The Department of the Interior's regulations provide that the authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demands for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of assuring that the area sought is the minimum essential to meet the applicant's needs, providing for the maximum concurrent utilization of the lands for purposes other than the applicant's, and reaching an agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior, who will determine whether or not the lands will be withdrawn and reserved as requested by the applicant agency. The determination of the Secretary on the application will be published in the FEDERAL REGISTER. The Secretary's determination shall, in a proper case, be subject to the provisions of section 204(c) of the Federal Land Policy and Management Act of 1976, 90 Stat. 2752. The above described lands are temporarily segregated from the operation of the public land laws, including the mining laws and the mineral leasing laws, to the extent that the withdrawal applied for, if and when effected, would prevent any form of disposal or appropriation under such laws. Current administrative jurisdiction over the segregated lands will not be affected by the temporary segregation. The segregative effect of this proposed withdrawal shall terminate on October 20, 1991, unless sooner terminated by action of the Secretary of the Interior.

All communications in connection with this proposed withdrawal should be addressed to the Director, Eastern States Office, Bureau of Land Management, 7981 Eastern Avenue, Silver Spring, Maryland 20910.

DAVID P. LODZINSKI,
Acting Director,
