Users of artificial limbs and devices total about 600,000 persons of our population and include over 16,000 members of the American armed forces who suffered loss of legs or arms in the service of their country during World War. II. Rehabilitation of persons who have undergone amputations, with resulting restoration to a self-supporting and normal way of life, is largely dependent upon the ability and safety of the industry's prosthetic devices and upon their proper fit, alignment, and appearance when put to actual use.

Protection of physically handicapped persons from misrepresentation and deception in their purchases of such products is an objective of the rules. Various practices which are deceptive or otherwise unfair or harmful are defined and provision made for their elimination and prevention. These and the other provisions included in the rules are aimed at maintaining, in the public interest, fair and lawful competition and high standards of ethical business conduct throughout the industry. It is to this end, and to the exclusion of any act or practice which injures, destroys, or prevents fair competition, or which unlawfully restrains trade, that the rules are to be applied.

At the suggestion of the Subcommittee on Aid to Physically Handicapped of the Committee on Labor of the House of Representatives, and in cooperation with industry members, proceedings to formulate and establish fair trade practice rules were instituted under the regular trade practice conference procedure of the Commission. A general industry trade practice conference was held in Chicago, Illinois, at which suggested rules were considered and submitted for Commission approval. Thereafter, a draft of proposed rules in appropriate form was published by the Commission and made available to all interested or affected parties, including users of industry products, upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, amendments, or objections as they desired to offer, and to be heard in the premises. Pursuant to such notice, public hearing was held in Washington, D. C., on February 15, 1946, and all matters presented, or otherwise received in the proceeding, were given due consideration.

Thereupon, and after full consideration of the entire matter, final action was taken by the Federal Trade Commission whereby it approved and received, respectively, the trade practice rules hereinafter appearing in Group I and Group II.

*Group I*

The unfair trade practices embraced in the Group I rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission; and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

AUTHORITY: §§ 165.1 to 165.27, inclusive, issued under 38 Stat. 717, as amended, and pursuant to other provisions of law administered by the Commission.

§ 165.1 *Deception (General).* (a) It is an unfair trade practice to sell, offer for sale, or distribute any industry product, or promote the sale or distribution thereof, by any method or under any circumstance or condition which has the capacity and tendency or effect of deceiving purchasers or prospective purchasers as to the construction, composition, design, model, origin, manufacture, value, quality, weight, absence of noise in operation, strength, durability, life expectancy, appearance, fit, comfort, alignment, utility, ease of operation, or safety to wearer, of such product, or in any other material respect; or to mislead purchasers or prospective purchasers with respect to the need for repair, maintenance, or replacement of parts, of such product after its purchase and use, or with respect to any service offered concerning maintenance of product or training of purchaser in the use thereof.

(b) In this connection, under paragraph (a) of this section, it is an unfair trade practice to represent or infer, unless such be wholly true and nondeceptive, that the product:

(1) Will give use and satisfaction to wearer equivalent or nearly equivalent to that afforded by the human limb or other body member for which the product is proposed as a substitute; or that such product

(2) Has the appearance of, or cannot be detected from, the human limb or body member; or

(3) Is in compliance with any Government specifications or standard; or

(4) Has the latest improvements in construction composition, design, appearance, or utility; or

(5) Is immune from damage or impairment by water; or

(6) Has the approval of any doctor, hospital, or Government agency or official.

(c) The inhibitions of this section shall apply with respect to every species of advertisement or form of representation, whether in newspapers, periodical, telephone directory, sales catalogue, sales promotional literature, on the radio, or otherwise, or whether by use of any word, design, sound, or combination thereof; and such inhibitions shall also apply with respect to labeling and to impressions created by reason of failure to reveal limitations or material facts. [Rule 1]

§ 165.2 *Disclosures to be made before sale.* It is an unfair trade practice for any member of the industry to fail to disclose to any purchaser of an industry product, prior to his or her purchase or making of contract for purpose thereof from such member:

(a) Any and all latent defects of which such member is aware, or has reason to believe exist, with respect to the product being offered for sale; and

(b) The fact that the degree of usefulness and benefit to be derived by the wearer will be dependent in substantial part upon the place and character of his or her amputation, the condition of his or her stump or body member to which the product is to be fitted and applied, his or her age, strength, agility, and state of health, and his or her diligence and persistence in accustoming himself or herself to the use of such product, development of muscles, and acquiring skill in the manipulation and use thereof; and

(c) In the case of a recent amputation, or of the prospective purchaser's previous nonuse of a prosthetic device, the fact that shrinkage of his or her stump is likely to occur by reason whereof the product, though fitting properly at time of delivery, may not continue to be in proper fit after such shrinkage;

such nondisclosure having the capacity and tendency or effect of deceiving purchasers or prospective purchasers as to the true efficacy or benefit to be derived from such product. [Rule 2]

§ 165.3 *Representation or promise that product will "fit".* It is an unfair trade practice for any member of the industry to represent, promise, or guarantee that any industry product will be made to fit any individual purchaser or prospective purchaser thereof, when such representation, promise, or guarantee is not made in good faith or the industry member is not possessed of the requisite skill, knowledge, and equipment to assure of his ability to fulfill such representation, promise, or guarantee.

NOTE: Textile articles or accessories sold by members of the industry are to be labeled or marked with respect to their fiber content as required by applicable provisions of law or regulation. For example, stump socks containing or purporting to contain wool are subject to the requirements of the Wool Products Labeling Act and regulations issued thereunder.

NOTE 1: An industry prosthetic device shall not be considered as fitting unless properly shaped and sized for the stump or body member to which it is to be applied, is in proper alignment and conformity with the physique of the person to wear such product, and affords the optimum of comfort and use on the part of the wearer thereof without injury to stump or other body member. In cases where there is any likelihood of shrinkage of stump after fitting and delivery of the product, full explanation of such shrinkage should be made to the purchaser and the necessity of refitting by reason thereof should be clearly pointed out to him.

NOTE 2: It is the consensus of the industry that the term "perfect fit" should not be used by members, as perfection is not attainable.

[Rule 3]

§ 165.4 *Protection of public with respect to apparent agency.* (a) It is an unfair trade practice for any member of the industry to aid or abet any person in effecting a deception of purchasers or prospective purchasers as to his or her authority to represent and make commitments in behalf of such industry member.

(b) For an industry member to supply any person, not his agent, with samples, sales literature, guarantees of such industry member, or any indices of agency, and accept orders secured by such person and then refuse to fulfill the commitments implied to such purchaser by the use of such samples, sales literature, etc., is an unfair trade practice. [Rule 4]

§ 165.5 *Deceptive testimonials or depictions.* (a) It is an unfair trade practice for a member of the industry to use any testimonial of a user of any prosthetic device, or of any other person, or to use any picture or depiction, which is false, misleading, or deceptive in any respect.

(b) It is an unfair trade practice to cause any testimonial or picture of a user of a prosthetic device to be employed in a manner having the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers into the belief that:

(a) Such testimonial was given, or that the picture was taken and is being used, without solicitation or payment of any consideration, when such is not the fact; or

(b) That the testimonial or picture pertains to the certain kind, model, or make of prosthetic device which is being offered for sale, when such is not the fact.

(c) No member of the industry should use any testimonial which he has good reason to believe contains untrue or exaggerated statements, or display any picture of a wearer of any prosthetic device, or other depiction, which serves to create a false impression as to the actual utility, appearance, or benefits derived from the use of such device. To avoid misunderstanding or deception, proper testimonials and pictures of wearers of such devices should be accompanied by a disclosure of pertinent data, such as the date of the making thereof, the make, manufacture, model, and composition of the certain device worn by the person at the time of his or her making of such testimonial or the taking of such picture, together with disclosure as to the place of his or her amputation, his or her age at the time of loss of limb or body member, and the period of time that he or she has been using such device. [Rule 5]

§ 165.6 *Deceptive demonstrations.* (a) In the sale, offering for sale, or distributing of an industry product, or in promoting the sale or distribution thereof, it is an unfair trade practice to demonstrate any such product in a manner or under circumstances having the capacity and tendency or effect of creating a false impression as to the actual benefits from the use thereof that may reasonably be expected to be had by a purchaser or prospective purchaser of such or a similar industry product.

(b) In this connection, to avoid misunderstanding or deception, no demonstration of an industry product should be made to a purchaser or prospective purchaser unless in conjunction therewith, and before sale or contract for sale is made, there is full disclosure as to:

(1) The make, model, and composition of the particular product demonstrated;

(2) The age of the demonstrator at the time of his or her loss of limb or body member, the place of his or her amputation, and the period of time that such demonstrator has been using a prosthetic device of the kind demonstrated;

(3) The fact that similar benefits and use on the part of the person or persons to whom the product is demonstrated may not be realized by reason of difference of place of amputation, condition of stump, age, occupation, health, agility, strength, or inability or disposition to accustom himself or herself to, and become skillful in the use of, such device; and

(4) The fact that the demonstrator is in the employ of seller, or has an interest in effecting a sale of the product, or is otherwise not wholly disinterested in the promotion of the sale of such product. [Rule 6]

§ 165.7 *Misuse of terms "Custom Made," "Custom Built," "Tailored," Etc.* In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice for a member of the industry to use the terms "custom made," "custom built," "tailored," or any other word or term of similar import, as descriptive of any prosthetic device when such device is not one that has been or will be made, aligned, sized, and fitted to the individual needs and specifications of a consumer-purchaser as distinguished

from a product which is a ready-made or stock prosthetic device. [Rule 7]

§ 165.8 *Guarantees, warranties, etc.* (a) Guarantees which afford purchasers or users substantial and adequate protection, and are fully and fairly stated or disclosed and scrupulously adhered to by the guarantor, are desirable and recommended. It is an unfair trade practice to use or cause to be used any guarantee which is false, misleading, deceptive, or unfair to the purchasing or consuming public.

