APPENDIX E

This appendix contains three "worksheets" for certain of the calculations required in determining ceiling prices under this regulation. No actual copies of such worksheets will be printed for distribution by OPS. They are shown only to indicate the content and arrangement of data appropriate for certain important calculations, for a record of these calculations for your own use, for examination by OPS representatives, and for submittal on request to OPS. Any other arrangement which presents the same data and calculations is acceptable.

The worksheets comprise: Worksheet 1, "Labor Cost Adjustment Worksheet," for use in connection with Sections 8 and 9; Worksheet 2, "Materials Cost Adjustment Worksheet for Methods 1 and 4," for use in connection with Sections 13 and 16; and Worksheet 3, "Materials Cost Adjustment Worksheet for Methods 2 and 3," for use in connection with Sections 14 and 15.

Note that the worksheets do not cover all necessary calculations under the regulation for which systematic working papers are necessary. For example, the final determination of a ceiling price will require also computation of actual adjustments (based on the adjustment factors), the addition of these to base period prices, and the application of customary differentials to determine prices to different classes of customers. Moreover, the worksheets are designed for the more usual situation and will not necessarily fit all special computations provided for by the regulations.
