4. FIELD RATION.

The field ration is the ration prescribed in orders by the Commander of the field forces. It consists of the reserve ration in whole or in part, supplemented by articles of food requisitioned or purchased locally, or shipped from the rear, provided such supplements or substitutes correspond generally with the component articles or substitutive equivalents of the garrison ration.

5. EMERGENCY RATION.

An emergency ration, prepared under the direction of the War Department, will be issued, in addition to the regular ration, as required for troops on active campaign or in the field for purposes of instruction, and will not be opened except by order of an officer or in extremity. Company and detachment commanders are responsible for the proper care and use of emergency rations carried on the person of the soldier.

6. SAVINGS.

All articles of the garrison and travel ration due a company, or other organization, will be retained by the quartermaster and credit given to the organization for the money value of these articles at the current price of the articles; and the quartermaster will pay as savings to the organization commanders any excess in value of the stores so retained over those purchased by the organization. Such savings shall be used solely for the purchase of articles of food.

In time of peace the ration savings privilege, with the exception hereinafter noted, will be suspended for troops on the march. The ration to be issued to troops on the march in time of peace will be prescribed by the commander and will not exceed the allowances prescribed for the garrison ration. When so ordered by such commander the savings privilege on certain specified articles of the ration will be allowed.

Upon arrival of troops at mobilization or concentration camps the ration savings privilege will be suspended and entirely replaced by issue of rations in kind. This same restriction holds during the period of field operations.