(b) Under this rule guarantees of the following type or character shall not be used:

(1) Guarantees containing statements, promises, representations, or assertions which have the capacity and tendency or effect of misleading and deceiving as to quality, physiological changes, fit, comfort, or utility under use; or

(2) Guarantees which are so used or are of such form, text, or character as to import, imply, or represent that the guarantee is broader than is in fact true, or that the guarantee covers the entire product or certain parts thereof which are not in fact covered, or will afford more protection to purchasers or users than is in fact true; or

(3) Guarantees in which any condition, qualification, or contingency applied by the guarantor thereto is not fully and nondeceptively stated herein, or is stated in such manner or form as to be deceptively minimized, obscured, or concealed, wholly or in part; or

(4) Guarantees which are stated, phrased, or set forth in such manner that although the statements contained therein are literally and technically true, the whole is misleading in that purchasers or users are not made sufficiently aware of certain contingencies or conditions which are applicable to such guarantees and materially lessen the value thereof as a guarantee to purchasers or users; or

(5) Guarantees which purportedly extend for such indefinite or unlimited period of time or for such long period of years as to have the capacity and tendency or effect of thereby misleading or deceiving purchasers or users into the belief that the product has or is definitely known to have greater degree of serviceability, utility, comfort, or durability in actual use than is in fact true; or

(6) Purported guarantees in the form of documents, promises, representations, or other form which are represented or held out to be guarantees when they are not such in fact, or when they are service contracts of the type which are not guarantees, or when they involve any deceptive or misleading use of the word "Guarantee" or term of similar import; or

(7) Guarantees issued, or directly or indirectly caused to be used, by any member of the industry when or under which the guarantor fails or refuses to scrupulously observe his obligations thereunder or fails or refuses to make good on claims coming reasonably within the terms of the guarantee; or

(8) Guarantees which in themselves or in the manner of their use are otherwise false, misleading, or deceptive.

(c) This section shall be applicable not only to guarantees but also to warranties, to purported warranties and guarantees, and to any promise or representation in the nature of or purporting to be a guarantee or warranty. [Rule 8]

§ 165.9 *Misrepresenting products as conforming to standard.* Representing, through advertisement or otherwise, that any products of the industry conform to a standard recognized in or applicable to the industry when such is not the fact, with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice. [Rule 9]

§ 165.10 *Deception as to rebuilt or second-hand products.* (a) It is an unfair trade practice for any member of the industry to sell, offer for sale, advertise, or otherwise represent, any product of the industry as being new when such is not the fact.

(b) In the marketing of rebuilt or second-hand products of the industry, or parts thereof, or the marketing of products containing rebuilt or second-hand parts, it is an unfair trade practice to fail or refuse to make full and nondeceptive disclosure, by mark, tag, or label, or other writing supplied purchaser, of the fact that such product or parts are not new but are used, rebuilt, or second-hand, as the case may be, such failure or refusal to disclose having the capacity or tendency or effect of misleading or deceiving the purchasing or consuming public. [Rule 10]

§ 165.11 *Substitution of products.* The practice of shipping or delivering products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without the consent of the purchasers to such substitutions, or with the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, is an unfair trade practice. [Rule 11]

§ 165.12 *False invoicing.* It is an unfair trade practice to withhold from or insert in invoices any statements or information by reason of which omission or insertion a false record is made, wholly or in part, of the transactions represented on the face of such invoices, with the effect of thereby misleading or deceiving the purchasing or consuming public. [Rule 12]

§ 165.13 *Misrepresentation as to installment sales contracts, their terms, conditions, etc.:* It is an unfair trade practice to make or publish, or cause to be made or published, directly or indirectly, any false, misleading, or deceptive statement or representation, through advertising or otherwise, concerning installment sales contracts used or their terms and conditions, including down payments, interest, carrying charges, etc., or respecting any other matters relative to such contracts or their terms and conditions. [Rule 13]

§ 165.14 *Misrepresentation as to character of business:* It is an unfair trade practice for any concern, in the course of or in connection with the distribution of industry products, to represent, directly, or indirectly, that it is a manufacturer of industry products, or that it owns or controls a factory making such products, when such is not the fact, or in any other manner to misrepresent the character, extent, or type of its business. [Rule 14]

§ 615.15 *Deception through failure to differentiate between wholesale and retail transactions:* It is an unfair trade practice for any member of the industry to represent or imply that any of his sales are at wholesale or at wholesale price, when such is not the fact. When sales at wholesale and at retail are made in the same establishment, such differentiation between the two types of transactions should be made as is necessary to prevent misunderstanding or deception of purchasers. [Rule 15]

§ 165.16 *Defamation of competitors or disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 16]

§ 165.17 *Procurement of competitors' confidential information by unfair means and wrongful use thereof.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of any employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained in such manner as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 17]

§ 165.18 *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of thereby harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring, or prejudicing competitors in their business, is an unfair trade practice. [Rule 18]

§ 165.19 *Deceptive use of trade or corporate names, trade-marks, etc.* The use of any trade name, corporate name, trade-mark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the character, name, nature, or origin of any product of the industry, or any material used therein, or which is false or misleading in any other respect, is an unfair trade practice. [Rule 19]

§ 165.20 *Misuse of the word "free," etc.* It is an unfair trade practice for any member of the industry to use the term "free," or any other term or representation of similar import or meaning, to describe, designate, or refer to any industry product which is not given to the recipient thereof without cost and unconditionally. [Rule 20]

§ 165.21 *Coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice. [Rule 21]

§ 165.22 *Fictitious prices.* It is an unfair trade practice to sell or offer for sale industry products at prices purported to be reduced from what are in fact fictitious prices, or to sell or offer for sale such products at a purported reduction in price when such purported reduction is in fact fictitious or is otherwise misleading or deceptive. [Rule 22]

§ 165.23 *Inducing breach of contract.* It is an unfair trade practice to induce or attempt to induce the breach of existing lawful contracts between competitors and their customers, or their suppliers, by any false or deceptive means whatsoever, or wilfully to interfere with or obstruct the performance of any such contractual duties or services by any such means, with the purpose or effect of unduly hampering, injuring or prejudicing competitors in their business. [Rule 23]

§ 165.24 *Enticing away employees of competitors.* It is an unfair trade practice for any member of the industry wilfully to entice away employees of competitors with the purpose or effect of thereby unduly hampering or injuring competitors in their business and destroying or substantially lessening competition. [Rule 24]

§ 165.25 *Combination or concern to fix prices, suppress competition, or restrain trade.* It is an unfair trade practice for a member of the industry or any other person:

(a) To use, directly or indirectly, any form of threat, intimidation, or coercion against any member of the industry or other person to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade.

(b) To enter into or take part in, directly, or indirectly, any agreement, understanding, combination, conspiracy, or concerted action with one or more members of the industry, or with one or more other persons, to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade. [Rule 25]

§ 165.26 *Discrimination*—(a) *Prohibited discriminatory prices, or rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce,[1] and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce,[1] or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them; *Provided, however:*

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States;

(2) That nothing herein contained shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

(3) That nothing herein contained shall prevent persons engaged in selling goods, wares, or merchandise in commerce[1] from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing herein contained shall prevent price changes from time to time where made in response to changing conditions affecting either (i) the market for the goods concerned, or (ii) the marketability of the goods, such as, but not limited to, actual or imminent deterioration of perishable goods, obsolescence of seasonal goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned.

(b) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for, or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(c) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce[1] to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(d) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the industry to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all purchasers on proportionally equal terms.

(e) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce,[1] in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

(f) *Purchases by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit.* The foregoing provisions of this section relate to practices within the purview of the Robinson-Patman Antidiscrimination Act, which Act and the application thereunder of this section are subject to the limitations expressed in the amendment to such Robinson-Patman Antidiscrimination Act, which amendment was approved May 26, 1938, and reads as follows:

> Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That nothing in the Act approved June 19, 1936 (Public, Numbered 692, Seventy-fourth Congress, second session), known as the Robinson-Patman Antidiscrimination, Act, shall apply to purchases of their supplies for their own use by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit." 52 Stat. 446; United States Code, 1940 Edition, Title 15, Sec. 13c.)

(g) *Purchases by U. S. Government; applicability of Robinson-Patman Antidiscrimination Act to same.* In an opinion submitted to the Secretary of War under date of December 28, 1936, the U. S. Attorney-General advised that the Robinson-Patman Antidiscrimination Act "is not applicable to Government contracts for supplies." (39 Opinions, Attorney-General 539) [Rule 26]

§ 165.27 *Aiding or abetting use of unfair trade practices.*

It is an unfair trade practice for any person to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this part. [Rule 27]

[1] As here used, the word "commerce" means trade or commerce among the several States and Territories, including the District of Columbia, in accordance with the full scope of the definition of such term found in section 1 of the Clayton Act (38 Stat. 730; 15 USCA, Sec. 12.)

*Group II*

Compliance with trade practice provisions embraced in Group II rules is considered to be conducive to sound business methods and is to be encouraged and promoted individually or through voluntary cooperation exercised in accordance with existing law. Nonobservance of such rules does not per se constitute violation of law. Where, however, the practice of not complying with any such Group II rules is followed in such manner as to result in unfair methods of competition, or unfair or deceptive acts or practices, corrective proceedings may be instituted by the Commission as in the case of violation of Group I rules.

RULE A. *Disapproval of solicitation when benefits unlikely.* The industry condemns the practice of soliciting or promoting the sale of any of its products to persons who by reason of their physical state, age, or infirmity, cannot be expected to obtain reasonable use and benefit from such products. This rule shall not be regarded as preventing the purchase of an industry product by any person who requests such a device, notwithstanding such person may not thereby obtain a reasonable degree of use and benefit therefrom.

RULE B. *Cooperation with doctors.* The industry fully realizes that the interest of amputees is best promoted by the cooperation of the doctor and industry member with respect to the site of amputation and the type and fitting of industry products, and as to the appropriate time for consideration by the patient of the purchase of a prosthetic device. The industry pledges its members to give every assistance and advice to doctors prior to and after the amputation that the amputee may have the optimum of benefit from the industry product which he may later purchase and use, whether or not such industry member sells, or has opportunity to solicit the purchase of, his products; and to do everything possible to promote mutual trust and confidence between the industry and members of the medical profession.

RULE C. *Importance of personal fitting.* The industry disapproves of the practice of undertaking to supply an artificial limb that will fit an amputee by mail-order specifications and without personal fitting thereof, as it believes that satisfactory and proper fit cannot be attained except by personal fitting. This rule shall not be construed as prohibiting sale of artificial limbs by mail order without personal fitting when no misrepresentation is made, directly or by implication, as to fit.

RULE D. *Minimizing importance of "fit" by exploitation of less important features.* It is the consensus of the industry that proper fit and alignment are of vital importance with respect to the satisfactory use of its products by amputees and should not be minimized by the undue exploitation of other aspects or features of less importance.

