash.

Monongahela and Potomac intend to use the proceeds from the sale of such shares for construction purposes. West Penn states that it has in its treasury sufficient funds to purchase such shares without resorting to additional financing and that it will pledge such shares as collateral security for its 3½ percent Sinking Fund Collateral Trust Bonds, pursuant to the terms of the Trust Indenture, dated September 1, 1949, between West Penn and Chemical Bank & Trust Company, as Trustee. It is stated that the estimated expenses involved in the proposed transactions will consist chiefly of United States documentary tax stamps in the amount of $2,750 for Monongahela and $3,750 for Potomac.

The aforementioned issuance and sale of common stock by Potomac, and the acquisition thereof by West Penn have been authorized by the Public Service Commission of Maryland.

It is requested that the Commission's order herein become effective upon issuance.

Said application-declaration, and an amendment thereto, having been filed and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission not having received a request for hearing with respect to said application-declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to said application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective, forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.
