ficer or Government employee on official duty, when shotguns or rifles are being used for hunting during the hunting season as permitted under § 311.6 and when specifically authorized by the District Engineer.

§ 311.12 Gasoline and oil storage.

Gasoline and other inflammable or combustible liquids shall not be stored in, upon, or about the reservoir or shores thereof without the written permission of the District Engineer or his authorized representative.

§ 311.13 Sanitation.

Refuse, garbage, rubbish or waste of any kind shall not be thrown on or along roads, picnicking or camping areas, in the reservoir waters or on any of the lands around the reservoir, but shall be burned or buried, or disposed of at designated points or places designed for the sanitary disposal thereof.

§ 311.14 Advertisements.

Private notices and advertisements shall not be posted, distributed, or displayed in the reservoir area except such as the District Engineer or his authorized representative may deem necessary for the convenience and guidance of the public using the area for recreational purposes.

§ 311.15 Unauthorized solicitations and business activities.

No person, firm, or corporation, or their representatives shall engage in or solicit any business on the reservoir area without permission in writing from the District Engineer or in accordance with terms of a lease, license, or concession contract with the Department of the Army.

§ 311.16 Commercial operations.

All commercial operations or activities on the waters of the reservoir or on the lands under the control of the Department of the Army around the reservoir shall be in accordance with lease, license, or other agreements with the Department of the Army.

§ 311.17 Dogs.

(a) Dogs are not permitted in any of the following reservoir areas unless on a leash, in a pen, or under complete control of the owner or manager.

(1) Fort Peck Reservoir Area, Missouri River, Montana.

§ 311.18 Recreational activity programs.

(a) Special events such as water carnivals, boat regattas, music festivals, dramatic presentations, or other special recreational programs of interest to the general public are permitted in areas designated by the District Engineer or his authorized representative.

(b) A permit shall be obtained from the District Engineer or his authorized representative by the governmental or legally responsible private agency proposing to hold a special recreation program as indicated in this section. No charge will be made for this permit.

(c) The District Engineer in charge of the area shall have authority to revoke any permit granted under this section and to require the removal of any equipment upon failure of the permittee to comply with the terms and conditions of the permit or with the regulations in this part.

§ 311.19 Abandonment of personal property.

Abandonment of personal property on the land or waters of the reservoir area is prohibited. Personal property shall not be left unattended upon the lands and waters of the reservoir area except in accordance with the regulations prescribed in this part or under permits issued therefor. The Government assumes no responsibility for personal property and if such property is abandoned or left unattended in other than places designated in a permit issued therefor or under a regulation for a period in excess of 48 hours it will be impounded, and if not reclaimed by the owners thereof within ninety days will be sold, destroyed, converted to Government use, or otherwise disposed of as determined by the District Engineer or his designated representative.

R. V. LEE,
Major General, U.S. Army,
The Adjutant General.

Title 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 2009]

[Los Angeles 0154865]

CALIFORNIA

Partly Vacating Reclamation Withdrawals (Imperial Division—All American Canal System)

By virtue of the authority vested in the Secretary of the Interior by sec. 3 of the act of June 17, 1902 (32 Stat. 388; 43 U.S.C. 416), it is ordered as follows:

The departmental orders of January 31, 1903, and April 9, 1909, so far as they reserved the following-described lands for reclamation purposes under the act of June 17, 1902, are hereby revoked:

SAN BERNARDINO MERIDIAN

T. 16 S., R. 16 E.,
Sec. 1, lots 4, 5, and 6.

Containing 74.47 acres.

Beginning at 10:00 a.m. on November 20, 1959, the lands will be subject to application, petition, location, offer or selection under the public land laws, including the mining laws. This revocation is made in furtherance of a proposed exchange under section 8 of the act of June 28, 1934 (48 Stat. 1272; 43 U.S.C. 315g), as amended, in aid of a Federal land program. This opening is not therefore, subject to the provisions of subsection (c) of section 2 of the act of August 27, 1958 (72 Stat. 928; 43 U.S.C. 851–2), affording to certain States a preferred right of application for selection upon the revocation of an order of withdrawal.

ROGER ERNST,
Assistant Secretary of the Interior.

OCTOBER 15, 1959.