RULE E. *Sharing of improved techniques.* Believing that the interest of amputees is its first concern, the industry favors the making available to all of its members and the general public any improved technique that may be used or developed by any of its members in respect to the making, fitting, aligning, or servicing of industry products. Further, the industry desires to be an active and cooperative factor in all progressive developments of improved techniques that will contribute to the welfare and comfort of all amputees.

Promulgated and issued by the Federal Trade Commission April 16, 1946.

*Secretary.*

(b) This section shall apply only to wage or salary increases to employees in plants:

(1) Which are engaged primarily in manufacturing one or more of the following items: radios, radio tubes, phonographs; telephone and telegraph equipment and electric signalling apparatus; electrical refrigerators and refrigeration machinery, including compressors, evaporators, condensors and other related mechanical devices essential to electrical refrigeration; complete electrical air-conditioning units; household electrical appliances, including heating, cooking, cooling, cleaning and laundry equipment; lighting fixtures; wiring devices and supplies; carbon and artificial graphite products for the electrical industry; electrical measuring instruments; electrical prime movers and other electric power equipment (including motors, generators, steam turbine generator sets, transformers, switchboards, panel-boards, and other transmission accessories) for employment in the generation, transmission or utilization of electric energy; wire and cable for the transmission of electrical energy; automotive electrical equipment; electric lamps; storage and primary batteries (wet and dry); or electrotherapeutic and electromedical apparatus; and

(2) In which general wage or salary rate increases, which in the aggregate were not less than 13 cents per hour and not more than 18 cents per hour, were granted during the period between January 1, 1941 and August 17, 1945.

(c) An employer who seeks an adjustment in the price ceiling for his product based upon the wage or salary adjustments herein approved shall indicate to the Office of Price Administration in any price relief application that the adjustments have been made or agreed upon pursuant to this section, and shall set out the wage rate in formation called for by paragraph (b) (2) of this section.

(d) In accordance with sections 201 and 202 of the Supplementary Wage and Salary Regulations of the Office of Economic Stabilization, issued March 8, 1945, any increase in a plant in the electrical industry not covered by the terms of this section requires the prior approval of the Board or the filing of a notice with the appropriate Regional Wage Stabilization Board if the employer is not to be deemed to have waived, during the continuation of the stabilization laws, the right to use such increase as a basis for seeking price relief or for increasing costs to the Government. The terms of this preapproval shall not constitute any standard for the approvability of wage or salary increases to employees in any plant not satisfying the conditions set forth in paragraphs (b) (1) and (2) of this section. This preapproval shall have effect only where a wage or salary adjustment has been finally determined or agreed upon by the party or parties involved.

(e) On request of any employer or collective bargaining representative involved, accompanied by pertinent factual information, the National Wage Stabilization Board will issue rulings as to whether any specified plant or plants come within the terms of paragraph (b) (1) and (2) of this section. Where there is a collective bargain representative involved, a copy of the request from either party for a ruling under this section must be served upon the other party, and the request shall indicate such service.

Approved by the National Wage Stabilization Board, April 11, 1946.

### PART 1305—ADMINISTRATION

[SO 108,[2] Amdt. 11]

MANUFACTURERS' MAXIMUM AVERAGE PRICES FOR CERTAIN ITEMS OF APPAREL AND APPAREL ACCESSORIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 108 is amended in the following respects:

1. Section 12 (b) (1) is amended to read as follows:

(1) *Quarterly reports.* Within 20 days after the end of each calendar quarter, you must file with your OPA District Office two copies of a report in the form prescribed on OPA Form 6062-2773 (signed by an owner, officer, or principal) covering all categories which you delivered during the quarter. This report shall contain the following:

(i) Your business name and the address of your main office from which billings are made;

(ii) The beginning and end dates of the period covered by the report;

(iii) For each category you delivered during the period:

(*a*) Category number and title;

(*b*) Maximum average price. This means your authorized or base period maximum average price applicable to the quarter covered by this report, as revised or recomputed under any provision of SO 108 or any Special Order except Special Orders 3 and 5. If you are using either the tolerance in Special Order 5 or the exemption level adjustment in Special Order 3, state also the increased maximum average price as figured under the appropriate provision.

NOTE: The tolerances may be used only for categories whose maximum average price is based on a 1943 base period and may not be used to compute a credit.

(*c*) Total net dollar amount charged;

(*d*) Total number of units delivered (specifying whether dozens, gross, etc.);

(*e*) Weighted average price;

(*f*) Dollar amount of credit or surcharge, if any;

(iv) Dollar amount of surcharge for all categories combined, if any;

(v) Dollar amount of credit for all categories combined, if any;

(vi) Dollar amount of net credit, if any, from previous quarter;

(vii) Net surcharge ((iv) minus the sum of (v) and (vi)) or net credit (the sum of (v) and (vi) minus (iv)), if any;

(viii) Category number and title of each category listed in your maximum average price chart or OPA order of authorization which was not delivered during the quarter;

(ix) If you have a net surcharge, state what makeup basis you will use, if any of this net surcharge is not made up by the 30th day after the end of the quarter reported. This statement constitutes an election to operate under the provision chosen until this surcharge is made up.

However, the quarterly report for the 1st quarter of 1946 may be filed on or before April 30, 1946, instead of 20 days after the end of that quarter.

Deliveries made while operating on a makeup basis shall not be included in the above report.

2. Section 12 (b) (2) (i) is amended to read as follows:

(i) If you have been operating on the makeup basis described in section 7 (a) you must file with your OPA District Office two copies of a report in the form prescribed on OPA Form 6062-2774 (signed by an owner, officer, or principal) covering your makeup operation within 10 days after you complete your makeup operation.

If you do not make up your net surcharge during the calendar quarter after the quarter in which it was incurred, you must file this report instead of the quarterly report for that quarter, and for each succeeding quarter in which you operate wholly on a makeup basis. In addition, you must file a final report of that portion of your makeup operation not previously reported within 10 days after the day on which you completely make up your net surcharge. Each makeup report shall state that you are operating under section 7 (a) and shall contain the following information:

(*a*) Your business name and the address of your main office from which billings are made;

(*b*) The beginning and end dates of the period covered by the report;

(*c*) For each category you delivered during th period:

(*i*) Category number and title;

(*ii*) Maximum average price. This means your authorized or base period maximum average price, applicable to the quarter in which the period covered by this report falls, as revised or recomputed under any provision of SO 108 or any Special Order except Special Orders 3 and 5. If you are using either the tolerance in Special Order 5 or the exemption level adjustment in Special Order 3, state also the increased maximum average price as figured under the appropriate provision.

NOTE: The tolerances may be used only for categories whose maximum average price is based on a 1943 base period and may be used for all purposes during the makeup period.

(*iii*) Total net dollar amount charged;

(*iv*) Total number of units delivered (specifying whether dozens, gross, etc.);

(*v*) Dollar amount of additional surcharge, if any ((*iii*) minus product of (*iv*) multiplied by (*ii*));

(*vi*) Dollar amount of surcharge made up, if any (product of (*ii*) multiplied by (*iv*) minus (*iii*));

(*d*) Dollar amount of your net surcharge at the beginning of the period (net surcharge incurred less any amount previously made up and reported);

(*e*) Dollar amount of additional surcharge for all categories combined, if any (from (*c*) (*v*));

(*f*) Dollar amount of net surcharge you made up in all categories combined, if any, during the period (from (*c*) (*vi*));

(*g*) Dollar amount of net surcharge, if any, remaining to be made up (sum of (*d*) and (*e*) minus (*f*));

(*h*) Category number and title of each category listed in your maximum average price chart or OPA order of authorization which was not delivered during the period.

3. Section 12 (b) (2) (ii) is amended to read as follows:

(ii) If you have been operating on the makeup basis described in section 7 (b) you must file with your OPA District Office two copies of a report in the form prescribed on OPA Form 6062-2775 (signed by an owner, officer, or principal) within 10 days after the end of each month during which you operated on a

(*e*) Total of amount shown in (*c*) (*vi*) for all categories combined;

(*f*) Total of amount shown in (*c*) (*vii*) for all categories combined;

(*g*) Dollar amount of your net accumulated surcharge at the beginning of the month (net surcharge incurred during the last quarter of normal operation plus any additional net surcharge incurred during the first month of the makeup period and minus any amount previously made up and reported);

(*h*) Dollar amount of net accumulated surcharge made up in all categories combined, if any ((*e*) minus (*d*));

The three sample reports above show how you must arrange your own quarterly reports and your makeup report for a makeup operation under section 7 (a). The first report shown is for the first quarter of operation and therefore would be filed within 20 days after the end of the quarter. This report shows that in category A–10 the reporting company's weighted average price was more than its maximum average price plus tolerance for the period and therefore a surcharge has to be computed and reported. In Category A–26 the company earned a credit because its weighted average price was lower than its maximum average price as adjusted under Special Order 3 in that category. In category A–18 the weighted average price was higher than the original maximum average price but within the increase permitted by the tolerance so the company had neither a surcharge nor a credit in that category. Therefore, the credit earned was subtracted form the surcharge leaving a net surcharge to be made up of $900.00.

The second and third sample reports show that the reporting company made up its net surcharge during the fourth calendar quarter of 1945, that is, the quarter following the one in which it was incurred; therefore, the second report would be filed within 10 days after the company completed its makeup and the third report shown would be filed within 20 days after the end of the fourth quarter. The end date specified in the makeup report indicates that the company made up the net surcharge incurred in the previous quarter by October 25, at which time it ceased to operate on a makeup basis. The figures shown in the makeup report indicate that the company made up a portion of the net surcharge in each of the categories delivered during the makeup period.

Since the company was on a makeup basis, the amount of surcharge made up in each category delivered could be figured by deducting the weighted average price from the maximum average price increased by the amount of tolerance for each category and then multiplying the difference by the number of units delivered. The quarterly report covering the remainder of the fourth quarter when the company was not a makeup basis shows that a credit was earned in category A–26 in that quarter and no surcharges were incurred. Therefore, the company had a net credit for that quarter.

