censes for export, the following interpretation is issued in clarification of the matter:

(a) Jute burlaps, classified under Schedule B No. 322905, require validated licenses when exported as commodities.

(b) Standard containers of jute or burlap used for packaging other products are properly classified as "containers, filled," rather than as jute or burlap. Accordingly, they are not classified under Schedule B No. 322905, and they do not require validated licenses but may be exported under this general license.

(c) However, in view of the critical supply of jute and burlap, Collectors of Customs have been authorized to clear shipments of merchandise packaged in new jute or burlap only where the cover is a pre-formed container of customary use in the exportation of the merchandise presented for shipment. Other new jute or burlap wrappings require a validated license for export. Nevertheless, used jute or burlap wrappings, if clearly unsuitable for the manufacture of bags, may be shipped as a cover for other materials under this general license.