[F.R. Doc. 59-8837; Filed, Oct. 20, 1959; 8:47 a.m.]

[Public Land Order 2010]

[1447566]

[1449402]

ALASKA

Revoking Executive Orders No. 5813 of February 29, 1932, and No. 5815 of March 9, 1932

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U.S.C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Executive Orders No. 5813 of February 29, 1932, and No. 5815 of March 9, 1932, which withdrew the following-described lands in Alaska for examination and classification are hereby revoked:

SEWARD MERIDIAN

Executive Order No. 5813:
T. 18 N., R. 2 E.,
Secs. 5 and 6.
T. 19 N., R. 2 E.,
Secs. 31 and 32.
Executive Order No. 5815:
T. 18 N., R. 1 E.,
Secs. 1 and 12.
T. 18 N., R. 2 E.,
Secs. 3, 4, 7, 8, and 9.
T. 19 N., R. 1 E.,
Secs. 25 and 36.
T. 19 N., R. 2 E.,
Secs. 28, 29, 30, and 33.

The areas described aggregate 10,880 acres, of which about 2,640 acres are nonpublic lands.

2. Beginning at 10:00 a.m., on November 20, 1959, the public lands, excepting section 36, shall be open to application, petition, location and selection under applicable nonmineral public land laws, subject to valid existing rights, the requirements of applicable law, the provisions of existing withdrawals, the 91-day preferred right of selection granted to the State of Alaska by section 202(b) of the Act of July 28, 1956 (70 Stat. 709, 711; 48 U.S.C. 46–3(b)), in furtherance of its mental health program, and section 6(g) of the Alaska Statehood Act of July 7, 1958 (Public Law 85–508; 72 Stat. 341).

3. On January 3, 1959, when the State was admitted into the Union, the reservation of the Section 36 for the Territory of Alaska made by section 1 of the act of March 4, 1915 (38 Stat. 1214; 48 U.S.C. 353), was in effect. The reservation was not affected by the withdrawal for classification made by the Executive Order No. 5815 (see Ex parte E. P. Weaver, 52 L.D. 237; George G. Frandsen, 50 L.D. 516). Therefore, in the absence of any valid right to the section existing on January 3, 1959, title thereto vested in the State on that date under the grant made by

section 6(k) of the Statehood Act. Consequently, the section is excepted from the lands opened by this order.

4. The lands in Matanuska Valley have been reported to be prospectively valuable for coal, oil, or gas, and those outside of the Valley have been reported to be prospectively valuable for coal. Therefore, any disposition of the lands shall be subject to the requirements of the act of March 8, 1922 (42 Stat. 415; 48 U.S.C. 376, 377), as amended, excepting selections made by the State under the act of July 28, 1956 (70 Stat. 709; 711; 48 U.S.C. 46-3(b)), and under the act of July 7, 1958 (Public Law 85-508; 72 Stat. 341), which are applicable to mineral-lands.

5. The lands have been open to applications and offers under the mineral-leasing laws, and to location for metalliferous minerals. They will be open to location for nonmetalliferous minerals under the United States mining laws beginning at 10:00 a.m., on February 19, 1960.

6. Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Anchorage, Alaska.

ROGER ERNST,
Assistant Secretary of the Interior.

OCTOBER 15, 1959.

ALASKA

Correcting Public Land Order No. 1861 of May 26, 1959

In Federal Register Document 59-4558, appearing as Public Land Order No. 1861, at page 4488 of the issue of June 2, 1959, the land descriptions of the areas withdrawn are corrected to read as follows:

KING SALMON AREA

Parcel 1

From USC and GS monument B6 being on the center line of NS Runway Station 0+36.5 go S. 3°25' E., 1,147.05 feet to a point which is identical with the NE corner of the reserve created for the U.S. Fish and Wildlife Service by Public Land Order No. 309 of January 5, 1946; thence S. 27°00' W., on the easterly boundary of said reserve 400 feet to the point of beginning, thence

S. 63° E., 450 feet;
S. 27° W., 450 feet;
N. 63° W., 450 feet to the easterly line of said withdrawal;
N. 27° E., on said easterly line 450 feet to the point of beginning, provided there shall be reserved therefrom an easement 20 feet in width for an existing road along the westerly boundary of the said described land.