The sample report shown below illustrates a makeup report for January 1946 prepared by a manufacturer who sells only Category A–1 and who chose to operate under the makeup provision of section 7 (b). Assume that this manufacturer incurred a net surcharge during the third quarter of 1945 of $2,000. For the period October 1 through November 30 his weighted average price was 10¢ above his maximum average price and he delivered 10,000 units. During December he made up 5¢ per unit on deliveries of 4,000 units. Therefore, his net accumulated surcharge by January 1, 1946 was $2,800 ($2,000 plus $1,000 minus $200). His total net dollar amount charged during the period October 1 through December 31 was $28,000. Therefore, under section 7 (b) (1), his maximum average price must be reduced by 10% until he makes up his net accumulated surcharge ($2,800 divided by $28,000). The entries in his report show that his original maximum average price applicable in January 1946 was $11.73 and his increased maximum average price was $12.90 after adding tolerance under Special Order 5. Therefore, his reduced maximum average price became $11.61 (10% of $12.90 equals $1.29; $12.90 minus $1.29 equals $11.61). During January 1946 in the only category delivered, his total net dollar amount charged was $9,000. His total number of units delivered was 779. Since his maximum average price before reduction multiplied by 779 equals $10,049.10, he made up $1,049.10 of his net accumulated surcharge during the month $10,049.10 minus $9,000). His net accumulated surcharge remaining to be made up was $1,750.90 ($2,800 minus $1,049.10). Also, since his reduced maximum average price multiplied by 779 equals $9,044.19 and his total net dollar amount charged was $9,000, his total charge did not exceed the total amount he was permitted to charge under section 7 (b).

7. Section 19 is amended to add paragraph (o) to read as follows:

(o) Maximum Price Regulation 607 [3]—Manufacturers' Prices for Men's and Boys' Tailored Clothing and Related Garments.

8. Section 21 (a) (1) (ii) is amended to read as follows:

(ii) During one or more of your base periods 50% or more of your deliveries (in dollars) of commodities of the same description as the items in any category were made pursuant to contracts or subcontracts with war procurement agencies. (In calculating your total deliveries pursuant to such contracts you may figure as your dollar amount charged for items for which the war procurement agency supplied you with materials an amount equal to your charge for your services plus the cost of the materials.)

9. Section 21 (a) (1) (iv) is amended to read as follows:

(iv) During or since your base period but prior to June 1, 1945, you lost by destruction, sold or otherwise transferred (and have not replaced) part of your production facilities and these facilities had been devoted to the production of items at prices lower than your maximum average price.

12. Section 21 (a) (2) (iii) is amended to read as follows:

(iii) You cannot because of your present facilities operate your business without incurring a net surcharge even if you deliver all items in the category at your total cost for such items. This situation shall be considered a hardship only if the circumstances described in (1) (iv) or (1) (v) above are alleged as the ground for application.

13. Section 21 (c) (1) (ii) is amended to read as follows:

(ii) Maximum average prices which cannot be maintained because of the circumstances described in (a) (1) (iv) and (a) (1) (v) will be adjusted to permit the manufacturer to recover total cost of the items in the adjusted category which he can make: *Provided*, That he is unable to balance his surcharges with credits in other categories.

## PART 1377—WOODEN CONTAINERS

[RMPR 186, Amdt. 15]

### WESTERN WOODEN AGRICULTURAL CONTAINERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 186 is amended in the following respects:

1. In § 1377.102, paragraph (a) is amended to read as follows:

(a) *Products covered by the regulation.* This regulation, under the term "Western wooden agricultural containers," covers: All sawn shook agricultural containers and veneer covers for such containers produced in the "western area," which means the states of California, Washington, Oregon, Idaho, Montana, Wyoming, Utah, Nevada, Arizona, New Mexico, and the county of Montezuma in Colorado. The term "agricultural container" means any assembled or unassembled box, crate, case, tray, lug, carrier, or similar container made principally of wood, and customarily used for handling, packaging, shipping, or storing fruits and vegetables (whether fresh, dried or canned). It includes any constituent wooden part (shook) of the kind of containers mentioned, if it is ready to be assembled into the container, and also includes bracing only when used in shipping western wooden agricultural containers covered by this regulation or metal agricultural containers and all species of car strips. It also includes agricultural containers specifically listed in Table 2 which are made of veneer.

This regulation does not cover army ration boxes, cooperage products or parts, used containers, or wirebound boxes or parts.

2. In § 1377.110, that part of paragraph (c) which precedes Table 2 is amended to read as follows:

(c) *Maximum prices for shook used in Western wooden agricultural containers.* The maximum prices for 1000 feet of shook used in Western wooden agricultural containers are those set out in Table

2; except that, until and including May 31, 1946, the maximum prices for 1000 feet of shook used in Western wooden agricultural containers are those set out in Table 2A, notwithstanding any other provision of this regulation.

3. In § 1377.110 (c) Table 2, the item which reads:

Bracing only when used in shipping Western wooden agricultural containers covered by this regulation:
Standard thickness.
Bulkhead.
Vertical bracing (Hoak).

is amended to read as follows:

Bracing only when used in shipping Western wooden agricultural containers covered by this regulation or metal agricultural containers:
Standard thickness.
Bulkhead.
Vertical bracing (Hoak).

4. In § 1377.110 (c) a new table designated as Table 2A is added, to follow immediately after Table 2, and to read as follows:

## PART 1305—ADMINISTRATION

[Rev. SO 145]

### WHOLESALERS' AND RETAILERS' "EXPENSE RATE" ADJUSTMENTS

Supplementary Order 145 is redesignated Revised Supplementary Order No. 145 and is revised and amended to read as follows:

A statement of the considerations involved in the issuance of this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

§ 1305.173 *Wholesalers' and retailers' "expense rate" adjustments*—(a) *What this order does.* Under this order a wholesaler or a retailer pricing under certain regulations may, if he wishes, adjust his ceiling price (subject to the qualificatons stated in paragraph (b)) whenever increases in his supplier's ceiling prices would compel him to sell below his expense rate or would further reduce his markups where he is already selling below his expense rate.

(b) *When an adjustment is permitted, and how to figure it.* (1) If you are a retailer or a wholesaler and your ceiling price is established under the General Maximum Price Regulation. Maximum Price Regulation 210. Maximum Price Regulation 580, or Maximum Price Regulation 590, for an article for which your supplier's ceiling price has been increased, you may adjust your ceiling price of that article so that it equals the

sum of the net cost of the article including inbound freight and the expenses of your business which are allocable to that article; except that in no case may you increase your ceiling price by an amount greater than the amount found when you multiply your ceiling price by the percentage by which your supplier's ceiling price has been increased. In no case, however, does this order apply where the OPA has fixed the same dollar-and-cents ceiling price for all of the sellers of a class or geographical area or where a retail ceiling price has been required by the OPA to be preticketed. This order may not be used to adjust ceiling prices (under any regulation including those listed above) of food, grain, cereals, seeds, feeds, tobacco, tobacco products, agricultural chemicals, insecticides, beverages, masonry and insulation materials, refractory products, tarred and asphalt roofing, mechanical building equipment, builders' hardware, lumber, millwork, pulp, paper, and paperboard products.

(2) You are not permitted to offer, sell or deliver an article at the adjusted price allowed by this order unless:

(i) You have received and have available for inspection by OPA either a written notice from your supplier which states his unadjusted ceiling price for the article, his adjusted ceiling price and the difference between that unadjusted and adjusted ceiling price or an invoice from which this information can be obtained. Where your supplier has been specially directed as to the manner in which he shall state his unadjusted ceiling price to you, his unadjusted price shall be the unadjusted price properly stated to you in accordance with that direction.

(ii) You have prepared and have available for inspection by OPA the records required by paragraph (e).

(3) You find your adjusted price by following the procedure in steps 1, 2, and 3 below:

(i) *Step 1.* You first find your "expense rate." (Your expense rate is your expense of operating the department or business in which the article you are pricing is sold, expressed as a percentage of your net sales for that department or business. You must figure your "expense rate" strictly in accordance with paragraph (c).)

(ii) *Step 2.* You then find a selling price for the article you are pricing which will return to you a percentage margin on selling price over net landed cost equal to your expense rate. You do this by subtracting your expense rate from 100% and by dividing the result into the "net landed cost" of the article. ("Net landed cost" is the actual cost stated on your invoice, less all available discounts and including inbound freight.)

For instance: If you are pricing an article having a gross cost of $2.00 and you buy at terms of 5/10 E. O. M., your net cost would be $1.90. If the inbound freight for the article was $.03 your "net landed cost" would be $1.93. If your expense rate, calculated in accordance with paragraph (c) is 30%, the amount you would arrive at under this step ($2.76) is figured by dividing $1.93 by .70 (100% minus 30%).

(iii) *Step 3.* If your ceiling price determined under regulation now applicable is the same as or higher than the amount found in Step 2, this order does not change that ceiling price. However, if that ceiling price is less than the amount found in Step 2, and if you wish to adjust your ceiling price under this order, you must take as your adjusted price the lower of

(*a*) The amount found in Step 2, or

(*b*) Your ceiling price (figured under the regulation applicable before your supplier's adjustment) plus an amount sufficient to give you the same markup you had before your supplier's adjustment. You find the amount to be added by determining from your supplier's notice to you the percentage by which his price was increased and by multiplying your ceiling price by that percentage.

For instance: If your supplier's notice states his old ceiling price to be $1.00 and the amount of the adjustment to be $.10, you would determine that his price had been increased 10%. Accordingly, you would add to your ceiling price 10% thereof.

(c) *How you arrive at your "expense rate."* (1) As stated above, your "expense rate" is your expense of operating the department or business in which the article you are pricing is sold, expressed as a percentage of your total net sales.

If you have books and records which will enable you to figure your "expense rate" for the department in which the article you are pricing is sold, the expense rate which you are to use must be for that department. If your books and records do not enable you to figure the expense rate this way, you may, if you have sufficient books and records, use the expense rate of your entire business. Note carefully that you may not include any items permitted by subparagraph (2) which are involved in the conduct of your business unless you have books and records from which you can accurately determine them.

(2) You arrive at your expense rate for your business (or department, if you are required to use the department for this purpose) by taking the following steps:

(i) Find your total net sales for your most recent fiscal year.

(ii) Also for your most recent fiscal year, list the amount of each expense item listed in Appendix A if you incur such an item of expense. If you have a definite item of expense which is not listed in Appendix A, you may add that to the list. In no case may you list any expense item unless by your books and records you can support the amount of expense listed for that item. Where you have any of the items included in Appendix A, you are not permitted to lump them but must separately state each expense item you had.

(iii) Add up the amounts of your expense items which you listed in accordance with (ii) and divide the sum by the total net sales figure which you found in (i). The result is your expense rate.

