[Public Land Order 3601]

[Riverside 03549, 03808]

CALIFORNIA

Withdrawal for Petrographic Sites; Partly Revoking Executive Order 5182 of August 29, 1929

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws (Chap. 2, 30 U.S.C.), but not from leasing under the mineral leasing laws, and reserved for protection of important petroglyphs and other archeological values:

MOUNT DIABLO MERIDIAN

T. 3 S., R. 32 E.,
Sec. 27, S½;
Sec. 34, N½.
T. 4 S., R. 32 E.,
Sec. 24, S½;
Sec. 25, N½;
Sec. 26.

The areas described aggregate approximately 1,920 acres.

2. Executive Order No. 5182 of August 29, 1929, which temporarily withdrew certain lands for classification, is hereby revoked so far as it affects the following described lands:

MOUNT DIABLO MERIDIAN

T. 3 S., R. 32 E.,
Sec. 34, NW¼.

Containing about 160 acres.

3. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources other than under the mining laws.

JOHN A. CARVER, Jr.,
Under Secretary of the Interior.

APRIL 5, 1965.

[Public Land Order 3602]

[Fairbanks 031013]

ALASKA

Revoking Executive Orders No. 4719 and No. 5352; Reindeer Experiment Stations

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 State. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

Executive Orders No. 4719 of September 12, 1927, and No. 5352 of May 23, 1930, which withdrew public lands in Alaska for experiment station purposes, and which have previously been revoked in part by Public Land Order No. 882 of February 2, 1953, are hereby revoked in their entirety.

The lands affected by this order, and which are described below, have been conveyed to the State of Alaska pursuant to section 6(e) of the Alaska Statehood Act of July 7, 1958 (72 Stat. 340):

FAIRBANKS MERIDIAN

T. 1 N., R. 1 W.,
Sec. 27, W½SW¼ and SE¼SW¼;
Sec. 28, S½;
Sec. 29, S½SE¼;
Sec. 34, N½, N½S½, and SE¼SE¼;
Sec. 35, W½ and W½E½.

The areas described aggregate 1,520 acres.

JOHN A. CARVER, Jr.,
Under Secretary of the Interior.

APRIL 5, 1965.

Proposed Rule Making

FEDERAL AVIATION AGENCY

[14 CFR Part 71]

[Airspace Docket No. 65-CE-39]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation and Alteration

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the controlled airspace in the Marion, Ill., terminal area.

The following controlled airspace is presently designated in the Marion, Ill., terminal area:

The Marion, Ill., transition area is designated as that airspace extending upward from 700 feet above the surface within a 5-mile radius of the Southern Illinois Airport, Carbondale, Ill. (latitude 37°46'50'' N., longitude 89°15'10'' W.), and within 2 miles either side of the 339° bearing from the Southern Illinois Airport extending from the 5-mile radius area to 8 miles N of the airport, within a 5-mile radius of the Williamson County Airport, Marion, Ill. (latitude 37°45'15'' N., longitude 89°00'40'' W.), and within 2 miles either side of the 034° bearing from the Williamson County Airport extending from the 5-mile radius area to 8 miles NE of the airport; and the airspace extending upward from 1200 feet above the surface bounded by a line beginning at latitude 37°39'00'' N., longitude 88°-48'00'' W., thence to latitude 37°35'00'' N., longitude 89°23'30'' W., thence to latitude 37°54'00'' N., longitude 89°30'-00'' W., thence to latitude 37°59'00'' N., longitude 89°16'00'' W., thence to latitude 37°56'25'' N., longitude 89°01'55'' W., thence to latitude 37°57'50'' N., longitude 89°00'30'' W., thence to latitude 37°55'18'' N., longitude 88°55'55'' W., thence to latitude 37°54'00'' N., longitude 88°48'00'' W., thence to the point of beginning.

