REVOKING EXECUTIVE ORDER NO. 773 OF MARCH 23, 1908, WITHDRAWING CERTAIN PUBLIC LANDS AT LOWELL POINT FOR USE OF THE NAVY DEPARTMENT AS A COALING DEPOT

By virtue of the authority vested in the President, and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Executive Order No. 773 of March 23, 1908, withdrawing an area of approximately 3,350 acres on Resurrection Bay at a place known as Lowell Point, situated on Kanai Peninsula, is hereby revoked.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on June 23, 1948. At that time the lands, which are all unsurveyed, shall, subject to valid existing rights and the provisions of any existing withdrawals, be opened to settlement under the homestead laws only, and to that form of appropriation only by qualified veterans of World War II for whose service recognition is granted by act of September 27, 1944 (58 Stat. 747, 43 U. GYPSY MOTH AND BROWN-TAIL MOTH QUARANTINE

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 (a) of the Administrative Procedure Act (60 Stat. 237) that the United States Department of Agriculture proposes to revise Gypsy Moth and Brown-tail Moth Quarantine No. 45 and the regulations supplemental thereto (7 CFR 1945 Supp. 301.45 to 301.45–10, inclusive), as well as the administrative instructions (B. E. P. Q. 386, 8th revision; 7 CFR 1946 Supp. 301.45a) issued thereunder by the Chief of the Bureau of Entomology and Plant Quarantine.

It is proposed that the regulated area described in § 301.45–2 be extended to include the towns of Duxbury and Waterbury in Washington County, Vermont, and Bolton in Chittenden County, Vermont, and that the suppressive area described in § 301.45–2 (b), within the regulated area, be extended to include the said town of Bolton.

Another proposed area change is the extension of the generally infested area of Vermont to include the following 14 towns: Granville and Hancock, in Addison County; Dorset and Manchester in Bennington County; Chittenden, Clarendon, Danby, Mendon, Proctor, Rutland, Tinmouth, and West Rutland, in Rutland County; and Fayston and Warren, in Washington County.

The revision would provide for the continuous movement through the regulated area, without certification, of articles named in the quarantine, and for the reshipment, without certification, in the original, unopened packages, of such articles brought into the regulated area.

A few non-substantive changes in the interest of explicitness are contemplated.

The proposed revision of the administrative instructions, which relieve restrictions on certain regulated articles considered innocuous as pest risks, is for the purpose of adding greenhouse-grown woody plants, when so labeled, to the list of exempt articles contained therein.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, Washington 25, D. C., within 15 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 141, 143, 161; 7 CFR, 1945 Supp., § 301.45)

Done at Washington, D. C., this 22d day of April 1948.

Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] N. E. DODD,
Acting Secretary of Agriculture.