(d) *Recalculation of expense rate.* You must recalculate your expense rate anew within 90 days following the end of each of your fiscal years.

(e) *Records and filing.* You may not offer, sell or deliver an article at an adjusted ceiling price found under this section unless the following requirements are met for the unit (department or store, as the case may be) in which the article is offered:

(1) (i) You have filed with the District Office having jurisdiction over your place of business a letter stating:

(*a*) Your name and address;

(*b*) The fiscal year for which you computed your expense rate;

(*c*) The expense rate you have computed, stating the department to which the expense rate applies, or that it applies for the business as a whole, if that is the case.

(ii) You have received from the District Office an acknowledgment of the letter filed under subdivision (i). (This acknowledgment witnesses receipt of the filing but does not express any determination as to the accuracy or validity of the filing.)

(iii) You have, when a recomputation is required by paragraph (d), filed with the District Office a letter stating the recomputed expense rate, and have received an acknowledgment therefor.

(2) You have and maintain at all times for inspection by OPA the following records:

(i) All records, books of account and other documents kept in the regular course of business from which you have computed your expense rate.

(ii) A record showing exactly how you computed your expense rate; showing each item of allowable expense listed in Appendix A and listing the elements of which each item is composed; showing the fiscal year used by you in making your computation; showing whether you used your business as a whole or a particular department; and showing the total net sales for the period used.

(iii) Your supplier's notification containing the information which you are required to have under paragraph (a) (2) (i).

(iv) A copy of the letter which you are required to file under subparagraph (1) (i) and the acknowledgment thereof received from your OPA District Office. If you price under an MPR 580 or MPR 590 chart, you must attach the letter and acknowledgment to your chart.

APPENDIX A

The items of expense[1] which you may include in computing your expense rate are the following:[2]

Item 1. *Officer's or proprietor's compensation.*[3] Partnerships and proprietorships whose owners did not make regular withdrawals for management salaries may set up a reasonable amount, based on actual serv-

[1] Items of expense unless otherwise specified in the Appendix are allowable in accordance with accepted accounting practice. Additional definite items of expense not included in this list may be included by you provided that you identify each specifically. Note carefully that inbound freight is not to be included as an item of expense since it is already included in the cost base. Also note that you are not permitted to lump together any separate items of expense except as provided in the Appendix.

[2] You must enumerate the elements which you include in this item on the work sheets on which you make your computation of your expense rate and which you are required to keep under paragraph (e) (2) of this order.

ices performed and time expended in the management of the business, and may include this amount in operating expense.

Item 2. *Salaries and wages including commissions,*[3] (other than officer's or proprietor's) such as buyers, salesmen, clerical, office and stockmen; receiving, packing, shipping force, janitorial, and elevator operator.

Item 3. *Traveling expense*[3] (Officers; salesmen, buyers, or other).

Item 4. *General expense,*[3] including such elements as postage; telephone; telegraph; office supplies; stationery; dues; subscriptions; donations; collection expense; advertising expense; professional services such as legal and auditing; prepaid freight, prepaid express, and parcel post on outgoing shipments; heat, light, power and water; building and equipment repairs and supplies; packing and shipping supplies; and insurance (including life or health or pension fund payments for the direct benefit of employees but excluding officers and owners), fidelity and liability insurance, insurance on merchandise, insurance on automobiles, on delivery equipment, on buildings, and on other equipment.

NOTE: Payments for credit insurance may only be included if there is no separately stated carrying charge for credit. Interest payments on a mortgage or on borrowed money may not be included. Bad debt losses will be allowed to the extent not compensated for by insurance or carrying charges.

Item 5. *Taxes*[3]—may include all taxes except income taxes, excess profits taxes, capital gains taxes, capital stock taxes, and certain excise taxes. Excise taxes may not be included if they are separately stated and collected, but if the tax is included in the sale price it may also be included here.

Item 6. *Depreciation*[3]—on building, furniture, fixtures, automobiles and trunks, and delivery equipment. For the purposes of this order depreciation shall be computed at rates not in excess of those allowed by federal tax regulations.

Item 7. *Rent*—only rent actually paid. If the rent includes heat, light, water, or power, such items may not be included under General expense.

This revised supplementary order shall become effective April 20, 1946.

NOTE: The reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1499—COMMODITIES AND SERVICES

[MPR 188, Amdt. 78]

MANUFACTURERS' MAXIMUM PRICES FOR CONSUMER GOODS OTHER THAN APPAREL

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 188 is amended in the following respects:

1. Section 1499.159 (b) is redesignated as § 1499.159 (c).

2. A new § 1499.159 (b) is added to read as follows:

(b) A manufacturer who desires to change any of his terms, discounts, price differentials or conditions of sale in effect in March 1942, or thereafter properly established under the applicable regulation, shall apply to the Office of Price Administration, Washington, D. C., setting forth in detail the proposed change and the reasons therefor. The Price Administrator may grant permission to the manufacturer to make the proposed changes when, in his opinion, the manufacturer has demonstrated that the general level of his maximum prices to each class of purchaser will not be raised thereby, and that the granting of such permission will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. No manufacturer may, prior to the issuance of an order by the Office of Price Administration authorizing such change, change his established terms, discounts, allowances, price differentials, or conditions of sale. Nothing in this section shall be construed as forbidding a manufacturer from selling below the established ceiling prices.

This amendment shall become effective on April 29, 1946.

NOTE: The record keeping and reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 15th day of April 1946.

## PART 1499—COMMODITIES AND SERVICES

[SR 14E,[1] Amdt. 33]

### SALES AT WHOLESALE OF CERTAIN COTTON PRODUCTS AND CERTAIN MANUFACTURED ARTICLES

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (m) of section 2.7 of Supplementary Regulation 14E is amended to read as follows:

(m) *Maximum prices for cotton bedspreads and napery.* (1) This paragraph applies to all sales at wholesale of cotton bedspreads, table cloths, table napkins and table cloth fabric for which the producer's maximum price is established under Maximum Price Regulation 118.

(i) The maximum price for a sale at wholesale (other than a sale by an "institutional wholesaler" to an institutional, industrial or commercial user or sales by a jobber to a person who fabricates from the article sold) of the articles described in paragraph (1) shall be the sum of the seller's "unadjusted price" and his "OPA adjustment charge" defined below.

(a) *The wholesaler's "unadjusted price"* is his maximum price computed in accordance with the General Maximum Price Regulation: *Provided,* That it may include in addition thereto an amount computed by taking 122% of any amount by which his supplier's maximum price established under Maximum Price Regulation 118 was increased by more than 20%.

(b) *The wholesaler's "OPA adjustment charge"* is 70% of that part of his supplier's increase which does not exceed 20% of his supplier's maximum price established under Maximum Price Regulation 118.

*Example:* X, a wholesaler, buys table cloths at $1.16 net, including freight, his supplier's present ceiling. He has secured a notice from his supplier which shows that the supplier's original ceiling price was $1.00. This means that his supplier's ceiling has been increased by 16%. Assuming X's maximum price under the General Maximum Price Regulation was $1.22 his new maximum price is the sum of that maximum price plus $.11 (that is 70% of the amount by which his supplier's price was increased) X's new maximum price is therefore $1.33.

*Example:* X, a wholesaler, buys bedspreads at $1.30 net, including freight, his supplier's present ceiling. He has secured a notice from his supplier which shows that the supplier's original ceiling price was $1.00. This means that his supplier's ceiling price has been increased by 30%. Assuming X's maximum price under the General Maximum Price Regulation was $1.25, his new maximum price is the sum of his old maximum price, $1.25, plus $.12, that is 122% of the amount by which his supplier's price was increased by more than 20%, and $.14, that is 70% of the amount by which his supplier's price was increased up to 20%. X's new maximum price is therefore $1.51.

(ii) The maximum price for a sale at wholesale by an "institutional wholesaler" (not including a sale by a jobber to a person who fabricates from the article sold) to an institutional, industrial or commercial user of the articles described in paragraph (1) shall be the sum of his maximum price computed in accordance with the General Maximum Price Regulation and the amount by which his supplier's price under Maximum Price Regulation 118 has been increased.

(3) *When maximum prices established under this paragraph may be used.* No seller may determine his ceiling price of an article under this paragraph unless he has secured from his supplier and has available for inspection by OPA a written notice stating the manufacturer's maximum price for that article as originally established under Maximum Price Regulation 118 and his current ceiling price therefor.

(4) *Special notice.* A seller pricing under this paragraph who is required to send a notice in accordance with section 2.7 (b) (6) shall, in lieu of the notice specified in that section, send the following notice:

STATEMENT OF OPA ADJUSTMENT CHARGE

The Office of Price Administration has granted us adjustments on the following items, one or more of which are billed on the attached invoice. The part of these adjustments which you are required take into account in pricing under Maximum Price Regulation 580 is stated separately as "wholesaler's OPA adjustment charge."

| Style | Old ceiling | Wholesalers' OPA adjustment charge | New ceiling |
|---|---|---|---|
| | | | |

When you price under Maximum Price Regulation 580 you may *not* include the above-stated "wholesaler's OPA adjustment charge" as part of your "net cost."

This amendment shall become effective April 20, 1946.

Issued this 15th day of April 1946.

WHITE-RODGERS ELECTRIC CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 150 under Revised Supplementary Order No. 119. Adjustment of maximum prices for sales of automatic electric temperature controls as defined in Order No. 48 of MPR 591, manufactured by the White-Rodgers Electric Company of St. Louis, Missouri. Docket No. 6075–SO 119–16.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for sales of automatic electric temperature controls, as defined in Order No. 48 of MPR 591, manufactured by the White-Rodgers Electric Company of St. Louis, Missouri.* (1) The above mentioned manufacturer may determine his maximum price for his line of automatic electric temperature controls, as defined in Order 48 under Maximum Price Regulation 591, by increasing by 36 percent his prices on these items in effect on October 1, 1941, to each class of purchaser.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum price to each class of purchaser his properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941, plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category.

(b) *Resellers maximum prices.* All resellers of the commodities covered by the order shall determine their maximum prices by multiplying their acquisition cost after the effective date of the order by their mark-up factor in effect on April 11, 1946.

This order shall not authorize a manufacturer who sells these commodities in assembly with another item to increase his maximum prices for such assembled item.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the

commodities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect.