The Federal Aviation Agency, having completed a comprehensive review of the terminal airspace structural requirements in the Marion, Ill., terminal area, proposes the following airspace actions:

1. Designate the Marion, Ill., control zone as that airspace within a 5-mile radius of the Williamson County Airport (latitude 37°45'15'' N., longitude 89°00'-40'' W.), within 2 miles each side of the Marion VOR 014° radial extending from the 5-mile radius zone to 8 miles N of the VOR, and within 2 miles each side of the Marion VOR 209° radial extending from the 5-mile radius zone to 8 miles SW of the VOR. This control zone shall be effective during the times established by a Notice to Airmen and continuously published in the Airman's Information Manual.

2. Redesignate the Marion, Ill., transition area as that airspace extending upward from 700 feet above the surface bounded by a line beginning E of Marion, Ill., at latitude 37°43'00'' N., longitude 88°52'00'' W., thence SW to latitude 37°32'50'' N., longitude 88°59'00'' W., thence NW to latitude 37°43'00'' N., longitude 89°22'25'' W., thence N to latitude 37°54'10'' N., longitude 89°28'20'' W., thence E to latitude 37°58'45'' N., longitude 89°13'10'' W., thence E to latitude 37°54'30'' N., longitude 88°52'00'' W., thence S to the beginning.

A new terminal VOR facility is to be commissioned on the Williamson County Airport, Marion, Ill., in July 1965. New public approach procedures are to become effective concurrent with the commissioning of this new facility. The requisite communication capability will be provided by the Cape Girardeau, Mo., Flight Service Station. Ozark Air Lines will provide weather reporting service, initially from 0800 to 2100 hours local time daily.

The proposed 5-mile radius control zone will protect aircraft executing departures and missed approach procedures until reaching an altitude of 700 feet above the surface. The control zone extension will provide protection for aircraft executing the new approach procedures, when descending below an altitude of 1,000 feet above the surface. The proposed transition area will protect aircraft holding, transitioning and executing approach procedures at both the Williamson County Airport and the Southern Illinois Airport, Carbondale, Ill. The effective time of the control zone will be dependent upon the availability of airman weather reporting services and may be changed from time to time.

Certain minor revisions to prescribed instrument procedures would be effected in conjunction with the actions proposed herein, but operational complexity would not be increased nor would aircraft performance or landing minimums be adversely affected.

Specific details of the changes to procedures that would be required may be examined by contacting the Chief, Airspace Branch, Air Traffic Division, Central Region, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attn: Chief, Air Traffic Division, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The public Docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Agency, 4825 Troost Avenue, Kansas City, Mo., 64110.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348).

Issued at Kansas City, Mo., on March 31, 1965.

EDWARD C. MARSH,
Director, Central Region.

[Airspace Docket No. 64-SO-44]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration and Designation

The Federal Aviation Agency is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the existing control zone and designate a transition area at Jackson, Miss.

The Jackson, Miss., control zone is presently designated within a 5-mile radius of Allen C. Thompson Field (latitude 32°18'40'' N., longitude 90°04'33'' W.); within a 5-mile radius of Hawkins Field, Jackson, Miss. (latitude 32°20'01'' N., longitude 90°13'19'' W.); within a 3-mile radius of Bruce Campbell Field, Jackson, Miss. (latitude 32°26'45'' N., longitude 90°06'00'' W.); within 2 miles NE and 3 miles SW of the Jackson VORTAC 156° radial, extending from the Allen C. Thompson Field 5-mile radius zone to the VORTAC; within 2 miles each side of the Jackson VORTAC 195° radial, extending from the Hawkins Field 5-mile radius zone to the VORTAC; within 2 miles each side of the 002° bearing from the Jackson RBN, extending from the Hawkins Field 5-mile radius zone to 8 miles N of the RBN; and within 2 miles each side of the Jackson VORTAC 139° radial, extending from the Bruce Campbell Field 3-mile radius zone to the VORTAC.

Having completed a comprehensive review of the terminal airspace structure requirements in the Jackson, Miss., terminal area, including studies attendant to the implementation of the provisions of CAR Amendments 60-21/60-29 (26 F.R. 570, 27 F.R. 4012), the Federal Aviation Agency proposes the airspace actions hereinafter set forth.

1. The Jackson, Miss., control zone would be redesignated within a 5-mile radius of Allen C. Thompson Field (latl-