The tract described contains 4.65 acres.

Parcel 2

From USC and GS monument B6, being on the center line of NS Runway Station 0+36.5, go S. 3°25' E., 1,147.05 feet to a point which is identical with the NE corner of the reserve created for the U.S. Fish and Wildlife Service by Public Land Order No. 309 of January 5, 1946; thence

S. 27° W., 1,191.24 feet to right bank of Naknek River;
N. 58°53' W., 250.80 feet along the right bank of Naknek River;
N. 27° E., 1,173.30 feet;
S. 63°00' E., 250.00 feet to the point of beginning.

The tract described contains 6.78 acres.

ROGER ERNST,
Assistant Secretary of the Interior.

OCTOBER 15, 1959.

[Misc. 1725115]

ALABAMA

Modifying the Boundaries of the Wheeler National Wildlife Refuge

Correction

In F.R. Doc. 59-8049, appearing at page 7787 of the issue of Saturday, Sept. 26, 1959: In the 11th paragraph of description following the introductory text of Item 2.e., that portion immediately preceding the semicolon, now reading "SF¼SE¼NW¼", should read "SW¼ SE¼NW¼".

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 53]

OFFICIAL UNITED STATES STANDARDS FOR LAMB, YEARLING MUTTON, AND MUTTON CARCASSES

Notice of Proposed Rule Making

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U.S.C. 1003), that the Department of Agriculture, under the provisions of sections 203 and 205 of the Agricultural Marketing Act, as amended (7 U.S.C. 1622 and 1624), is considering amending the official standards for lamb, yearling mutton, and mutton carcasses (7 CFR 53.114 et seq.).

The changes proposed would make modifications in the present minimum requirements for the Prime and Choice grades. The modifications would increase the importance of conformation, and external finish, and reduce the emphasis that is placed on internal factors considered in evaluating quality. This proposal would also have the effect of lowering average fatness for Prime and Choice grades.

Changes which would affect the present interpretation of the standards for the Prime and Choice grades of lamb carcasses are as follows: (a) The conformation requirements would be relaxed by about one-half grade in each of these grades; (b) a minimum degree of external fat covering would be prescribed for each of these grades; and (c) the quality requirements—the emphasis placed on maturity and the requirements for feathering between the ribs, fat streaking within and upon the inside flank muscles, and firmness of fat and lean—also would be substantially relaxed. The relaxation of these quality factors would vary from about one-half grade in each of these two grades for carcasses from very young lambs to about a full grade in Prime and about two-thirds of a grade in Choice for lamb carcasses whose characteristics indicate that they have reached maximum maturity for lambs. In addition, for all grades, it would be prescribed that carcasses which have a superior development of quality for a grade would not be eligible for that grade if their conformation was more than one full grade deficient for that grade. Corresponding changes also would be made in the standards for yearling mutton and mutton.

Changes modifying the emphasis placed on factors used in evaluating the quality aspects of carcass grade would be made in § 53.115 *Application of standards.* These would eliminate consideration of overflow fat, reduce the emphasis placed on feathering between the ribs, and increase the emphasis placed on firmness of fat and lean.

These changes are being proposed as a result of the many recommendations received to this effect during a recent period when the Department was considering the suspension of Federal grading for ovine carcasses.

It is proposed to amend the standards for lamb, yearling mutton, and mutton carcasses to read as follows:

LAMB, YEARLING MUTTON, AND MUTTON CARCASSES

§ 53.114 Differentiation between lamb, yearling mutton and mutton carcasses.

Differentiation between lamb, yearling mutton, and mutton carcasses is made on the basis of differences that occur in the development of their muscular and skeletal systems. Typical lamb carcasses tend to have slightly wide and moderately flat rib bones and a light red color and fine texture of lean. To be classed as lamb, a carcass must have break joints on both its front shanks. By contrast, typical yearling mutton carcasses have moderately wide rib bones which tend to be flat and a slightly dark red color and slightly coarse texture of lean. Yearling mutton carcasses may have either break joints or "spool" joints on their front shanks. Typical mutton carcasses have wide, flat rib bones and a dark red color and coarse