Order No. 150 under Revised Supplementary Order No. 119 authorizes a 36 percent increase in October 1, 1941 net prices for sales of automatic electric temperature controls manufactured by this company.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add the same percentage mark-up to their new cost that they have in effect on these items on April 11, 1946.

(d) All prayers for relief not granted herein are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective April 12, 1946.

APPENDIX A—Maximum prices for sales by manufacturers and retailers of new metal cots and double deck beds.

SECTION 1. *Purposes of this revised order.* This revised order establishes maximum prices for sales at all levels of sale of new metal cots, (folding and rollaway), and double deck beds.

SEC. 2. *Articles covered by this revised order.* The articles covered by this revised order are new metal cots (folding and rollaway) and double deck beds.

SEC. 3. *Manufacturers' maximum prices*—(a) *Listed maximum prices.* Manufacturers' f. o. b. factory l. c. l. maximum prices for sales to retailers of most articles covered by this revised order are listed in Appendix A of this revised order.

(b) *Unlisted maximum prices.* (1) After April 20, 1946, a manufacturer shall not sell, offer to sell, deliver or offer to deliver any article covered by this revised order for sales of which maximum prices have not been established under paragraph (a) of this section; or by an order of the Office of Price Administration, until he has applied to the Office of Price Administration, Washington 25, D. C, for the establishment of his maximum prices for such sales, and until such maximum prices have been established by an order of the Office of Price Administration under this section, or, if the manufacturer has received no contrary notification from the Office of Price Administration, by the expiration of the waiting period referred to in subparagraph (2) below.

The application shall set forth the following (unless the information has already been furnished to the Office of Price Administration, in which case the date and the office to which it was furnished, shall be stated):

(i) The identifying number or trade name of the article to be priced.

(ii) The reasons why the article to be priced cannot be priced under paragraph (a) of this section.

(iii) The detailed specifications and an illustration of the article to be priced.

(iv) An itemized breakdown of the manufacturer's current unit direct cost of the article to be priced, showing separately, according to his own system of accounts or regularly prepared operating statements, all major component unit direct cost factors. For the purpose of this revised order, unit direct costs include direct labor and direct material costs but do not include factory burden (sometimes called factory overhead or indirect manufacturing expenses), packaging and crating costs, royalties and patterns, tool and die cost and items of administrative, general and selling expenses. Also, state the number of units of production upon which the unit direct costs were based.

(v) An itemized breakdown of the manufacturer's current unit direct cost as described in (iv) above, of the basic model in Appendix A of this revised order which is most nearly comparable to the article being priced.

(vi) Price lists in effect during March, 1942 showing:

The article most nearly comparable to the article being priced;

The article most nearly comparable to the basic model mentioned in (v) above;

All price differentials covering variations in the construction of these articles.

If the manufacturer was not making and selling new metal cots and double deck beds in March, 1942 he shall send the first price list which was in effect after March, 1942 showing the above.

(vii) Illustrations of the articles referred to in (vi) above.

(viii) A statement of the manufacturer's customary discounts, allowances and other price differentials to different classes of purchasers in effect for sales of new metal cots and double deck beds during March, 1942, or if the manufacturer was not making and selling new metal cots and double deck beds during March 1942, the same information for the first period after March 1942 during which the manufacturer was engaged in this business.

(ix) The proposed maximum prices to each class of purchaser for the article to be priced, and a statement of why the manufacturer believes those prices to be in line with the level of maximum prices established by this revised order.

Those proposed maximum prices shall be calculated as follows:

*Step 1:* The manufacturer shall determine the "unit direct cost" for the article being priced.

*Step 2:* The manufacturer shall select from the comparables for which maximum prices to retailers have already been established in Appendix A, the comparable which has a unit direct cost closest to the unit direct cost of the article being priced.

*Step 3:* The manufacturer shall determine the percentage markup over unit direct cost for the comparable selected.

*Step 4:* The manufacturer shall apply to the unit direct cost of the article being priced that percentage markup. The resulting price shall be the f. o. b. factory, l. c. l. maximum price for sales of the new article to retailers.

*Step 5:* The manufacturer shall calculate the retail ceiling price of the article by multiplying his proposed f. o. b. factory, l. c. l. maximum price to retailers by 184 percent, and rounding the result to the nearest five cents.

(2) In the absence of a contrary direction from the Office of Price Administration within 15 days after mailing his application, the manufacturer may offer the article in question for sale at the proposed maximum prices stated therein. If such proposed maximum prices are correctly computed they shall be subject to adjustment (but not retroactively) at any time by order of the Office of Price Administration if it appears that the maximum prices so established are out of line with the general level of prices established by this revised order. If the prices are incorrectly computed, the maximum price for a sale, offer to sell, or delivery of an article shall be the maximum price which is properly computed under the formula contained in this paragraph.

(c) If, before the issuance of this revised order, a manufacturer's maximum prices were established under paragraph (f) of Order No. 1470 for sales of any article covered by this revised order which is not listed in Appendix A, the manufacturer shall compute new maximum prices for his sales of that article as follows:

(i) He shall determine the weight of the wire in the article.

(ii) He shall determine the weight of the angles, flats and strips in the article.

(iii) He shall add to his maximum price established under paragraph (f) of Order No. 1470 the increase in his steel cost figured at $9.00 per ton in the case of wire; and $7.00 per ton in the case of angles, flats and strips.

The new maximum price so computed, the weight of the wire and the total weight of the angles, flats and strips, shall be reported by the manufacturer to the Office of Price Administration, Washington 25, D. C., before he first offers the article for sale at a price higher than the maximum price previously established for the article under Order No. 1470. If the reported maximum price is incorrectly calculated, the Office of Price Administration will issue an order establishing the correct maximum price for the manufacturer's sales of the article, which maximum price shall apply to all sales and deliveries of the article after April 20, 1946.

(d) If the manufacturer wishes to establish a maximum price for sales to a class of purchaser, or on terms and conditions of sale as to which he has no customary or established differentials to apply to his f. o. b. factory l. c. l. maximum prices, he shall file an application, giving the following information, with the Office of Price Administration, Washington, D. C.:

(i) The identifying number or trade name of the article being priced and its f. o. b. factory l. c. l. maximum price to retailers fixed in Appendix A or under this section.

(ii) The new class of purchaser to which he wishes to sell, or the new terms and conditions of sale which he wishes to use.

(iii) Why he cannot determine his maximum prices for his proposed sales by the use of his customary or established price differentials as provided in section 6.

(iv) The proposed maximum prices, and why the manufacturer believes them to be in line with the maximum prices established by or under this revised order.

After receipt of the manufacturer's application, the Office of Price Administration will issue an order establishing the manufacturer's maximum prices in line with the level of maximum prices otherwise established by this revised order. Such an order may also fix the maximum prices of resellers of the article. Maximum prices so established for manufacturers' sales will apply to all sales and deliveries of the article since Order No. 1470, or this revised order, became applicable thereto.

SEC. 4. *Jobbers' maximum prices.* This section establishes jobbers' maximum prices for sales of articles covered by this revised order. Section 7 of this revised order sets forth the obligations of jobbers in regard to the tagging of each article covered by this revised order with the retail maximum (ceiling) price. A jobber is a person who receives delivery of an article covered by this revised order, and resells it without substantially changing its form to a person other than the ultimate consumer.

(a) *Jobbers who sold the same manufacturer's article in March 1942.* To determine a jobber's maximum price for a sale under certain conditions of a particular manufacturer's new metal cot or double deck bed, the jobber shall follow the steps stated below:

(1) *First.* The jobber shall choose the most comparable new metal cot or double deck bed made by the same manufacturer which the jobber was selling in March 1942.

(2) *Second.* The jobber shall determine the dollar amount by which his price for the sale of this most comparable article under the same conditions in March 1942 exceeds the manufacturer's March 1942 regularly quoted f. o. b. factory, l. c. l. price to retailers for that article. "Regular quoted price" to retailers is the highest price at which the manufacturer made a substantial number of his sales to retailers.

(3) *Third.* The jobber shall then add the dollar amount determined in (2) above to the manufacturer's current f. o. b. factory, l. c. l. maximum price to retailers.

(4) *Fourth.* The jobber shall subtract five cents from the result of the third step. The resulting figure is the jobber's maximum price. However, if the resulting figure is an amount less than the manufacturer's maximum price for the particular sale, the jobber's maximum price shall be that maximum price of the manufacturer.

If the manufacturer did not have a regularly quoted f. o. b. factory, l. c. l. price to retailers in March 1942, the jobber shall determine his maximum price under the steps stated above, except that in the second step, he shall substitute

the manufacturer's "March 1942 regularly quoted f. o. b. factory carload price to retailers" for the manufacturer's "March 1942 regularly quoted f. o. b. factory l. c. l. price to retailers", and in the third step, he shall substitute the manufacturer's "March 1942 f. o. b. factory, carload maximum price to retailers", for the manufacturer's "March 1942 f. o. b. factory, l. c. l. maximum price to retailers".

(b) *Jobbers who did not sell the same manufacturer's article in March 1942.* If a jobber did not sell the same manufacturer's new metal cot or double deck bed in March 1942, his warehouse maximum price or his delivered maximum price for an article covered by this revised order shall be the maximum price established below:

(1) *Delivered maximum price.* The jobber's delivered maximum price shall be the manufacturer's delivered maximum price for sales to the same class of purchaser of the same article to the same point of delivery. If the manufacturer does not have such a delivered maximum price, the jobber's delivered maximum price shall be determined as follows:

(i) *First.* The jobber shall take the manufacturer's f. o. b. factory, l. c. l. maximum price to retailers for the same article, and

(ii) *Second.* The jobber shall add the freight cost actually incurred by him for shipment of the article from the manufacturer's factory to the jobber's point of delivery. The resulting sum is the jobber's delivered maximum price; except that the freight cost which may be added shall not exceed the freight charges for direct shipment of such an article from the manufacturer's factory to the jobber's point of delivery by the least expensive readily available public carrier.

(2) *Warehouse maximum price.* The jobber's f. o. b. warehouse maximum price shall be the manufacturer's warehouse maximum price for the same article f. o. b. warehouse in the same city. If the manufacturer has no such warehouse maximum price, the jobber's warehouse maximum price shall be determined as follows:

(i) *First.* The jobber shall take the manufacturer's f. o. b. factory, l. c. l. maximum price to retailers for the same article, and

(ii) *Second.* The jobber shall add the freight costs actually incurred by him for shipment of the article from the manufacturer's factory to the jobber's warehouse. The resulting sum shall be the jobber's warehouse maximum price; except that the freight cost which may be added shall not exceed the freight charges for direct shipment of such an article from the manufacturer's factory to the jobber's warehouse by the least expensive readily available public carrier.

