Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 4585]

KENTUCKY

Revocation of Executive Order No. 7966

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

The Executive Order No. 7966 of August 30, 1938, reserving acquired lands in Lyon and Trigg Counties, Ky., for the Kentucky Woodlands Wildlife Refuge is hereby revoked.

The lands will be transferred to the jurisdiction of the Tennessee Valley Authority as part of the Land-Between-The-Lakes Project.

RUSSELL E. TRAIN,
Under Secretary of the Interior.

FEBRUARY 11, 1969.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of Transportation

SUBCHAPTER I—ANCHORAGES

[CGFR 69-5]

PART 110—ANCHORAGE REGULATIONS

Subpart B—Anchorage Grounds

PORT OF CHARLESTON, S.C.

1. The Commander, 7th Coast Guard District, Miami, Fla., by letter dated April 22, 1968, requested the disestablishment of the explosives anchorage located on the Wando River, Charleston, S.C., as set forth in 33 CFR 110.173. The reason for the request is that adjacent to this explosives anchorage a large number of residential homes have been built which makes continued use of this area as an explosives anchorage no longer desirable. A public notice dated March 13, 1968, was issued by Commander, 7th Coast Guard District, Miami, Fla., describing the anchorage and citing the reason for discontinuance. All known interested parties were notified. No objections were received. Therefore, the request is granted and the Explosives Anchorage, on the Wando River, Port of Charleston, S.C., and the regulations pertaining thereto, as described in 33 CFR 110.173 (a)(2), (b)(7), and (b)(8) are canceled, subject to the right to change the requirements and to amend the regulations if and when necessary in the public interest.

2. The purpose of this document is to immediately discontinue the Explosives Anchorage on the Wando River, Port of Charleston, S.C., and the regulations pertaining thereto as described in 33 CFR 110.173 (a)(2), (b)(7), and (b)(8) are revoked.

3. By virtue of the authority vested in me as Commandant, U.S. Coast Guard, by 14 U.S.C. 632 and the delegation in 49 CFR 1.4(a)(3) of the Secretary of Transportation under 49 U.S.C. 1655(g)(1), § 110.173 *Port of Charleston, S.C.* is amended by revoking the text of paragraphs (a)(2), and (b) (7) and (8) and by inserting in lieu thereof the word "Reserved", which shall be effective on and after publication of this document in the FEDERAL REGISTER.

(Sec. 7, 38 Stat. 1053, as amended, sec. 6(g)(1), 80 Stat. 940; 33 U.S.C. 471, 49 U.S.C. 1655(g)(1); 49 CFR 1.4(a)(3))

Dated: February 12, 1969.

W. J. SMITH,
Admiral, U.S. Coast Guard, Commandant.

[F.R. Doc. 69-1975; Filed, Feb. 14, 1969; 8:47 a.m.]

Title 49—TRANSPORTATION

Chapter III—Federal Highway Administration, Department of Transportation

SUBCHAPTER A—MOTOR VEHICLE SAFETY REGULATIONS

[Docket No. 69-3; Notice No. 1]

PART 371—FEDERAL MOTOR VEHICLE SAFETY STANDARDS [1]

Motor Vehicle Safety Standard No. 109; New Pneumatic Tires—Passenger Cars

The Rubber Manufacturers Association has submitted a petition for rule making requesting amendments to Table I-A and Table I-B of Appendix A of Federal Motor Vehicle Safety Standard No. 109—New Pneumatic Tires—Passenger Cars.

The petition requests the following changes:

1. In Table I-A for tire size designation 8.25-15 the minimum size factor be changed from 37.57 inches to 35.57 inches.

2. In Table I-B for tire size designation D70-13 the minimum size factor be changed from 32.32 inches to 32.34 inches; for tire size designation D70-14 the minimum size factor be changed from 32.87 inches to 32.81 inches; for tire size designation F70-14 the minimum size factor be changed from 34.18 inches to 34.16 inches; for tire size designation G70-14 the minimum size factor be changed from 35.14 inches to 35.18 inches; for tire size designation J70-14 the minimum size factor be changed from 36.91 inches to 36.87 inches; for tire size designation L70-14 the minimum size factor be changed from 37.59 to 37.62 and the section width be changed from 9.80 inches to 9.75 inches; for tire size designation D70-15 the minimum size factor be changed from 33.34 inches to 33.37 inches and the section width be changed from 7.75 inches to 7.70 inches; for tire size designation E70-15 the minimum size factor be changed from 34.17 inches to 34.13 inches; for tire size designation F70-15 the minimum size factor be changed from 34.91 inches to 34.89 inches; for tire size designation G70-15 the minimum size factor be changed from 35.68 inches to 35.66 inches; for tire size designation H70-15 the minimum size factor be changed from 36.68 inches to 36.64 inches; for tire size designation J70-15 the minimum size factor be changed from 37.34 inches to 37.36 inches; and for tire size designation K70-15 the minimum size factor be changed from 37.62 inches to 37.66 inches.

RMA states in its petition that the requested changes are either (1) corrections of typographical errors in material submitted earlier by the RMA, upon which the present tables found in Appendix A of Standard No. 109 are based; or (2) slight modifications that reflect the most recently calculated data.

The requested changes are being made. However, should any comments be received from interested persons objecting to, and giving reasons why the changes should not be made, the amendment will be modified as considered appropriate.

Since, to the extent they are other than corrective, these amendments make only minor technical changes at the request of the affected industry, the Administrator finds that, for good cause, notice of public procedure thereon is impracticable and unnecessary. Interested persons may submit written data, views, or arguments relating to the amendments. Comments should identify the Docket (No. 69-3) and be submitted in an original and three copies to the National Highway Safety Bureau, Rules Docket, Room 512, Federal Highway Administration, Washington, D.C. 20591. All comments submitted will be available for examination by interested persons at the docket room.

In consideration of the foregoing, section 371.21 of Part 371 (formally section 255.21 of Part 255), Tables I-A and I-B of Appendix A of Federal Motor Vehicle Safety Standard No. 109 as amended (33 F.R. 19714) is amended effective March 15, 1969 as set forth below:

(Secs. 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966; 15 U.S.C. 1392, 1407; and the delegation of authority contained in § 1.4(c) of Part I of the Regulations of the Office of the Secretary 49 CFR 1.4(c))

Issued in Washington, D.C. on February 10, 1969.

JOHN R. JAMIESON,
Deputy Federal Highway Administrator.

APPENDIX A—FEDERAL MOTOR VEHICLE SAFETY STANDARD NO. 109

Appendix A of Standard No. 109 (33 F.R. 19714) is changed as follows:

[1] Formally contained in 23 CFR 255.
