1107

Executive Order.

The Surgeon-General of the Public Health and Marine Hospital Service is authorized and directed to designate one or more of the commissioned medical officers in that service, who, with the approval of the head of the Department or independent Bureau or Office occupying the same, will inspect the general sanitary condition of each of the various buildings owned or in use by the Government in the District of Columbia, with the exception of those under the control of the War and Navy departments, report to the head of such Department or independent Bureau or Office, from time to time, and make any recommendations which, in their opinion, will tend to improve the sanitary condition of the buildings mentioned.

WM H TAFT

THE WHITE HOUSE,
July 3, 1909.

[No. 1107.]