SEC. 5. *Retailers' maximum prices.* (a) *Articles received by the retailer after the effective date of this revised order.* (1) *Listed maximum prices.* Maximum prices for sales at retail of most of the articles covered by this revised order are listed in Appendix A of this revised order.

(2) *Unlisted maximum prices.* (a) If the manufacturer's maximum price is determined under section 3 (b) of this revised order, or was established under paragraph (f) of Order No. 1470, the retailer's maximum price for his sale of the article is the retail ceiling price calculated by multiplying the manufacturer's f. o. b. factory l. c. l. maximum price to retailers by 184 percent. If the manufacturer's maximum price is established by an order of the Office of Price Administration under section 3 (d) of this revised order, the retailers' maximum price is the retail maximum price established by such order.

(b) *Articles in inventory on the effective date of this revised order.* If a retailer has an article covered by this revised order in his inventory on the effective date hereof, he shall determine his maximum (retail ceiling) price by multiplying his actual invoice cost for the article by 184 percent. Such articles must be tagged by the retailer as required by section 7 of this revised order.

(c) *Credit charges.* Charges for the extension of credit may be added to the maximum (ceiling) retail prices established by this revised order only to the extent permitted by this paragraph (c).

(1) Sellers who in March 1942 collected a separately stated additional charge for the extension of credit on sales of articles covered by this revised order or similar types of articles may collect a charge for the extension of credit on sales under this revised order, not exceeding such charge in March 1942 on a similar sale on similar terms to the same class of purchaser. Sellers who did not so state and collect an additional charge may collect a charge for the extension of credit only on installment-plan sales; and the charge shall not exceed the separately stated additional charge collected for the extension of credit on a similar sale on similar terms to the same class of purchaser in March 1942 by the seller's closest competitor who made such a separately stated charge.

An installment-plan sale, as used in the above paragraph, means a sale where the unpaid balance is to be paid in installments over a period of either (i) six weeks or more from the date of sale in the case of weekly installments, or (ii) eight weeks or more in the case of other than weekly installments.

(2) All charges for the extension of credit shall be quoted and stated separately. Any charge which is not quoted and stated separately, or which otherwise does not conform to this section shall, for the purpose of this revised order be considered to be part of the price charged for the article sold.

(3) No seller may require as a condition of sale that the purchaser must buy on credit.

SEC. 6. *Terms of sale.* Maximum prices established by this revised order are subject to each seller's terms, discounts, allowances and other price differentials in effect during March 1942, or approved under any order or regulation of the Office of Price Administration.

SEC. 7. *Retail price label.* (a) No person shall sell, offer to sell, or deliver, and no person shall receive delivery of an article covered by this revised order in the course of trade or business unless there is securely attached to such article a durable tag containing in easily readable lettering the following:

O. P. A. has established a retail ceiling price of $——— (insert correct figure) for this (insert "metal cot" or "double deck bed"). Lower prices may be charged.

This tag may not be removed until after delivery to the consumer.

Every article delivered to a jobber or a retailer, after the effective date of this revised order must have the tag described above securely attached to it at all times while in his stock (including those in warehouse or storage).

(b) A manufacturer or jobber who delivers an article covered by this revised order shall attach the tag described in paragraph (a) above to it. In most cases the person who must attach the tag will be the manufacturer but in those cases where articles are in the stock of jobbers or retailers, when this revised order becomes effective, they must attach the tag. As stated in paragraph (a) it shall be the responsibility of each jobber and retailer to see to it that a tag as described in paragraph (a) is attached to every new metal cot and double deck bed in his stock.

SEC. 8. *Sales slips, receipts, and invoices.* After the effective date of this order, every seller (other than at retail) making a sale of an article covered by this revised order shall furnish the purchaser with a sales slip, receipt, invoice or other similar written evidence of purchase showing the date of sale, the type of article sold—(metal rollaway cot, tubular end folding cot, etc.), the size of the article, the manufacturer's or seller's item number, the price charged for the article, the nature and amount of any additional charges, and the name and address of the seller and the purchaser. This sales slip, receipt or invoice or other written evidence of purchase shall be kept by the purchaser and a carbon copy of it kept by the seller for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 9. *Establishment of maximum prices in certain cases.* If any seller subject to this revised order fails to make the application for price approval which this order requires in certain instances, the Office of Price Administration may, either upon application, or upon its own motion, issue orders under this section establishing maximum prices which are in line with the level of maximum prices established by this revised order. Maximum prices, so established, shall be effective as of the date of first sale.

SEC. 10. *Relationship of this revised order to other regulations or orders.* (a) *Maximum Price Regulations Nos. 188 and 580, and the General Maximum Price Regulation.* This revised order supersedes the provisions of Maximum Price Regulations Nos. 188 and 580, and of the General Maximum Price Regulation, only to the extent that its provisions are inconsistent with the provisions of those regulations.

(b) *Supplementary Order No. 118 and Revised Supplementary Order No. 119.* Maximum prices established under this revised order may not be adjusted under Supplementary Order No. 118, Revised Supplementary Order No. 119, or Supplementary Order No. 133.

SEC. 11. *Revocation or amendment.* This revised order may be revoked or amended by the Price Administrator at any time.

[Region III Order G-23 Under Gen. Order 68]

### STOCK MILLWORK IN THE COLUMBUS, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an

installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Franklin County in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1, remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached table, are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers, or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valid at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in Table 1, are base prices for sales to ultimate users and are subject to the following discounts:

(1) A discount of not less than 5% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in less than house lots;

(2) A discount of not less than 10% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in house lots regardless of the time and method of delivery by the seller;

(3) For all sales made to bona fide "re-sellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis;

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such firm contract price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices set forth in the price list attached hereto.

(b) All sales shall be made subject to the allowances and discounts set forth herein. Every seller shall be subject to the notification invoice and record provisions set forth above. No provisions to this order shall supersede any requirement or prohibition set forth in any price regulation except insofar as the requirements of this order are inconsistent with requirements of any other regulation or order issued by the Office of Price Administration. Persons violating any provisions of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 29, 1946.

Issued March 15, 1946.

[Region III Order G-22 Under Gen. Order 68]

## STOCK MILLWORK IN THE NEWARK-ZANESVILLE, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Fairfield, Licking, Perry and Muskingum Counties in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in the table, remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached Table 1, are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in the table are base prices for sales to ultimate users and are subject to the following discounts:

(1) A discount of not less than 10% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in house lots regardless of the time and method of delivery by the seller;

(2) A discount of not less than 5% of these prices shall be granted to all bona fide purchasers for "resale on an installed basis" when buying in less than house lots;

(3) For all sales made to bona fide "resellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis.

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request, a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

[Region III Order G-18 Under Gen. Order 68]

## STOCK MILLWORK IN THE WILMINGTON, OHIO, AREA

For the reasons set forth in an opinion issued simultaneously herewith, filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Clinton, Fayette, Highland, Pickaway and Ross Counties in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in Table 1 remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached table are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order; *Provided*, He maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in the appendix are base prices for sales to ultimate users and are subject to the following discount:

(1) For all sales made to bona fide "resellers on an installed basis", a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis.

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to

make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and located on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request, a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA as long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such firm contract price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices set forth in the price list attached hereto.

(b) All sales shall be made subject to the allowances and discounts set forth herein. Every seller shall be subject to the notification invoice and record provisions set forth above. No provision to this order shall supersede any requirement or prohibition set forth in any price regulation except insofar as the requirements of this order are inconsistent with requirements of any other regulation or order issued by the Office of Price Administration. Persons violating any provision of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 29, 1946.

Issued: March 15, 1946.

J. F. KESSEL,
*Regional Administrator.*

[Region III Order G–17 Under Gen. Order 68]

STOCK MILLWORK IN ATHENS, GALLIA, HOCKING, JACKSON, MEIGS AND VINTON COUNTIES, OHIO

For the reasons set forth in an opinion issued simultaneously herewith, filed with the division of the Federal Register and under the authority vested in the Regional Administrator of the Office of Price Administration by General Order 68, it is ordered:

SECTION 1. *What this order does.* This order determines maximum prices for certain sales of the specified stock millwork items set forth in a price list designated Table 1, attached to this order and made a part hereof. These maximum prices shall be the only maximum prices for these items when sold to an ultimate user or to a purchaser for resale on an installed basis. It includes the type of sale referred to in the trade as a "contract sale" wherein the seller provides his own take off from plans and specifications, quotes a flat price, and guarantees enough material to complete the job.

SEC. 2. *Geographical applicability.* This order applies to all sales or deliveries made by any seller located in the area covered by this order, or any sales or delivery to any buyer located in this area. The area covered by this order shall consist of Athens, Gallia, Hocking, Jackson, Meigs, and Vinton Counties in the State of Ohio.

SEC. 3. *Relationship to other orders and regulations.* This order supersedes MPR 44 and MPR 293 and the General Maximum Price Regulation for all sales of the listed items covered by this order. Sales of any items not specifically described in the Appendix remain subject to all applicable regulations issued by the Office of Price Administration.

SEC. 4. *Maximum prices, allowances and discounts.* (a) The prices set out in the attached table are the maximum prices which may be charged for the items shown whether purchased from manufacturers, jobbers, or self-produced. Prices lower than the maximum prices may, of course, be charged or paid. Any seller may quote on a contract basis, wherein he takes off quantities from blueprints and guarantees sufficient material to finish the job, without violating this order provided he maintains records showing complete calculations for each item in his contract price and provided that the contract price is based on prices permitted by this order as well as any other applicable regulation. If quotations are made on a contract basis, however, and the quantity of stock millwork actually furnished is valued at less than the contract price, the maximum charge which may be made is the total of the maximum price for the items actually furnished and not the contract price.

(b) The prices set out in Table 1 are base prices for sales to ultimate users and are subject to the following discount:

(1) For all sales made to bona fide "resellers on an installed basis," a discount of not less than 2% of the net invoice for payment on or before the tenth of the calendar month following the date of delivery. This discount shall not apply on sales quoted and sold on a contract basis.

(c) *Delivery additions.* The prices set in this order include all additions or charges for delivery. No deduction need be made where the purchaser elects to make his own delivery. In those cases where the stock millwork is taken from the stock of a retailer's warehouse and loaded on cars for shipment to a purchaser for resale on an installed basis or ultimate consumer in a different area, the prices are f. o. b. cars.

SEC. 5. *Notification.* Each seller subject to this order and making sales covered by this order shall keep for inspection by any purchaser, and make available to such purchaser upon request, a copy of this order together with the price lists and prices established by this order.

SEC. 6. *Invoice.* Each seller subject to this order shall furnish to every buyer within ten (10) days after making a sale of any items covered by this order an invoice containing a sufficiently complete description of the millwork items sold to show whether or not the price is within the maximum permitted. Items covered by the order shall be invoiced by the same description as listed in the attached price list.

SEC. 7. *Record keeping.* Each seller must keep at his place of business available for inspection by representatives of the OPA so long as the Emergency Price Control Act of 1942 is amended or remains in effect, records concerning each sale covered by this order, showing the following:

1. Name and address of purchaser.
2. Place of delivery.
3. Date of transaction.
4. An itemized description of the materials and services invoiced, and the prices charged.
5. If the stock millwork is sold on a firm contract price basis and includes two or more different items, the seller must keep a record describing his calculations of each item sold by reason of such firm contract price.

SEC. 8. *Prohibitions and evasions.* (a) No person shall sell, and no person shall buy in the course of trade or business at prices greater than the maximum prices set forth in the price list attached hereto.

(b) All sales shall be made subject to the allowances and discounts set forth herein. Every seller shall be subject to the notification, invoice and record provisions set forth above. No provision to this order shall supersede any requirement or prohibition set forth in any price regulation except insofar as the requirements of this order are inconsistent with requirements of any other regulation or order issued by the Office of Price Administration. Persons violating any provision of this order are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

SEC. 9. *Posting.* Every seller making a sale covered by this order shall post a copy of the list of maximum prices fixed by this order.

SEC. 10. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 25, 1946.

Issued March 11, 1946.

J. F. KESSEL,
*Regional Administrator.*

(d) *Relationship between this order and Special Order No. 1 Under Basic Order No. G–74.* All dealers subject to this adopting Order No. G–76 may add to the maximum prices established herein the increase of maximum prices authorized by Special Order No. 1 under Basic Order No. G–74 on all sales made between the effective date of this Order No. G–76 and April 20, 1946. The special authorization granted by Special Order No. 1 expires on that date, and consequently is not applicable thereafter.

(e) *Maximum prices.* The maximum price hereby established for each sale of bituminous coal to domestic consumers in the Southwestern Indiana area when made by dealers who transport such coal from the mine to the consumer by truck is the sum of (i) the mine cost of the coal and (ii) the margin permitted for such sale. The margins permitted by this order for the sales of coal covered herein have been determined according to the distance that the coal is hauled and are as follows:

| Distance of haul (mine to consumer): | *Permitted margin per ton* |
|---|---|
| 8 miles and under | $1.25 |
| Over 8 to and incl. 15 miles | 1.50 |
| Over 15 to and incl. 22 miles | 1.75 |
| Over 22 to and incl. 30 miles | 2.00 |
| Over 30 to and incl. 40 miles | 2.25 |
| Over 40 to and incl. 50 miles | 2.50 |
| Over 50 to and incl. 60 miles | 2.75 |
| Over 60 to and incl. 70 miles | 3.00 |
| Over 70 to and incl. 80 miles | 3.25 |
| Over 80 to and incl. 90 miles | 3.50 |
| Over 90 to and incl. 100 miles | 3.75 |
| Over 100 to and incl. 110 miles | 4.00 |

(f) *Additional charges authorized for split loads.* On all sales where a consumer purchases a portion of a full truck load and the dealer finds it necessary to reweigh the load, he may charge the consumer the cost of reweighing and may

also add $0.25 per ton to his maximum price on all tonnage in the split load. The dealer in such case is required to furnish the consumer with a weigh slip showing that the load has been reweighed.

(g) *Records.* Paragraph (1) of Basic Order No. G–74 under Revised Maximum Price Regulation No. 122 requires that records of all sales must be kept on file. This provision is modified as it applies to this adopting Order No. G–76 so as to provide that copies of all sales slips be kept in the cab of the dealer's truck or trucks for inspection for a period of sixty days after the date of delivery.

(h) *Posting of maximum prices.* Paragraph (m) of Basic Order No. G–74 under Revised Maximum Price Regulation No. 122 provides that each dealer shall post his maximum prices at his place of business. This provision is modified as it applies to this adopting order so as to require the posting by the dealer in the cab of his truck his mileage chart of permitted margins.

(i) *Sales slips.* Paragraph (n) of Basic Order No. G–74 under Revised Maximum Price Regulation No. 122 requires certain information to be shown on the sales slip given to the purchaser. This requirement is modified as it applies to this adopting order so as to require that, in addition, dealers covered by this adopting order must show:

(1) The name of the mine operator.
(2) The mine index number and location.
(3) The mine price.
(4) The permitted margin.

This order may be modified, amended or revoked at any time by the Office of Price Administration.

This order shall become effective March 22, 1946.

Issued March 8, 1946.

[Region III Order G-16 Under RMPR 251]

INSTALLED ROOFING IN WOOD, WIRT, PLEASANT AND RITCHIE COUNTIES, WEST VA.

An opinion accompanying this order issued simultaneously herewith has been filed with the Division of Federal Register.

In the judgment of the Regional Administrator of Region III of the Office of Price Administration, the maximum prices established by this order are generally fair and equitable, and are necessary to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

Therefore, under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by the Emergency Price Control Act of 1942, as amended, and by section 9 of Revised Maximum Price Regulation No. 251, it is ordered that:

SECTION 1. *What this order does.* This order fixes maximum prices for all sales of roofing when sold installed on residential structures in the area hereinafter described.

The term "roofing" includes composition roofing, such as 12" (3 in line) asphalt single strip shingles of 210 pounds per square. A square consists of 100 square feet.

The term "roofing" when sold installed means and includes related materials and services of installation of such materials such as nails, felt, hauling and cleaning and paint.

The term "incidental" construction work in connection with "roofing" means any installation of building materials or construction work other than installed roofing described in this order when sold by installers of roofing.

"Installed basis" in connection with "roofing" means a transaction in which the seller furnished roofing materials and related materials and related materials or services required to incorporate such roofing into a building or structure.

The term "residential structure" means any building, structure or part thereof, used entirely or principally for living or dwelling purposes and includes buildings or structures in connection therewith, or adjacent thereto, at the same site, such as garages, barns, milk houses, sheds, granaries and other outbuildings, but does not include hotels.

SEC. 2. *Applicability.* This order shall apply to all sales made in the following counties in the State of West Virginia; Wood, Wirt, Pleasant and Ritchie.

SEC. 3. *Relationship of this order to Revised Maximum Price Regulation No. 251.* (a) The provisions of this order supersede sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales of roofing when sold installed on residential structures. All other provisions of Revised Maximum Price Regulation No. 251 not inconsistent with this order are applicable to transactions covered by this order.

(b) On and after the effective date of this order, regardless of any contract or other obligation, no person shall contract to sell, offer to sell or deliver roofing sold on an installed basis on residential structures as herein defined, at prices higher than the maximum prices established by this order, *Provided,* That deliveries made not more than thirty days after the effective date of this order on bona fide contracts executed prior to the effective date of this order shall not be considered to be violations of this order.

SEC. 4. (a) *Maximum prices for sales of roofing on an installed basis.* The maximum prices for sales of roofing on an installed basis on residential structures shall be as shown in the following Table 1, and shall be upon a price per square.

TABLE 1

12" (3 in line) Strip Asphalt Shingles, 210 lbs. per square—$13.00 (per square) including felt, hauling and cleaning, paint and nails. If valleys and/or flashings around chimneys are installed the following extra charges may be made:

1. Valleys of 26 gauge tin, 20 inches wide: $.25 per lineal foot.
2. Chimney flashings: $6.50 for each chimney.

SEC. 5. *Guaranteed prices.* A seller may sell a roofing job covered by this order on the basis of a guaranteed price, but such guaranteed price must not be higher than the maximum price figures in accordance with the pricing methods and requirements of this order.

SEC. 6. *Incidental construction work.* If, on any job, any installed building materials are furnished or any construction services performed by the seller, other than roofing and related materials and services the cost of such work shall not be included in the cost of installed roofing, but shall be separately priced and billed on all invoices. The maximum price of any incidental work shall be determined under the Revised Maximum Price Regulation No. 251, or other applicable regulation or order.

SEC. 7. *Measurements.* It shall be the seller's responsibility to measure with reasonable accuracy the area or footage to be covered. A "measurement with reasonable accuracy" shall be considered to have been made if the price based on such estimate does not vary by more than 3% from the maximum price computed under the terms of this order.

SEC. 8. *Notification.* Every person making sales subject to this order shall, if requested by the purchaser, make available to the purchaser a copy of this order and copy of Revised Maximum Regulation No. 251. Upon completion of any contract for installed roofing and/or incidental construction work, the seller, if requested by the purchaser, must furnish to him an itemized statement showing the number of squares, the maximum price per square of roofing installed, and a separate statement of any incidental construction work other than installed roofing, giving a description of such work and an itemized statement of the prices thereof. The seller shall also include in such statement of the prices thereof. The seller shall also include in such statement the date on which the installation was completed, the names and addresses of the sellers and buyers, job site and terms of sale.

SEC. 9. *Evasion.* Any practice or device which results in a higher price to the purchaser of roofing on an installed basis and incidental construction work than is permitted by this order is a violation, and subjects the seller to all the penalties provided by the Emergency Price Control Act of 1942 as amended.

SEC. 10. *Records.* All sellers of installed roofing and incidental construction work covered by the terms of this order must keep records concerning each sale subject to this order, including the name and address of the purchaser, the location of the job, the date of the transaction, a description of the materials and services involved, the number of squares and price per square of roofing, a separate statement of any incidental construction work, and the total charge for the entire job.

All such records shall be made available for inspection by representatives of the Office of Price Administration so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

SEC. 11. *Revocation or amendment.* This order may be revised, revoked, or modified at any time by the Office of Price Administration.

This order shall become effective March 15, 1946.

Issued: March 1, 1946.
